

THE GLEANER

ISSUED EVERY THURSDAY.

J. D. KERNODLE, Editor.

\$1.00 A YEAR, IN ADVANCE.

The editor will not be responsible for views expressed by correspondents.

Entered at the Postoffice at Graham, N. C., as second-class matter.

GRAHAM, N. C., Sept. 18, 1919

GULF COAST STORM-SWEPT.

The Florida and Texas gulf coasts have been visited by high tides and destructive storms from the Gulf of Mexico.

President Wilson is on the Pacific coast

telling the people about the Peace Treaty and covenant of nations. As they listen to him they get a clearer understanding and are with him.

Gen. John J. Pershing, heading the Victory parade in Washington

yesterday, was given the greatest ovation ever witnessed in the nation's capital.

Among the Strikers.

As a result of a strike of Boston's police last week five persons were killed and a number of others wounded.

The strike situation between the Southern Public Utilities Co. at Charlotte

and the electrical workers was thought to be settled, but the local union, No. 505, has expelled all who returned to work on the Taylor contract.

At Albemarle serious trouble followed an attempt by striking mill operatives

to prevent non-union workers from entering the gates to the mills Monday morning. Sheriff Black and Porter, a striker, were seriously injured by gunshot wounds.

The strike at High Point is ended.

Gov. Bickett went there Friday and stayed till Sunday holding conferences between workers and employers. The agreement entered into does not discriminate against the union or non-union worker.

Accident to President's Party.

On Monday afternoon as the President's party was speeding back to Portland, Oregon, from a tour over the Columbia highway an automobile collision resulted in the death of Ben F. Allen of the Cleveland Plain Dealer and J. R. Patterson of Portland.

Standard Oil Co. Loses Millions by Fire.

Last Saturday afternoon a tank at the Stone & Fleming works, a Standard Oil auxiliary, at Long Island City, N. Y., exploded and set on fire the immense tanks of oil, naphtha and other highly inflammable products.

Wilson a Savior of Life

Dr. Cyrus Thompson, retiring president of the State Medical Society, at the late session of the Society, among other things, said:

I have no sort of hesitation in saying that the President of these free States has a vision of world righteousness and peace.

of the fine art of national living, such as never before informed and animated the head of a great and purposeful people. And so, as a genuine American, I am rightfully proud of him in his righteous purpose to teach righteousness to the nations, to bring disorder and wars and their waste and misery to an end, to establish a just, constructive and enduring peace throughout the world.

Wilhelm was a savior of death unto death.

Wilson, an embodiment of the American spirit, a savior of life, a vessel unto honor, meet for the Master's service. I bid him Godspeed, therefore, in the right formation of a righteous league of nations for the rehabilitation of this wasted earth, and the prevention of the destruction and misery and death incident upon social disorder and war.

When and How Use

Lime on the Farm

By C. B. WILLIAMS, Chief, Division of Agronomy.

There is danger that in our enthusiasm with reference to the use of lime, or any other material that gives results when once tried, we may fall into the error of using this material in such a way as not to get the greatest final good out of it.

The danger, under such conditions, has been in the conclusion

being drawn that the only thing lacking in the soil and needs to be applied from then on is lime. Such a conclusion will generally lead to a system of practice based upon false principles and one that cannot survive for a great length of time.

There is no question but what, with some of our soils, lime needs

to be added to the soil as a plant-food constituent. It is believed from our experience and study of soils of the State, for a number of years, that the chief benefit derived generally from the use of this material is indirect rather than direct as a plant-food constituent.

It is not believed that the use of very small amounts of lime

added at frequent intervals will be the most economical way to use this material. As a matter of fact, if the soil is in need of lime a few hundred pounds will not even meet the requirements. We would say in a general way that from 2,000 to 4,000 pounds per acre of calcium carbonate, pure ground limestone or marl, or their equivalent, should be added where lime is required.

It was the height of criminal carelessness to attempt to fill an

oil stove without turning out the flame and this, capped with the mistake of getting hold of five gallons of gasoline instead of kerosene oil, made possible a catastrophe only limited by the scope of lives and property in reach of the explosion and spread of the flames. Fortunately this was an isolated country residence.

How to Feed Chickens.

Specialists of the United States Department of Agriculture advise poultry keepers to feed about 1 quart of scratch grain and an equal weight of mash (about 1 1/2 quarts) daily to 13 hens of the general purpose breeds, such as the Plymouth Rocks, Rhode Island Reds or Wyandottes, or about 16 hens of the smaller or egg breeds.

How to Feed Chickens.

Specialists of the United States Department of Agriculture advise poultry keepers to feed about 1 quart of scratch grain and an equal weight of mash (about 1 1/2 quarts) daily to 13 hens of the general purpose breeds, such as the Plymouth Rocks, Rhode Island Reds or Wyandottes, or about 16 hens of the smaller or egg breeds.

DOING THEIR DUTY

Readers of Graham are learning the duty of the kidneys.

To filter the blood is the kidney's duty.

When they fail to do this the kidneys are weak.

Backache and other kidney ills may follow.

Help the kidneys do their work. Use Doan's Kidney Pills—the best of kidney remedies—enjoyed by Graham people.

Mrs. Matilda Martin, Guthrie, S. D.

writes: "I use Doan's Kidney Pills whenever my back aches and my kidneys aren't working just right, or when I have headaches and my nerves are unstrung. I find I can depend on Doan's Kidney Pills for relief from this trouble and you can always find a box in my home."

Price 50c. at all dealers.

Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Martin had. Foster-McBurr Co., Mfgs., Buffalo, N. Y.

GRAHAM DRUG CO.

Y. M. C. A. IN THE SOUTH.

Needs Secretaries.

The growth of the Young Men's Christian Association in the South is creating a pressing need for more secretaries and, especially, for more thorough training.

Recognizing this need, the Southern Association College has established. The college will run twelve months in the year in order to save the time of the students.

Baptist 75 Million Fund.

Special to The Gleaner.

Raleigh, Sept. 15.—Two interesting news items delighted the workers at the North Carolina Headquarters of the Baptist 75 Million Campaign here. One was from Oklahoma and the other from Yancey county, N. C.

From Burnsville, yonder beyond the Blue Ridge, there is

Yancey County Baptist Association with slightly over three thousand members. The Central Campaign Committee asked Yancey county to raise \$15,000 of the big Baptist Campaign.

From Oklahoma came a telegram

announced that the amount was too small and set their stake at \$25,000—a tremendous advance.

From Oklahoma came a telegram

announced that the amount was too small and set their stake at \$25,000—a tremendous advance.

Carelessness Destroys a Whole Family.

Ten of eleven persons near Chelsea, Okla., who were attending a family reunion, were burned to death when a member of the family attempted to fill a lighted oil stove.

Miss Daisy Ferguson of 70 Balingbrook, Petersburg, Va., says:

"I had suffered awfully for seven years with eczema on my neck and in my hair. I had spent several hundred dollars in an effort to cure it, but without success. I have now taken three bottles of Drecto, and since taking it the eczema is drying up, the redness is going away and it is better than at any time before. It is practically well, but I am still taking Drecto because I feel sure it is going to take it away entirely."

Drecto is pleasant to take and

relieves rheumatism, cleanses the blood, regulates the bowels, overcomes constipation, acts on the liver and kidneys, and is fine for skin troubles, such as eczema, scurvy, boils and pimples.

Drecto is highly recommended in

Graham by Graham Drug Co.

Paths of Democracy.

To accustom oneself to disregard the accidents of manner and station is to have a democratic character under any of the disguises of unfamiliarity and prejudice.

How to Make Money too.

Pick up a half dollar with two needles, or pins, by placing the points on the milled edge of the coin diametrically opposite each other.

How to Feed Chickens.

Specialists of the United States Department of Agriculture advise poultry keepers to feed about 1 quart of scratch grain and an equal weight of mash (about 1 1/2 quarts) daily to 13 hens of the general purpose breeds, such as the Plymouth Rocks, Rhode Island Reds or Wyandottes, or about 16 hens of the smaller or egg breeds.

J. P. STRONG

Prominent Real Estate Broker of Massachusetts.

Boston, Aug. 25th.—Says, "I have

been in the real estate brokerage business for many years. I have suffered with loss of sleep, indigestion and nervousness, and since taking Argo-Phosphate, I sleep better and eat without fear of distress, and can feel a great change in my system."

There is nothing in medicinal science

that equals Argo-Phosphate in the treatment of indigestion, rheumatism, nervousness, kidney and liver ills. Sold by Hayes Drug Co. and all reliable druggists.

Select Seed Corn Now.

Raleigh, N. C., Sept. 8th.—By

better methods of farming, such as preparing the soil, fertilizing the crop, and using good rotations, in which leguminous crops like cowpeas and soybeans are planted, farmers of North Carolina have been able to greatly build up the yield per acre of their different crops.

According to the experts of the Agricultural Extension Service, this is particularly true in corn.

There is one thing, however,

that the North Carolina farmer generally overlooks. This is the importance of seed selection. It has been demonstrated time and time again that corn will yield from one to two and more bushels per acre from seed which have been selected in the field the previous fall, and tested for germination during the winter. The same is true of cotton.

With the great acreage devoted

to corn in North Carolina, amounting to 1,606,450 acres in 1918, with an average yield per acre of 20.5 bushels, the addition of one or two bushels better yield on every acre would amount to a considerable total in the food producing power of the State.

The addition of this extra one or two

bushels per acre would also mean that the State could grow more livestock than in the past, which would make farming much more profitable than it is now. This would mean, also, that the fertility of worn out soils could be partially restored, and year-round employment given to farmers' labor.

The result, therefore, particularly

in the selection of good seed corn, means a much more remunerative farm. It means an improvement in the quality of the farm, because corn is the one crop which can be adapted to a large acreage successfully.

Through its use as a feed crop for livestock,

corn is one of the leading crops in making farming on high-priced land profitable.

The time devoted by the farmer

to selecting a good variety of corn to his local environments by careful and proper seed selection is almost sure to result in larger yields and greater profits. This is easy for the grower who understands the habits of the plant, because he can work wonders in developing a good variety suited to his condition.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little

Freezone on an aching corn instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but

a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of

a Cincinnati genius. It is wonderful.

REPORT OF THE CONDITION OF

The National Bank of Alamance.

At Graham, in the State of North Carolina, at the close of business on Sept. 12, 1919.

TRUSTEE'S SALE

Of Real Estate in Graham.

Under and by virtue of the power of sale contained in a certain

Deed of Trust executed to the undersigned trustee by A. W. Hollie and wife on March 1st, 1916, for the purpose of securing the payment of four certain bonds of even date therewith, default having been made in the payment of said bonds at maturity, the undersigned Alamance Insurance and Real Estate Company as trustee will, on

MONDAY, OCT. 20th, 1919,

at 12 o'clock m., at the court house door in Graham, North Carolina, offer for sale at public auction to the highest bidder for cash certain tracts or parcels of land in Graham Township, Alamance County and State of North Carolina, adjoining the North Carolina Railroad Company right of way, C. W. Whitfield, Will Freeman, Mary Long and others, bounded as follows:

Tract No. 1. Beginning at an iron stake on the right way of N C R R Co., running thence with the line said N C R R Co. S 79 1/2 deg E 66 feet to an iron stake; thence N 1 deg W 190 feet to an iron stake; thence N 85 deg W 40 feet to an iron stake; thence S 63 deg E. 18 1/2 feet to an iron stake and the beginning, being Lot No. 4 in the survey of the Walker property.

Tract No. 2. Beginning at an iron stake on Hollie's line, running thence S 88 deg E 66 feet to an iron stake on Whitfield's line; thence with the line of said Whitfield N 1 deg W 90 feet to an iron bolt; thence N 88 deg E 66 feet to an iron stake; thence S 1 deg E 90 feet to the beginning, being Tract No. 5 in the survey of the Walker property.

Tract No. 3. Beginning at an iron stake on corner of Lot No. 5 and C W Whitfield lot, running thence with the line of said Whitfield and Freeman N 1 1/2 deg E 42 feet to a rock; thence N 1 1/2 deg E 12 1/2 feet to an iron bolt; thence N 86 deg W 117 feet to an iron bolt, Mary Long's corner; thence N 3 deg W with said Mary Long's line 119 feet to an iron bolt; thence N 89 deg W 66 feet to an iron bolt; thence S 23 deg W 43 feet to an iron bolt; thence S 88 deg E 197 feet to the beginning and being Lot No. 7 in the survey made by Lewis H. Holt, October 18th, 1913.

This Sept. 5th 1919.

Alamance Ins. & Real Estate Co., Trustee.

RUB-MY-TISM—Antiseptic, Relieves Rheumatism, Sprains, Neuralgia, etc.

These Tires Are a Revelation

The Brunswick is frankly a combination of the best in tire building.

There is one tread that's supreme beyond question. And that is now on Brunswicks.

There is one side-wall construction, which, by every test, holds the summit place for endurance. And that one was adopted for Brunswicks.

Fabrics differ — up to 30 per cent — in their strength test. On Brunswicks the maximum long-fiber is the standard.

There are certain additions, each one expensive, which add vastly to tire mileage. The Brunswick embodies all these extras.

There are no patents, no secret formulas to prevent any maker from building the best. It is simply a question of knowledge and skill — cost plus care.

Brunswick standards are known the world over. The very name certifies an extraordinary tire. Yet Brunswicks cost no more than like-type tires.

Buy ONE Brunswick. It will prove that a better tire cannot be bought, regardless of price.

W. W. GARRETT

There is More Money in Wheat—when you use ROYSTER'S FERTILIZER

There are many ways of getting more money out of wheat. One of them is the use of Royster's Fertilizer. But we are not content with giving the farmer the best plant food that can be made and we have prepared a compact, plainly written, practical book, called "Wheat Growing for Profit," which covers the entire process of wheat culture from the preparation of the ground to the harvesting. This book embodies the best modern thought on this subject and will be very helpful to those who wish to increase their profits. It will be sent free of charge. Write today for your copy, using the coupon below.
