It was reported a week ago in the press dispatches that the 30th Division would arrive in the United States about the first of February.

It appears that influenza has broken out anew in many places throughout the State. The disease is in milder form, however.

Germany is now in the throes of an internal revolution. Battles are being fought and many are being killed.

The latest report is that only one State is lacking yet to complete the ratification of the constitutional amendment making prohibition nation-wide in the United States.

The first business session of the World's Peace Conference is scheduled to meet on Saturday next.

The Legislature is now getting down to business.

For-reading Educational Bill.

Senator Hoke Smith of Georgia has introduced a bill in Congress to secure national co-operation in educational affairs.

The provisions of the bill in brief are as follows:

- 1. That Congress shall appropriate annually the sum of one hundred million dollars as a federal fund for aiding the development of certain features in public education.
2. That seven and one-half millions of that fund shall be used for the elimination of illiteracy.
3. That seven and one-half millions shall be used for the Americanization of foreigners.
4. That fifty millions be used to help in equalizing educational opportunities throughout the United States, particularly in the village and country schools.
5. That twenty millions be spent for health education and recreation.
6. That fifteen millions be spent to aid the several States the better to prepare teachers for the schools, particularly in the country.
7. That a United States Department of Education at Washington be created with its Secretary a member of the President's Cabinet.
8. That any State in order to get any part of this federal fund for any one or more of these purposes must itself appropriate a like sum out of State funds for the same purpose or purposes.

This is the first January in several years that has not heard some mention of a spring drive in contemplation by Hindenburg.

The bolsheviks are demonstrating how much easier it is to destroy governments than to make one.

Mr. F. S. Royster, President of the F. S. Royster Guano Company, whose advertisement appears in this issue, is a man who has spent his life in the development of the fertilizer business, and is as much interested in the human side of it now as when he used to drive around from farm to farm and sell his output himself.

STATE REVENUE EXCEEDS EXPENSES.

State Tax Commission Recommends Full Value Assessment All Property for Local Revenue—All State Taxes From Other Sources.

The biennial report of the Corporation Commission as a State Tax Commission, which has just been issued, is of particular interest at this time, when the Legislature is considering revision of the tax system.

The report shows that the State's revenue the past two years exceeded the State's expenditures \$370,000, the increased revenue coming principally from inheritance, income, and privilege taxes.

Income taxes increased to \$109,000, and incomes listed in 1918 (to appear in 1919 receipts) are running close to two hundred thousand. But these incomes are entirely from salaries and fees.

There is a prohibition in the State Constitution of taxing the income from property. If we are to tax earned incomes, or salaries, why not tax the much greater income from property, the Commission asks, and it advocates the submission of a constitutional amendment to permit this.

The Commission argues that by submitting this amendment, which if adopted would become effective two years from now, the present Legislature can inaugurate a real assessment of all property at actual value, to be done in a thorough way during the next two years, to be adopted when completed by the next Legislature.

The Farmers' Educational View.

The Farmers' Open Forum. Education is the basis of all progress.

Rural education sets the solid standards of our citizenship and our patriotism. It is here the ideals of American government find their bulwark.

New and higher standards of citizenship must be set up in our rural schools to meet the test of the new international ethics that herald a new dawn for all humanity.

Only as the rural citizen of the future learns his true relationship to industry, to a whole, to his own country, and to his fellowmen in other countries, can we hope for the solid upbuilding of our rural life which is the mainstay of our civilization.

Ever Salivated by Calomel? Horrible!

Calomel is Quicksilver and Acts like Dynamite on Your Kidneys.

Calomel loses you a day! You know what calomel is. It's mercury. Calomel is dangerous. It crashes into your bile ducts, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out, and feel that you need a dose of dangerous calomel, just remember your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without straining you up inside, and cannot be abused.

SALVATION LADY COULDN'T DRINK ANY COLD WATER

Greensboro Worker Tells How Dreco Wiped Out Stomach Trouble. Gives Statement.

Everyone knows that to live we must have food. Food is the fuel that keeps the human furnace burning. Stop eating and the tires of life will soon die out.

Most bodily ills can be traced to just this source. The stomach is out of order and the other organs, tissues, and muscles are not receiving the necessary food to build up the ravages of the day.

"I have suffered 20 years with pains in the limbs, and rheumatism," says Mrs. Frances Cox, who is perhaps one of the most generally known and best loved ladies of Greensboro's Salvation Army, in a signed statement just made for publication.

"I couldn't even drink cold water," she continues, "as it would sour and come back up hot as fire. All my troubles are very much benefitted now because I have taken that wonderful new herbal medicine called Dreco.

"Dreco surely has done me lots of good and I want three more bottles."

Dreco, the medicine mentioned by Mrs. Cox, is a compound of the juices extracted from roots, herbs and berries, nature's own remedy for nature's ills. Hundreds of testimonials like the above are coming in, all stating that Dreco seemed to go direct to the seat of the trouble and to wipe out aches and pains.

If you are suffering why not go or send at once for a bottle of this wonderful medicine? Surely it is worth a trial.

Dreco is sold by almost any well stocked druggist and may be secured by Graham at Graham Drug Co.

Congress is in sight.

One of the first things we ought to have, with the censorship abolished, is picture postcards of that mysterious place, "Somewhere in France."

Germany may find its place in the sun after the shadow of bolshevism has passed over.

JUST IN TIME

Some Graham People May Wait Till It's Too Late.

Don't wait till too late. Be sure to buy in time. Just in time with kidney ills. Means curing the backache, the dizziness, the urinary disorders.

Doan's Kidney Pills are for this very purpose. Here is Graham testimony of their worth. Mrs. W. T. Ezell, N. Maple Street, says: "I was almost disabled with pains in the small of my back, and I suffered all the time. I was so nervous and had such headaches I could hardly endure the misery. One of our family had used Doan's Kidney Pills with good results and told me to try them. I took this remedy and the pains and all other troubles disappeared."
