LOCAL NEWS.

Unless you are registered you will try in vain to vote. Look after the matter now.

Mr. Chas. F. Reeves, who recently bought the J. L. Scott residence on E. Hazden St. is having it repaired and remodeled before moving.

Mrs. Sarah B. Cates, past 90 years and greatly beloved lady of Burlington, died the latter part of last week. She was held in the highest esteem by everyone.

The registration books are open. They will close Oct. 20th. If you are not registered do so now before you forget it. Mr. A. R. Henderson is the registrar for Graham township.

Dr. P. H. Fleming attended the funeral of Mrs. J. G. Anthony in Greensboro Tuesday. She was a member of his congregation while he was pastor of First Christian church of that city.

The work on the concrete road between the corporate limits of Graham and Burlington is progressing quite well just now. A force is at work on each end now, building toward the center.

The GLEANER is having its troubles on account of influenza. Mr. Lon G. Turner was attacked by it last Friday night. He is improving but will not be able to go on duty for a few days yet. Another, Mr. B. N. Turner, is sick from a severe cold, which cripples its force so that it is hard work to get out a paper this week.

Liberty Bonds.

Alamance has subscribed more than her quota, but she will have to subscribe far above it to help make up for those who should, but do not, subscribe.

Mr. Edwin Scott Buried Sunday.

Last week the death of Mr. Edwin Scott at Camp Humphreys, Va., on Wednesday was noted in this paper. The remains arrived at Mebane Sunday and were carried direct to the cemetery at Hawfields for interment.

Among the Sick.

While a number of people here are sick from influenza none are considered extremely ill except Mr. and Mrs. Wm. I. Ward. Both have pneumonia. Mr. Ward is improving slightly, but Mrs. Ward is extremely ill.

Influenza in County.

Spanish influenza has spread to almost all parts of the county. It is in all the towns to a greater extent than in the country. From reports it seems to be worse at Mebane, Haw River and Burlington than in other towns and villages, and worse at Haw River than in any of the towns.

Died in Asheville.

Mr. Claud Heritage, son of Mr. Alfred R. Heritage, was buried at Providence Sunday. He was living in Asheville where he died Friday of pneumonia, following influenza. He was about 27 years of age. He is survived by his widow and one little child. His wife was sick and unable to attend the funeral.

Clean-Up Week.

The Woman's Club and the town and health authorities have appointed next week—the 21st to the 26th—as clean-up week. They want you to clean up and disinfect your back lots and place all rubbish on the sides of the streets so that it can be hauled away. This is in the interest of health and cleanliness.

Mr. John R. Browning Died Tuesday.

After an illness and decline in health covering a year or more, Mr. John R. Browning died Tuesday at his home here, aged 56 years. The burial takes place at Linwood Cemetery this afternoon. Deceased is survived by his widow and ten children—six sons and four daughters. Three of the sons were away at the time—Willie at Camp Hancock, Ga., Ben at work in Virginia and Lige at work in Raleigh, all of whom were at home for the funeral.

Influenza Masks for Doctors and Nurses.

Dr. P. H. Fleming, Secretary of the Board of Health, requests us to say that the Red Cross Society of the county has provided influenza masks for the use of doctors and nurses, and that they are to be found at Graham Drug Co., Graham, N. C., and Burlington Drug Co., Burlington, N. C. Physicians and nurses in need of them will please make application to these drug stores for them. They are free.

YOUTH-TIME

The important time to lay a strong foundation for robust manhood is while life is young and the body developing. A growing child needs every possible help to conserve energy and confirm the body in vigorous health. To a developing child

SCOTT'S EMULSION

comes with particular help. Thousands of the strong men and women of today were in youth-time nourished and strengthened to withstand the inroads of disease by the consistent use of Scott's.

The Women Save England.

New York Times.

Fully 6,000,000 women in the United Kingdom are engaged in whole-time work much of which, in one way or another, is essential to the war.

Harold Begbie, an English journalist and novelist, writes in a London newspaper. In three years 621,000 women were added to the payrolls of England's munition factories, he asserts. Incomplete figures which he compiled showing the number of women in various trades and occupations, follow:

Metal, chemical, and textile 2,708,000

Admiralty, dockyards, ordnance, etc., 210,000

Finance, banking, commerce, 946,000

Transport, including trains, 111,000

Local authorities' service, 231,000

Agriculture (not including 1918 recruits), 74,000

Hospitals, 64,000

Civil service (including Post Office), 190,000

Hotels, taverns, theatres, etc., 207,000

In addition there are nearly 200,000 women employed in a service of a military nature, such as the Queen Mary's Auxiliary Corps and the Women's Naval Service.

Our Amazons, Begbie says, have saved us. We could not have continued the struggle without their help. They have not only enabled millions of men to be enrolled in the army; they have doubled and trebled the national output of munitions of war.

Note of Thanks.

We wish to express our appreciation and thanks for the many kindnesses shown us by neighbors and friends during the sickness and death of husband and father, John A. Foust.

Mrs. JOHN A. FOUST AND FAMILY.

Mr. Foust was one of the best men in Southern Alamance. He was held in high regard by all who knew him. His home was near Bethel church, Newlin township.—EDITOR.

Thirty-seven Cases to Date.

Chief of Police W. H. Boswell, in order to satisfy himself of the real situation in regard to influenza in Graham, arose at an early hour this morning and went all over town, street by street. As he went along he enquired and took note of all cases thus far. He found 37 cases.

Some of them were well, others were up but had not left their homes. He found seven cases in one family all improving. There have been two or three serious cases. So far there have been no deaths in cases originating here; but one person died here, having come home while very ill.

It can be safely said that the situation is improving at present.

Having voted and registered, the intelligent and patriotic citizen is now all set for the liberty loan drive.

Most of the editorial writers see Germany's hand in the Austrian peace move. How do you suppose those astute men happened to ferret that out?

Did you put your Liberty bond coupons in war savings or thrift stamps?

My idea of the last word in binality is expressed by the paragrapher who calls Senator Lewis "J. Han," and thinks it funny.

Neutral countries should band themselves into a League of Free but Easy Nations.

Wash the Socks You Knit With GRANDMA'S Powdered SOAP

WOOLEN SOCKS will not shrink, get hard or knot up when washed with Grandma. No more heartaches after spending hours knitting a pair of socks and then having them ruined by washing with an inferior soap.

GRANDMA'S Powdered SOAP

Follow these instructions and you will never have any trouble: Sprinkle some Grandma in luke warm water—wonderful suds in an instant. Wash the socks in this water then rinse in clear, luke warm water. After rinsing shake out well (do not wring) then hang up to dry slowly. Socks washed this way with Grandma are sure to be soft and fluffy and easy on the feet.

There are hundreds of other uses for Grandma. It is the greatest "all-round" household soap of the age and is by far the most economical. It's powdered—you measure it out with a spoon—no waste. Try it today.
