### DEATHS.

Mrs. Elizabeth Clark, widow of the late Benjamin Clark, died about 5 o'clock Wednesday morning, Nov. 6th, 1918, at her home at Haw River 5 o'clock Wednesday morning, Nov. no food and young women ruined. 6th, 1918, at her home at Haw River. There is nothing too fiendishly bad She had an attack of influenza and for the Boche to do. But is is pay

Mr. David E. McBane died Saturday night, Oct. 26th, 1918, at his home in Newlin township, aged 70 years and one month. The remains Chatham church, Newlin township. Mr. McBane resided here a few years ago and conducted a small store. He vas a good citizen.

Mrs. Smith, wife of Mr. \ddison Smith, died at the Emergency Hospital Monday about 11 o'clock a. m. she had an attack of influenza followed by complications. She is survived by her husband and seven children. She was 33 years of age.

The remains were interred in Linwood Cemetery.

Mr. Burton Jones died Sunday night at Rainey Hospital, aged 37 it over—soon. years. He was attacked with influenza and was taken there for widow and several small children. Mr. Jones was Supt. of the spinning at Oneida Cotton Mills.

Mr. Max Turner died at the Emergency Hospital Sunday morning at 4.30 o'clock from pneumonia following influenza. He had been sick nine days. He was 17 years of age—would have been 18 on Jan-

ed member. The following out-oftown relatives were present at the funeral, namely, Mr. and Mrs. Bert Kenyon of Greensboro, Mr. E. W. Maddry of Raleigh, and Mr. Jno. R. Harder and family of Elon College.

### BOARD OF HEALTH REGULATIONS.

Restrictions Modified In Some Re

spects-Other Modifications Left to Commissioners.

The Board of Health met this the following business:
In view of the fact that the influ-

enza situation throughout the county has much improved, and in view of the further fact that the authorities ch town can continue in effect such regulations as they think proper affecting such town; be it resolved, That regulations concerning ice

than in bottles, sanitary cups shall That moving picture shows may e opened on and after Monday, be opened on and November 18, 1918.

That all other regulations are repealed as of Thursday, November 1918.

That no regulations concerning inluenza shall be in force after Novem-

ber 30, 1918.

In Alamance influenza has subsided very much, so much so that all but the force is a little short in

There are reported no serious cases in Graham today, but for the past few days a few new cases have been reported every day. The situa-

school, both at Hampton Roads, were the Emergency Hospital.

The situation is generally better in the State, though in some sections the diseese is quite prevalent.

### Loans To Our Allies.

The extension of a credit of \$9one extension of a credit of \$9-000,000, to Belgium, made recently, Makes the total advances by the United States to Belgium \$89,020,-

The total amount advanced to date to all of our associates in the war against Germany is \$7,529,476,000.

FURIOUS FIGHTING NEAR VER-

Lient Colonel Don & Scott Write of the Nights and Days of Fire and Death.

Below is part of a letter lately written by Lieut. Colonel Don. E. Scott of Graham of the 120th infantry, 30th division, to Mrs. Scott in Winston-Salem. The day before he into the battle described, Lieut. Colonel, then Maj. Scott, had received his commission to higher Colonel, then Maj. Scott, had received his commission to higher
rank, but begged that it be held
back that he might lead his men in
the fight. This was done. The
30th division has received much
praise from General Haig for bravery
and efficiency in action.

"Have tried to get to a service
station and cable, you that I was

station and cable you that I was safe, but so far have been unable Mr. Fred Terrell, Supt. of the Graham Graded Schools, left Tuestonday, it being the regular meetinday, it being the regular meetinday, without transacting the superior of the regular meetinday, without transacting the superior of the supe

never forget. In front of us as we pushed forward the sky blazed a vivid red from burning villages on fire by the retreating Huns.
While over against this scene of
ruin and death a little peaceful moon looked down on our victorious troops.

"In the light of the day we found the destruction unbelieveable-nothing but ruins. Left in one captured village were 4,000 French, old men, women and children; pitiable sights; eyes glassy, cheeks hollow owing to her advanced age, being day and we are settling with him more than 75 years of age, and not the disease. She is survived by several children, among them Mrs.

J. M. McCracken of Graham. ads". They are fighting a losing

game and they know it. We are

all sure their day is short.

"Yesterday we were taken from line and are now about six miles build up our command to a fight-ing basis. We are short now. But ing basis. We are short now. But what fighters our boys are! the finest in the world. Their carriage and spirit is the one beautiful thing about this war. I am now in the cellar of an old French chatteau. You should see some of the places we lived during the . past week-dugouts, shell holes out in open, all dirty as the Boche had left them. There can be nothing in sanitation or I am germ proof.
"I don't know how long we will rest. We are all fagged out; but we are in this war to win, and we are willing to do everything to get

## Conservation Don'ts.

DON'T burn up all the leaves now falling on your lawn or around now falling on your lawn or around your house. Put them in the COMPOST HEAP. There is no time to waste fertilizers. There is as much plant food in—a ton of leaves as in a ton of good stable DON'T depend on coaf

DON'T depend on coal where firewood can be bought. War re-quirements demand every ton of coal that is mined. Therefore, burn wood. One cord of oak and hick-ory wood will furnish as much heat as a ton of coal.

as a ton of coal.

DON'T use your best timber for firewood because it is near and is easy to split. Use up laps, down logs and defective and inferior trees. In this way you improve your woodland, reduce the lies danger, utilize waste material and save

your woodland, reduce the lire danger, utilize waste material and save the good trees for other uses.

DON'T burn the dead grass off your field before plowing. Your soils need the nitrogen and humis. The air contains enough nitrogen without that which is licerated by burning grass and leaves.

DON'T give even your best friend permission to exterminate the partridges on your farm. They are worth ten times as much to you as insect destroyers and weed seed consumers as they are to achieve the consumers as they are to achieve meeded exercise, or even for food. else as an inducement to take needed exercise, or even for food. DON'T let light fires run through your woods. Pine, poplar, locust, chestnut and other valuable seed-lings are killed by even a small fire, and larger trees are seriously

# OUR NAVY GUARDS COAST OF FRANCE

INTERESTING FACTS CONCERN ING ITS ACTIVITIES, TOLD BY FRANKLIN ROOSEVELT.

### MANY STATIONS ESTABLISHED

Hillon and a Quarter Tons of Coal Saved by Daylight Saving Law—Na-tional Movement Started for Re-claiming Waste Materials.

Washington.—Franklin D. Ro washington—Frankin D, Roossevin in a statement since his return from a tour of American naval bases and stations in Europe, described the work of the United States navy in the waters surrounding England, France, Italy, Greece and the Azores.

"Our operations on the British coast are fairly well known, but it probably is not generally realized that on the continent we have a large personnel on shore and have more stations in France than we have in all England," Secretary Roosewett said. Secretary Roosevelt said.

Secretary Roosevelt said.

"On the west coast of France we have a series of bases for the repair and upkeep of our escorting ships, destroyers, submarine chasers, etc. We have been using French facilities so far as possible, but in most cases we have had to erect complete plants so that these facilities are now more than double what they way before we went double what they were before we wen

der to the English channel we have established aviation stations so spaced that the entire coast line is covered by seaplanes and dirigibles. Nearly all these stations are situated at out-ofthe-way points, some on uninhabited islands, others in fishing vessels on peningulas. Labor was almost impos-sible to obtain, so these stations were built almost entirely by our own saliors. At each station there are from 200 to 300 men. This aviation force and our patrol vessels have been doing such splendid work that for the past six months there have been practically no sinkings within 50 miles of the

"At one point we have an in assembly and repair base which em-ploys more than 5,000 men. An in-stance of the way in which every bit of material has been utilized is found in connection with this base where, before the erection of the permanent quarters, the men took packing cases in which planes were shipped, and used them in building barracks which were very comfortable.

very comfortable.

"In northern France, in co-operation with the British, the United States established what is known as the North ern Bombing Group. This was origi-nally organized to bomb the German submarine bases on the Belgian coast After the British had blockaded the entrance to those harbors, Germa were prevented from clearing the chan nel by the constant activity of thes tons of explosives on the submar

"We have a considerable naval force at Gibraltar. In conjunction with the British this force not only patrols the Atlantic in that vicinity, but also is ac tive in the Mediterranean escorting vessels to and from Italy, Greece and Egypt. In the Adriatic we have es tablished a large group of submarin In conjunction with the Portuguese whave established a base in the Azores.

have established a base in the anover-There appeared to be a misappre-hension in this country as well as in France, Assistant Secretary Roose-velt said, as to the part taken by the American navy in transporting troops and supplies to French ports. Every and supplies to French ports. Every transport that flies the United State larger portion of supplies for the army in France is taken across in American

Nine enlisted men of the navy who volunteered to be inoculated with the serum of Spanish influenza to help medical officers gather specific facts regarding the disease and discover the means of combating it, have been commended by Secretary Daniels. The naval district, Be on, and the naval district, Boston, and the volun-teers understood the danger to which they exposed themselves for the benefit of others.

The test indicated that the disease

is not due to a filtrated virus, as the results were negative. Nene of the men inoculated contracted the ease. They were isolated for ten after their inoculation.

As a measure against the further spread of influenza, war workers in Washington, D. C., are taken to their duty every morning by automobile in-stead of in crowded street cars. The division of transportation of the gos provides for the accomp provides for the accommodation of 2000 of these workers every day in privately owned automobiles that volunteer to "give a lift" to the men and women—especially the latter. The danger of traveling in crowded street Contracts for motortrucks, cha-

ambulances, tractors, passenger car motorcycles and bicycles aggregating A PATRIOTIC DUTY

# SOUTHEAST HEROES IN FRANCE GET SUPPLIES AT LESS THAN WHOLESALE PRICES OVER HERE

RED TRIANGLE SHOULDERS EXPENSE OF TRANSPORTATION FROM MANUFACTURERS TO CANTEENS IN FRANCE-SYSTEM REDUCED TO FINAL BASIS AND RESULTS NOW ARE VERY GRATIFYING.

The Americans everseas with Pershing have facilities for combatting the high cost of living that are absolutely beyond the reach of civilians on this side of the Atlantic. Even their small luxuries, such as tobacco, biscuits, cakes and similar articles, are obtainable at prices that are considerably lowers than those charged by retailers in American cities.

This is made possible because the Army and Navy Y. M. C. A. has taken over all post exchanges in France at the direct request of General Pershing, so that the Red Triangle is now conducting the greatest business enterprise in the world.

in the world.

Tobacco and other "suplementary" supplies are distributed to the boys in khaki at exactly wholesale prices. The "Y" makes not a penny of profit and even shoulders the financial loss entailed by footing the bills for transportation from the manufacturer to the canteens at the front.

The American troopers can buy Fatima cigarettes for 50 centimes, or about 3 cents; Camels, 35 centimes, or about 6 cents; Sweet Caporals, 20 centimes, or about 3 cents; Lucky Strikes, 30 centimes, or about 5 cents, Murads, 55 centimes or about 11 cents; Bull Durham, 25 centimes, or about 4 cents; Prince Albert, 40 centimes, or about 7 cents; Velvet, 30 centimes, or about 5 cents; Star Chewing, 35 centimes, or about 6 cents.

Capt. George M. Lynch, former assistant commandant at the Florida Military College, Gainesville, Fla., but now in the Red Triangle Service, has made several trips overseas and has investigated thoroughly the conditions existing in the post exchanges under Y. M. C. A. management. He declares that while some difficulty was experienced at first, prices have been stabilized and the boys are getting their supplies at cost.

### Designed Southeast Hostess Houses

Katherine C. Budd, of New York (left), who designs the hostess houses of the Southeastern Department, now engaged in supervising the construction of one at Dorr Field, near Arcadia, Fia. Miss Gertrude Mayo, of New York and Boston, architect for other Y. W. C. A. buildings at miliof New York and Boston, tary establishments.

tors and vehicles division of the motor transport corps. The orders cover 38,-187 trucks and chassis of different sizes and types, and 3,584 ten-ton trailers and 150 four-wheel trailers. Orders for 150 four-wheel drives have been placed. Other orders include 18,000 passenger cars; 300 winter cars, 558 limousines, 3,000 delivery cars, 18,775

use of the army in October and No vember 47,000,000 pounds (239,796 bar-rels) of flour, 17,000,000 pounds of which is for domestic needs. The re-mainder is for the troops in France. The purchases were made by the sub

have been bought for the troops over seas for use with their "hot cakes" as well as for sweetening their pastry. In addition to these supplies the subsistence division has bought more than 100.000,000 cans of salmo the army's requirements for a year About 80 per cent of this lot will ge to the forces in France. It is esti mated that 16 ounces of salmon are equivalent to 20 ounces of beef. Con-centration of the product makes it par-ticularly desirable in both mobile and trench warfare.

Consumption of coal was reduced by a million and a quarter tons during the seven months' operation of the "daylight saving" law, according to fig-ures compiled by the United States fuel administration. When the clocks were set ahead an hour, beginning Sunday, March 31, and ending October 27, the fuel administration planned to gather facts from many sources in various the saving in fuel likely to result from of the estimate of the amount of coal

In one district from which definite facts were obtained it was shown that the saving of coal was 17½ tons per 1,000 of population for the period of seven months. These figures were checked against records obtained from ing the same relative conditions, and from the information thus collated the from the information thus collated the estimate of 1,250,000 tons saved is reached. The fuel administration says that the "daylight saving" plan in Eu-ropean countries has been effectual chiefly in the seven longer months.

A national system for the collection and disposal of materials which it is most desired to reclaim at this time, such as paper, cotton and woolen rags, steel, copper, brass, zinc, rubber, tin, leather, lead, tin foll, etc., has been organized and a working plan for ev-ery community, including towns with 5,000 population and outlying dis-tricts, as well as large metropolitan centers, has been formulated.

This system will be administered by the war prison labor and national waste reclamation section of the war industries board. It is expected that and every family join in the movement and help their local reclamation council when it begins the work. With the organization of the local councils, through the war prison and national rester reclamation councils, through the war prison and national rester reclamation certified the section reclamation. waste reclamation section, collection and disposal will be arranged for every household, apartment, department store, office building and city, state and federal institution

Distribution of 20,000,000 food cards Distribution or 20,000,000 food carris-among American housewives will be made by the United States food admin-istration on December 1, instead of Oc-tober 27, as was originally planned. The spread of influenza and the consequent ban on all manner of public gatherings and activities, including pa-triotic work, prompted the postpone-ment of the campaign. The new card will contain no regu-lations regarding either "wheatjess" or

whole the careful saving of all edible particularly wheat, meat, fats and su-gar. It will be necessary for the Unit-ed States to send 5,750,000 tons more of foodstuffs to the allies this year than last, with an almost staggering tota of 17,500,000 tons in the coming year, in order that 120,000,000 people of these allied nations sitting at a "common table" with America may have stamina to bring the war to a conclusion if peace is not meantime obtained by Germany's surrender.

Destruction of rodents in Montan during the past season has saved \$2, 760,000 worth of crops at a cost of \$82,500, according to a report issued by the department of agriculture. The work of ridding the farms of these pests was carried on in 25 counties. Two hundred and seventy-six tons of polsoned onts were used. numbers of ground squirrels, prairie

Nearly 400,000,000 feet of yellow pine lumber have been cut and transported by rail and water to shipyards on the Atlantic coast and the Gulf coast for the construction of wooden vessels un-der the direction of the United States Shipping Board Emergency Fleet corporation. With this amount of lumber if is pointed out by the way of illustrating its immensity, the Atlantic ocean could be spanned from the American to R. W. Scott, James Covington, Jo the French shore-3,000 miles or more Capps, -with a bridge floor 25 teet wide and 1 inch thick, with about 4,000,000 feet to
