Emergency Hospital.

It was a capital idea to turn the Gov. Holt residence at Haw River into an emergency hospital. The residence contains about a dozen large, well ventilated rooms, equip-ped with all modern conveniences. It stands well back and can be kept perfectly quiet. There was being treated about 30 cuses of influenza there at last accounts, and it is noted that the disease is now under fairly good control there. Influenza In Graham.

A week ago today there was reported 77 cases of influenza in Graham. For the four or five days following it spread rapidly and the number must have approximated 200. The crest seems to have passed as only about half a dozen new cases have been heard of in the past 24 from cases originating here. It is to be hoped that the worst is passed.

Much Hay.

A number of farmers have told us about the quantity of fine peavine and soja bean hay they have been able to cure and put up during the past few weeks. The quantities range from ten to sixty tons. Emergency Hospital Opened.

The rapid increase of influenza in Graham last week called for extraordinary measures to care for the sick. Recognizing the necessity of immediate action, a meeting of Red Cross workers was called Saturday morning to lay plans for action. Without delay it was decided to open an emergency hospital, secure competent nurses and arrange to supply nourishment beat suited to the needs of the sick. A suitable building for a hospital was the first matter to be settled. The Presbyterian manse was found to be available, as Dr. McConnell had just packed up his household effects preparatory to going to Florida. It was cleared at once and thoroughly cleaned and aired. Cots, beds and bedding were arranged for and these were put in Sunday. Before the day was over arrangements were moved in. The manse was apparently inadequate owing to the increase in cases, and Monday it was arranged to use the Sunday School class rooms at the Presbyterian church in connection with the manse. This arrangement was better still as the church is sunplied with heat, water a kitchenette and other conveniences, making it ideal for the purpose.

In the meantime a nurse of experience had been secured through good offices of the State Board of Health to help in the organization. She came, but found matters in such excellent shape that her services were not further required after a stay of a couple of days. Two graduate nurses are now in charge aided by volunteer nurses. An expert passed this way the first of the week and gave the arrangemen' here unstituted praise.

Somewhere In France.

September 21st, 1948. DEAR MAMA:-

After wandering all over Franc we have at last landed on the front. Although this is not one of the real lively sectors, they shoot through just the same. Last night I watched a fight with an aeroplane, and several pieces of

Robert's whereabouts ever since I have been over here, but do not find any one that has seen his Division, and information of that kind is very hard to get any way. Night before last we hiked all

What do you think of the war news now? It still looks good to me. We have been fortunate in getting an American paper that is printed in Paris most every night, and believe me we certain-

Somebody's Dollars Will Do It-I Wonder if They'll Be Yours

By Bruce Barton WILL tell you what will happen some night this winter in France. Some night when its cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy ladened Secretary will make

his way along. In his hands will be great steaming pots: in his pocket chocolate and ciga

From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke. Men will hail him cheerily, slapping him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.

How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?

Five dollars? Twenty-five dollars?

But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five—wouldn't you? That some-night when it's cold and lonesome, my money and yours might send a Secretary out along that frontline trench. Let's make up our minds that we are going to pay for a score of those trips. A score of the nights this winter shall be our nights

—nights when the boys greet joy-ously the chocolate and cigarettes that our money provided; and are happier because our representative has passed.
