

THE GLEANER

ISSUED EVERY THURSDAY.
J. D. KERNODE, Editor.
\$1.00 A YEAR, IN ADVANCE.
The editor will not be responsible for views expressed by correspondents.
Entered at the Postoffice at Graham, N. C., as second-class matter.
GRAHAM, N. C., Sept. 11, 1919

Encouraged, no doubt, by the fact that the U. S. Congress is bitterly attacking the peace treaty and is slow in giving its sanction, some exhibiting strong pro-German sentiments by act, if not by word, the news now comes from Europe that the Hun is again preparing to go to war on the Poles. The Hun has been whipped and acknowledged it, but there are some who would comfort the viper that he might strike again.

If the objectors have something better than the League of Nations and Peace Treaty that will reduce the prospect of future wars to a minimum, President Wilson and the rest of the people want to see it. In the language of the President in one of his great speeches a few days ago in the West, let them "put up or shut up."

A coterie of partisans is fighting the peace treaty and league, but they have almost spent themselves. The tactics employed will not work. For instance, the report was sent out that Senators Simmons and Overman would not support it, but the Senators have put the report to sleep.

General Pershing landed in New York Monday after two years' absence at the head of America's greatest army. As he stepped from the great ship Leviathan he was handed by Secretary Baker a commission as General, a rank previously held by only three Americans—Grant, Sheridan and Sherman.

Mebane Holds Splendid Fair.

Mebane demonstrated last week that she could hold a successful fair. It was a success all round—Thursday was the opening day and Saturday the closing day.

Mr. E. S. Parker, Jr., made the opening address on Thursday and the tribute he paid to the Mebane people was timely and deserved. On Friday Hon. Robt. N. Page, former Congressman, made a fine speech. On Saturday Judge Jeter C. Pritchard delivered an address that was highly appreciated.

We are not going to write up the Mebane Fair. To do that, one should have had pencil and note book and plenty of time.

To hold the fair a group of several big tobacco warehouses, with only streets separating them, were used for displaying exhibits. If the buildings had been placed for the purpose the arrangement could scarcely have been improved upon.

There was everything that was necessary to make a good agricultural and community fair—fine cattle, horses, hogs, sheep and poultry, farm products, manufactures—cotton, wood, iron, flour and meal, canned products—as good as such can be made. The merchants and dealers in farm machinery did their part.

It was a success that Mebane, Alamance and adjoining counties can justly feel proud of.

Southwest Alamance.

Cor. of The Gleaner.

Tobacco men in our section are about all through cutting and curing tobacco and some of them will be ready for the opening sales.

Alfred Pike of the Pleasant Hill section was buried at Mt. Zion on the 6th, funeral services conducted by Rev. Mr. Stuart.

After an absence of twenty years Mrs. Sarah J. Caudle spent last week visiting friends and relatives in and around her old home, and also the church and school house of her childhood days. So many changes had taken place she could scarcely realize where she was, but she said scenes of her childhood would never be forgotten.

People are very busy pulling fodder, mowing and doing general fall work.

North Carolina Paid Largest Tax.

Washington, Sept. 9.—The Southern States east of the Mississippi, including Louisiana, paid slightly more than 7 per cent of the \$3,539,950,012 internal revenue taxes for the fiscal year of 1919, according to statistics issued today by the treasury department. These States paid \$279,829,683 in income and profits tax and miscellaneous taxes during the year. North Carolina paid in the largest amount, \$101,278,152, and showed the largest increase over the previous year, the amount being more than \$31,000,000. Virginia's tax payments were the second largest of the Southern States with \$45,108,545, an increase of more than \$900,000.

Under the leather profiteers plan to educate the public to \$25 shoes, many of us would be forced to grow up in ignorance.

State and County Council

Large Attendance Indicated and Splendid Program for Occasion.

ATTENDANCE AT FALL OPENING OF UNIV. EXPECTED TO REACH 1,500.

Cor. of The Gleaner.

Chapel Hill, Sept. 9th.—Inquiries and reservations received at the University of North Carolina indicate that the State and County Council, to be held at Chapel Hill, September 15-20, Governor Bickett presiding, will be attended by several hundred State and county officials and that wide-spread interest has been aroused among welfare officials by the chance of discussing the new welfare laws with other officials of North Carolina and of other States. From several counties the word has come that the entire county delegation will attend. Preparations have been made by the University to house visiting officials in the most modern of the campus dormitories, and in Swain Hall, the University dining hall, will be put in operation for their benefit.

The Council will be opened Monday evening, September 15, with addresses by President Chase and Governor Bickett. A complete program has been arranged covering the succeeding five days. The principal addresses will be made by Amos W. Butler, Secretary Indiana State Board of Charities and Corrections, Dr. Charles J. Bullock of the Department of Economics, Harvard University, Dr. Allen W. Freeman, Commissioner of Health of Ohio, George Howard, Jr., Superintendent Edgecombe County Schools, R. K. Atkinson, Chairman Recreation Association, Sag Harbor, N. Y., and Governor Bickett. Further talks will be made by representatives of the State Boards of Education, Health, Public Welfare, State Tax and Highway Commissions, and by other State officials. Conferences will follow the addresses, and several social events have been arranged by the University.

Dr. T. J. Wilson, Jr., Registrar of the University, has announced that from present indications the attendance at the coming session will be as high as fifteen hundred students, which will break the University record. The accommodations at the University and in Chapel Hill will be taxed to take care of this attendance. The Freshman Class alone is expected to number nearly four hundred men, and many students in the military and naval service will return to finish their college work. A large increase is expected also in the number of co-educational students. Last year there were more than forty, and Dr. Wilson is planning for sixty during the coming session.

The University branch of the Reserve Officers' Training Corps will be continued this year under the direction of Major F. W. Boye, a regular officer of the United States Army, and was commanded last year after the S. A. T. C. was disbanded. Registration for the military course is purely voluntary. The work counts as credit toward a degree, and students who complete four years of training, including the summer camps, and who agree under oath in writing to serve the United States in the capacity of a reserve officer during a period of at least ten years may receive commissions in the Officers' Reserve Corps. Uniforms and equipment will be issued to the men.

STATE OF OHIO CITY OF TOLEDO

LEWIS CHEEKEY.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, Ohio, and State of Ohio, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
FRANK J. CHEEKEY.
Notary Public.
Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Sold for medicinal purposes free of charge.
F. J. CHEEKEY & CO., Toledo, O.
Sold by all Druggists, etc.
Hall's Family Pills for constipation.

One scarcely knows whether to classify the actors' strike as tragedy, comedy, farce or vaudeville.

Now the coal operators are accused of a "famine plot" to sky the price. We have no sure proof of this, but we all know that coal mining is a dark underground business.

ANOTHER GRAHAM CASE

It Proves That There's A Way Out For Many Suffering Graham Folks.

Just another reports of a case in Graham. Another typical case. Kidney ailments relieved in Graham with Doan's Kidney Pills. W. W. Garrett, proprietor restaurant, court house square, Graham, gave the following statement. In January, 1915 I had a bad attack of kidney trouble and I thought my back was broken. I would be laid up for days, unable to help myself. My kidneys caused me a great deal of trouble, and I had these spells every little while until I began using Doan's Kidney Pills. They did me more good than anything else I ever used. My back got stronger and my kidneys began acting as they should.

On July 1, 1918, Mr. Garrett advised, "I have no need of Doan's Kidney Pills lately. I think the remedy is just what it is represented to be. Every word of my former statement still holds good." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Garrett had. Foster-Milburn Co., Prop's, Buffalo, N. Y.

Vetch One of Best Cover Crops and Soil Improvers.

West Raleigh, N. C., Sept.—One of the best winter cover crops, especially for the poorer sandy soils of the coastal plain area, is vetch. It will also be found useful in the piedmont section. It will grow well on poor land, and when properly inoculated will obtain a part of its nitrogen supply from the air, thus improving the nitrogen supply in the soil.

Hairy vetch is the kind most commonly grown in North Carolina. It needs a fine compact seed-bed, such as is provided for wheat and oats; however, a thorough disking will sometimes put the land in proper condition. Some farmers sow it on stubble or between cotton and corn rows, covering by means of a harrow or small cultivator.

It is necessary to plant the seed in the late summer or early fall for best results. Because of its trailing habit of growth, it does better when sown with some erect growing crop like oats, rye, or wheat. Unless it has such a support the vines will fall, rendering them difficult to harvest, either for seed or for hay.

When sown with oats, the seeding should be at the rates of from 20 to 30 pounds of vetch per acre, and from about 14 to 2 bushels of oats. When sown alone, at least 1 bushel per acre of vetch seed is required. It may be put in broadcast or with a drill, but in each case should be covered from 1 to 2 inches deep. In the coastal plain section the seed should be planted before October 1st. When handled properly it re-seeds itself, and is one of the few leguminous crops which can be grown during the winter for both grazing and soil improvement. It fits in well with most systems of rotation. Corn, sorghum, cowpeas, soybeans and other crops may follow after vetch. When the cultivation of these crops has been finished the vetch will come up, generally making some growth during the fall, and providing early grazing in the spring.

It makes good hay if cut just before the plants are in full bloom. Experience has shown that the most satisfactory way in which to harvest this hay is to cut after the dew is off in the morning, and allow the vines to lie in the sun for a few hours until the leaves and stems begin to wilt. Toward the evening the vines should be raked into wind-rows. The hay should then be placed on ventilated stacks.

The yield secured from vetch and oat hay generally depends upon the fertility of the soil and the earliness of planting. However, on soils of poor or medium fertility no other annual winter legume can compete with it. Yields of from 14 to 2 tons per acre are not uncommon.

A good crop will contain from \$30 to \$35 worth of soil fertility per acre, and when the whole crop is plowed into the soil enriches the land very rapidly. It also furnishes excellent grazing for horses, cattle and sheep. Hogs do not like it when other green crops can be had.—Division of Agronomy, N. C. Agricultural Extension Service.

Wheat Declines, Corn Improves.

Washington, Sept. 8.—A further decline of the spring wheat crop reduced the prospective production 17,000,000 bushels during August, but corn had a good month and shows a prospective output 70,000,000 bushels larger than indicated last month, according to the government's September crop report issued today.

The loss in the spring wheat crop was caused by blight, rust, scab and grasshoppers. The total crop of spring and winter wheat is now placed at 923,000,000 bushels, which is more than 300,000,000 bushels below the crop as forecast from conditions prevailing in June.

Negress, Aged 120, Dies.

Memphis, Tenn., Sept. 8.—Louise Freeman, negress, born in 1799, the year George Washington died, died today on a 150 acre farm near here, which she has owned for 70 years. She was a resident of Shelby county 113 years, and until a month ago was in possession of all her faculties, according to physicians. Her husband, Rastus, died three years ago at the age of 107 years.

IMPORTATION BLOODED STOCK.

A Total of 1,350 Animals Brought in During Last Fiscal Year—Animals Consist of Cattle, Hogs and Sheep.

Reports made to Mr. E. S. Millsaps, District Agent for the Agricultural Extension Service in the Piedmont region of North Carolina, reveal that approximately 1,350 blooded animals have been brought in this district during the fiscal year ending July 1 last. Mr. Millsaps' territory embraces 23 counties, the figures showing that 369 registered males and 981 registered females came into these counties, due to activities of county farm demonstration agents. Complete returns were not obtainable from every county, due to several changes in personnel, which probably holds the figures lower than they otherwise would be.

According to Mr. Millsaps, this importation of pure bred stock is probably without precedent in the extension work of the State. His figures do not take into consideration the natural increase of blooded stock from animals already brought in, but only those animals which have been imported from outside of the State, or from other counties. For a number of years there has been a healthy increase in home produced stock, but the new blood brought in this past year gives a great impetus to this number, and is greater than in any previous year.

The last census report gives the livestock population, that is, cattle, sheep and hogs, to be 378,115. If there is as much stock on the farms now in these 23 counties as there was then, the increase in registered pure breeds is a little more than three-tenths of one per cent of the total. The leading breeds of cattle which have been brought in are Guernsey, Jersey, Holstein, Hereford, Angus and Shorthorn; of hogs, Berkshire, Duroc-Jersey, Poland China, and O. I. C.; of sheep, Hampshire and Shropshire. These seem to be the most popular breeds, though others have been brought in.

Mecklenburg leads for the year by importing 161 fine animals, Rowan comes next with 160 to her credit, Rutherford third with 126, Catawba fourth with 107, and Wilkes fifth with a total of 92 imported. The other counties in the district run lower. Mr. Millsaps sees in this movement a greatly increased interest by the farmers in having the best stock only. This will mean that the animals will return more for the feed and care given them.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers.

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet and then lift them off.

When Freezone removes sores from the toes or calluses from the bottom of the feet the skin beneath is left pink and healthy and never sore, tender or irritated.

THE IDEAL TONIC ARGO-PHOSPHATE

The world's greatest tonic for lassitude and all run-down enemic conditions. It just puts pep into the whole system. It's the best tonic I ever used," says a Boston physician. Dispensed by Hayes Drug Co.

Gents Furnishings Of The Better Kind

A Voice From Sioux City, Iowa, says

PE-RU-NA

Worth Its Weight in Gold

You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him—

"PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA was much better. I would cough up chunks of phlegm and mucus, my eyes itched and burned and I felt as if I was being smothered. In your advertisement it was stated that PE-RU-NA is a much better condition since using your medicine."

"Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA."

(Signed) W. W. NORTHROP.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA. DON'T BE AN UNBELIEVER. If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.
