ISSUED EVERY THURSDAY.

J. D. KERNOLY, Editor. \$1.00 A YEAR, IN ADVANCE.

ADVERTISING RATES: One square (1 in. x 1 in.) 10 cents. For more space 1/3 longer time, rates furnished on application. Local notices 10 cts. a line for first insertion; subsequent insertions 5 cts. a line. Transient advertisements must be paid for in advance.

The editor will not be responsible for views expressed by correspondents.

Entered at the Postoffice at Graham, N. C., as second class matter. GRAHAM, N. C., Nov. 7, 1918.

DEMOCRATIC VICTORY IN ALAMANCE

Large Vote Polled; Majorities Several Times Larger Than Two Years Ago.

SENATOR SIMMONS GETS 40,000 OR MORE.

United States Senate Still Democratic; House Lost to Republicans By a Majority of 16 or More.

Alamance is still Democratic. The majorities average from 275 to 285 or more—8 to 10 times larger than two years ago. Every Democrat on the ticket gets a handsome majority. Alamance has spoken loudly in approval of Democratic supremacy.

The State has gone largely Democratic and has done itself credit in returning Senator Simmons to the United States Senate by more than 40,000 majority.

Every Congressional district in the State sends a Democrat to the next Congress.

The Fifth district returns that grand old man, Maj. Chas. M. Stedman, to Congress by the largest majority he has ever received—5,000 or more majority over his Republican opponent.

The United States Senate is still Democratic, but the Republicans have won the House by 16 or more majority.

President Wilson's momentous part in the great war should have vouchsafed to him a Democratic Congress to hold up his hands; but some of the people decided otherwise.

WAR NEWS.

Austria and Turkey are out of the fighting.

It is Germany now, alone against the allies, and it is not believed this enemy will hold out long, but if he should so determine he could fight a year or more it is believed by competent authorities. It would be a losing game for him and at the end he would be in a worse condition than to quit now.

Armistice negotiations are in progress. Germany may or may not accept the terms, but in the meantime there is no let up by the Allies in delivering hard and effective blows.

ELECTION RETURNS.

Today the returning officers for the county are canvassing and tabulating the vote of Tuesday. Next week we will give the vote in tabulated form. To do so this week would delay the issue of this paper a day or more.

Negro Lynched in Wake County.

A negro named George Taylor, who had given the officers trouble before, was lynched in the Rolesville section of Wake county Tuesday night about 7:30 o'clock. He had been arrested at Wilson and was brought before Mrs. S. L. Rogers, the victim of a criminal assault, and identified. Four others had been arrested and brought before her, but were exonerated. Masked men took Taylor from the officer, hung him by the feet a half mile from the Rogers home, lacerated his body and filled it with bullets. Mrs. Rogers was alone with her 6-week-old baby when assaulted.

PROF. STACY CHAIRMAN FACULTY OF UNIVERSITY.

Subject for High School Debate Announced—Officers' Training School Applications.

BY ROBERT W. MADRY.

Chapel Hill, Nov. 4.—Professor M. H. Stacy, Dean of the College of Liberal Arts, was elected chairman of the faculty to perform the duties of President of the University of North Carolina, whose death occurred on the 26th, at a meeting of the Executive Committee of the Board of Trustees of the University held in Raleigh last Thursday.

Dean Stacy is a University graduate of the class of 1902, also a graduate student of Carroll University, 1905-'06. He has been a member of the faculty of the University since graduation, as instructor in Mathematics, associate professor of Civil Engineering, acting Dean of the College of Liberal Arts and Dean of the College of Liberal Arts. He enters at once upon his duties as chairman of the faculty.

Dr. H. W. Chase, Prof. of Psychology, was appointed Acting Dean of the College of Liberal Arts. The Executive Committee granted a leave of absence to Dr. J. G. deRouillac Hamilton, head of the department of History, to become regional director of the War Issues Course of the S. A. T. C. for the South Atlantic States, and authorized Professor P. H. Daggett temporarily to assume the duties of regional director of the S. A. T. C. for the same district.

The Governor was authorized to appoint a committee of five to co-operate with a similar committee from the faculty upon a suitable memorial for the late President Graham.

"Resolved, That the government of the United States should adopt a policy requiring one year of military training of all able-bodied men before they reach the age of 21." is the query selected for the High School Debating this year, according to the announcement just made public by the Secretary, Dr. L. A. Williams.

War conditions make it necessary to modify somewhat the method of procedure in recent years. The change is characterized by two distinct features. In the first place, there will be two preliminaries held throughout the State previous to the contest at Chapel Hill. In the second place, the semi-final contests at the University will be conducted as debates.

All applications for officers' training schools made through military headquarters of the University should be in as early as possible, according to Capt. Chas. C. Helmer, Commander in Charge, who will be glad to furnish application blanks on request. Infantry, artillery, and machine gun schools are open not only to September 13 registrants but to all registrants in class 1, except those in deferred classification on account of industry or occupation, including agriculture.

CHRISTMAS PARCELS FOR SOLDIERS OVERSEAS.

Boxes for Packing Furnished by Red Cross Branches—Parcels Will be Forwarded Nov. 15th.

1. Any person receiving a Red Cross Christmas Parcel Label from a soldier overseas can secure a carton packing Christmas boxes from Graham Branch Alamance—Chapter Red Cross, by calling at Red Cross Work Room at Graham between the hours of 10 and 12 a. m., November 9th; or, at the office of Parker & Long any time until November 14th.

2. If you live in the vicinity of Haw River, Swepsonville, Saxapahaw, Mandate, Bette, or Sylvan, you can secure boxes by making application through the respective Branches at these places.

3. The boxes should be packed in accordance with the Rules and Regulations, and returned to the Headquarters of Graham Red Cross Chapter for inspection and mailing on November 15th with out fail.

This November 5, 1918. MRS. E. S. PARKER, JR., Chairman Committee on Christmas Boxes.

Ever Salivated by Calomel? Horrible!

Calomel is Quicksilver and Acts like Dynamite on Your Kidneys.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile ducts, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all backed out, and feel that you need a dose of dangerous calomel, just remember your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate. Don't take Calomel! It makes you sick next day. It loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't grip.

POSSIBILITY OF SAVING 12,000,000 BUSHELS CORN

Feeding Part Ration of Cottonseed Meal to Work Stock and Hogs Great Conservation Measure—Fertilizer Value Would Be Saved—Farmers Can Gain \$18,000,000.

There are in the State of North Carolina 185,000 horses and 200,000 mules, a total of 385,000 head of work stock. Repeated and conclusive tests have shown that a grain ration of about two pounds of cottonseed meal is substituted for four pounds of corn is a better balanced and more valuable ration for the average horse or mule than an all-corn grain ration.

If the better-balanced ration, containing two pounds of cottonseed meal, were fed 285 days in the year to every head of work stock in the State, it would furnish a market for 146,000 tons of meal, which would take the place of approximately 10,000,000 bushels of corn.

The 146,000 tons of meal would be worth, at present prices, \$7,430,000. The corn which it replaces would be worth, at \$2 per bushel, \$30,000,000, a clear gain to the farmer or feeder of \$12,570,000.

Approximately 2,000,000 hogs will be finished and slaughtered in North Carolina during the fall and winter. Probably 100 pounds of cottonseed meal is fed in two periods separated by a period of three or four weeks, during which meal was taken from the ration, could be fed to each hog in place of a larger quantity of corn, and produce a firmer, better finish and make cheaper gains. Using only 60 pounds per head, however, assuming that the meal takes the place of only the same weight of corn—but remembering that it gives a quicker, better and cheaper finish—60,000 tons of meal might be used to save 2,130,000 bushels of corn. The 60,000 tons of meal would be worth \$3,150,000; the 2,130,000 bushels of corn, \$4,260,000.

Thus, the feeding of cottonseed meal in a balanced ration to work stock and to swine would save in North Carolina more than 12,000,000 bushels of corn and give the farmer in cash, as the difference in the market value of the two feeds, the sum of \$12,570,000 in cold cash.

The story does not end here, however. The cottonseed meal in the manure from the animals would have a theoretical value of approximately \$8,000,000, upon the presumption that it would retain 75 per cent of its fertilizing value after passing through the animal; and it would actually increase the value of the manure, after figuring out the waste and loss, probably \$4,000,000 to \$5,000,000.

MILL FEED USERS MUST SIGN PLEDGE

On Account of Shortage, Use of Wheat Feeds is Restricted to Dairy Cattle, Poultry, and Young Pigs and Young Calves.

Raleigh.—The Food Administration has issued an order forbidding the sale of wheat mill feeds except to consumers who sign a pledge agreeing not to use such feeds except for dairy cattle, poultry, young pigs and young calves. This order is in line with the nation-wide policy made necessary by the acute shortage of wheat mill feeds.

In some sections bran, middlings, shorts, red dog and other mill feed products have been used in feeding work stock, beef cattle and mature hogs. In North Carolina the practice of feeding mill feeds to hogs is quite prevalent.

"What we must secure," declared Mr. Page, "is the utmost elimination of waste by the careful feeding of animals and the use of other concentrates in the place of wheat mill feeds and the use of all roughage available. For all classes of livestock, especially hogs, we must turn to the use of cotton seed meal and more liberal quantities of velvet bean meal, as well as corn. Unless we can secure the care, care and specialized use of mill feeds sought under the new plan, our dairy production of the United States is bound to fall and to jeopardize the food supply of our people. Otherwise it will be necessary to release the price restrictions on mill feeds and allow them to take their natural course."

The pledge which all users of mill feeds are required to sign is as follows: "In order to assist the Food Administration in the distribution of mill feeds, I hereby undertake on honor not to use wheat mill feeds for any purpose than the feeding of dairy cattle, poultry, young pigs or young calves, or the preparation of a weakly bran mash for work animals. I will not feed any more wheat mill feeds than is absolutely fed to such animals, and I further agree not to have at any one time more than a 60-day supply of mill feeds on hand."

A barrel of syrup in the cellar is worth a ton of sugar in Java.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. It is a great trouble and is a constitutional disease and is incurable. Scientific tests have proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by Dr. J. C. Hall & Co., Toledo, Ohio, is the only Catarrh cure on the market. It is taken internally in doses from 10 drops to 100. It acts directly on the blood and cleanses the system. The system. The one hundred dollars for any case it fails to cure. Send for full particulars to Dr. J. C. Hall & Co., Toledo, Ohio. Sold by Druggists, etc.

Take Hall's Family Pills for constipation.

Just as it is demonstrated that the American gas masks are the best ever made, the Huns turn off the gas.

Why worry, our wheat crop will amount to nearly a billion bushels and this year's tobacco crop will be the largest ever known.

RUB-MY-TISM—Antiseptic, Relieves Rheumatism, Sprains, Neuralgia, etc.

"SPANISH INFLUENZA"—SOME FACTS ABOUT IT AND HOW TO PREVENT ITS SPREAD.

Rules To Observe Given By The Surgeon General of The U. S. Army.

"Spanish" Influenza is a serious matter, and something of a mystery. It probably originated in the ranks of the German army and in prison camps. It no doubt spread from there southward through Spain and northward into Holland, France, England and the Scandinavian countries. America was free from it until August 12th when a Norwegian steamer arrived at an Atlantic Port, having over 200 cases on the voyage. Whether this marks the entry of the epidemic or not, the fact remains that "Spanish Influenza" is here and is a serious menace, much like the familiar gripe that was epidemic in 1889-'90 only then it came from Russia.

The disease is not alarming in itself if proper precautions are taken, but without care the high fever and the likelihood of pneumonia to follow make it extremely dangerous. The Surgeon General of the army recently issued the following rules by which the public may guard against the spread of this subtle disease.

- 1. Avoid needless crowding—influenza is a crowd disease.
2. Smother your cough and sneezes—others do not want the germs which you would throw away.
3. Your nose, not your mouth, was made to breathe through—get the habit.
4. Remember the three C's: clean mouth, clean skin, clean clothes.
5. Try to keep cool when you walk and warm when you ride or sleep.
6. Open the windows—always at home at night, at the office when practical.
7. Your fate may be in your own hands—wash them before getting.
8. Don't let the waste products of indigestion accumulate in the body.
9. Don't use a napkin, towel, spoon, fork, glass, cup or dish which has been used by another person and not washed.
Note especially No. 8, which says, keep the waste matter moving from the body. There is no better preparation to be secured than Drego, to keep the bowels and the kidneys moving regularly. Drego is made from the juices and extracts of roots, herbs, barks and berries and is perfectly harmless but quick in its action. Every person who has had influenza should take a good tonic to build up their system. Drego is great for a tonic and strength producer.

Get a bottle of Drego today and let every member of the family take out of it. Sold in Graham by Graham Drug Co.

FOUND BOOKS DEEP DOWN IN DUG-OUTS

American Library Association Books Surprised Soldiers, Says Raymond Fosdick

"I found the books of the American Library Association everywhere in France," says Raymond Fosdick, chairman of the National Commission on Training Camp Activities, who has just returned from an extended trip overseas, during which he conducted a thorough investigation of the work being done by the various war work agencies.

CATHOLIC BOYS JOIN WAR WORK CAMPAIGN

Girls, Too, Will Stand With Them Behind Every Fighter at the Front.

To put behind every Catholic fighter in France the support of one boy or girl in every parish throughout the United States is the plan of the National Catholic War Council for backing the Victory Boys' and Victory Girls' "Earn and Give" Division of the United War Campaign to raise \$170,000,000 "for the boys over there" during the week of November 11-18.

Through diocesan, county and parish organizations, the rallying of one youngster for every man who has gone to war in every community is already under way. By their own earnings, and not by contributions, it is expected that these sturdy little sponsors for the boys abroad will each raise at least five dollars for the joint welfare work of the Y. M. C. A., Y. W. C. A., National Catholic War Council, including the Knights of Columbus, War Camp Community Service, Jewish Welfare Board, American Library Association and Salvation Army.

Boys and girls in every Catholic parish throughout the United States are already being picked to represent each fighting man who has left their church for the front. In every home that files a service flag little brothers and sisters, sons and daughters, are eagerly volunteering to look out for the share of their family fighter in the huge joint welfare campaign for all the boys abroad.

A USEFUL PAIN II

Graham People Should Heed Its Warning.

Have you a sharp pain or a dull ache across the small of your back? Do you realize that it is often a timely sign of kidney weakness? Prompt treatment is a safeguard against more serious kidney troubles. See Doan's Kidney Pills. Profit by a Graham resident's experience.

Mrs. Bettie L. Pickard, W. Elm St., says, "About two years ago I was troubled with a dull nagging pain in the small of my back. I was very nervous and dizzy and black specks blurred my sight. The kidney secretions passed irregularly, too. When Doan's Kidney Pills were recommended to me, I got a box from Graham Drug Co., and they cure the back-aches and rid me of the distress. I can't praise Doan's highly enough."

Price 50c. at all dealers. Don't simply stop for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pickard had. Foster-McBurn Co., Mfgs., Buffalo, N. Y.

Chiffons! GRANDMA'S Powdered Soap Your Grocer Has It!

Wash the Woolen Socks You Knit with Grandma

GRANDMA'S delight—to take your daintiest, most delicate and costliest piece of chiffon and wash it. She knows how precious it is—what pride you take in having it just so. Chiffons are "touchy" things—GRANDMA knows it and handles them just right. GRANDMA suds never harmed anything. Let her wash your chiffons next time.

You Get What Your Doctor Prescribes

Scientific accuracy, speed, and absolute honesty are added to every doctor's prescription you bring to be filled at our store.

We carry a complete stock of all the necessary drugs for accurate prescription work. They are kept fresh and potent, producing just the beneficial results your doctor desires. We employ only the most experienced pharmacists, and we never substitute—you get what your doctor prescribes.
