Clothing Wanted in Belgium—Kind of Garments Needed.

Starting Monday, September 23, and ending September 30, American Red Cross Chapters throughout the United States are doing their utmost to collect 5,000 tons of durable cast-off clothing for the Commission for Relief in Belgium.

Ten million people imprisoned in occupied Belgium and Northern France are in dire need of clothing, with the winter fast approaching. The Commission will take charge of the shipment overseas and distribution; the Red Cross Chapters will have charge of the collection in America.

H. P. Davison, chairman of the Red Cross War Council, at the request of Herbert Hoover, Chairman of the Commission for Relief in Belgium is asking every Red Cross Chapter to assist in this undertaking.

Every kind of garment for all ages and both sexes is urgently needed. In addition, piece goods, light, warm, cotton flannel and other kinds of cloth from which to make garments or new born babies, ticking, sheeting and blankets, woolen goods of any kind, and shoes of every size are asked for. Scrap leather is needed for repairing footwear.

Since the clothes will be subjected to the hardest kind of wear, only garments made of strong and durable materials should be sent. It is useless to offer to any afflicted population garments of flimsy material or gaudy coloring. Make the gifts practical.

Garments need not be in perfect condition. A hundred thousand destitute women in the occupied regions are eager to earn a livelihood however inadequate, by repairing gift clothing and making new garments adapted to needs with which they are familiar.

NEWS OF SOLDIER BOYS.

Lieut. Haywood Henderson, after a few days' furlough at his home here, left Tuesday for Camp Taylor, Ky.

Ensign William Menefee, in aviation camp at Akron, Ohio, arrived Saturday for a few days' stay here with his parents, Mr. and Mrs. J. W. Menefee. He is limping slightly on account of a sprained ankle received when landing his aeroplane.

Lieut. Chas. Menefee, of 61st Pioneers, Camp Wadsworth, Spartanburg, S. C., spent Sunday and Monday at his home here.

Private Kenneth H. Moser, in France with 321st Inf., is reported to have been seriously wounded on Aug. 24th. The casualty was reported in the papers Tuesday, but the family was notified some ten days before. He is a son of Mr. and Mrs. H. M. Moser of Graham, who have two other boys in the service.

From "Somewhere in France" Thos. D. Cooper Writes to His Mother, Mrs. Julia S. Cooper in Graham.

August 28, 1918. Dear Mother, and the others:—I received Myrtle's letter yesterday saying that the papers stated that the unit to which I belong had been on the firing line. So I don't see that it is any harm to verify that statement, for I am sure that the nooses have learned it also to their sorrow. The boys were eager to get at him and they went "over the top" with a will. Being an Observer, it was my job to stay behind on some high spot and see and report on how they did it. Well "Jerry" evacuated, but very unlike the Arab, he didn't do it quietly for falling all over himself in going, neither did he take time to fold his tent. Sometime after, one of our fellows who wasn't getting enough excitement skinned out across "No Man's Land" after dark, in search of game. When on stepping into the German trench, he met an officer, some Colonel, or something, coming out of a dug-out, in which were several more laughing and having a good time.

The "Bammie" gave this one on the outside about four inches or beyond just where we all store our "bully beef" presented the others with his regards in the form of throwing two or three ignited hand grenades into the dugout, and then strolled back across "No Man's Land," as the English say, "The bloody Yanks" think no more of it than being at a blooming "Tea Party."

Next is an experience of my own, tho' not so blood-thirsty and thrilling as that was on a mission, some time ago, when it became dark and I lost my way. As I was riding a motorcycle it was not long before I was a good way off my route, for I was just about the sickest misty nights, the kind when owls wear glasses; and I was on a strange road. Look out! I'm nearing the climax. Although I was riding slow to try to get my bearings, "Jerry" appeared at this stage of the comedy, in the form of a traffic cop. He dropped a shell on the side of the road just ahead of me, tearing down a tree across the road to bar my way. There is where I fooled him to a certain extent, for I was too close to stop in time to keep from hitting that tree, so he stopped the motor, but not me—until a few yards further on. I wasn't hurt one bit, but after I had picked myself up and pushed that broken motorcycle a mile up the road to a first aid station, I told the man in charge that I was just about the sickest person he had seen in this war. After an examination my ailment was found to be, being lost and tired of riding strange roads at night. The cure was hot coffee, and a bunk till morning. Here this episode ends—I found my way. Don't take these things to heart, for while they are true, such happenings occur often: Webster's Vest Pocket is an aid to elaboration.

With love for all, I'll stop and go pick a fight.

P. S. All the boys from home have had good luck.

Fourth Liberty Loan.

The campaign for the Fourth Liberty Loan will start Saturday, 28th inst. The Government is calling for Six Billions to help prosecute the war to a successful conclusion. This is the largest loan the Government has asked. To raise this loan it will require a subscription of \$60 for every man, woman and child in the United States, and it is therefore the duty of everyone to subscribe to the limit of his ability to pay.

This must be won by America and her Allies and to do it, it is as necessary that the Government have money as it is that the individual have food to live upon.

STOMACH AND LIVER TROUBLES.

No end of misery and actual suffering is caused by disorders of the stomach and liver, and may be avoided by the use of Chamberlain's Tablets. Give them a trial. They only cost a quarter. For sale by all dealers.
