Hurt in Runaway. Robt. Rainey, the ice man, was badly hurt in a runaway last Friday afternoon. When the horse began to run a block of ice fell against him and knocked him out of the wagon. He fell under the wheels, but held on to the lines and was dragged about 30 yards. His left shoulder was dislocated, the left side of his face was badly scratched and he received other bruises. On Monday he was able to be around his place of business.

Caught Again. At the August term of court, it convened just a month ago today, one Pearl L. Jones, who operated a business at Glen Raven, was up for selling liquor. He pleaded guilty. Prayer for judgment was continued till Nov. Term. Jones had to pay the costs at the time. Other conditions were that he was not to deal in liquor in any way, report any violations of the prohibition law coming under his observation and report accordingly to the Sheriff each Monday morning till November court. The Judge did not promise him that he would not send him to the roads at November term. The officers were advised that Jones was suspected of dealing in liquor again, so they went about verifying the report. Saturday night Deputies H. J. Stockard and Ed. A. Hensley put themselves in position to find out what was going on. They waited and watched about two hours, when they flashed a light on Jones in the act of measuring liquor to a customer. He was arrested and gave bond in the sum of \$500 to appear at November court. It is hardly expected he will escape the road sentence that he now deserves for his unfaithful conduct.

At a preliminary hearing this afternoon the girl was discharged and Eugene was bonded over in a \$500 bond.

Six Tons Alfalfa Per Acre.

Mr. W. H. Holt has one-fourth of an acre in alfalfa on his lot in town. He had mowed it five times before the dry weather set in. He weighed the last cutting, the only one weighed, and he got 500 pounds, but it was lighter than any of the other cuttings. If the other cuttings had not been heavier than the last he would have got at the rate of five tons per acre, but a conservative estimate is at least six tons to the acre. Last winter alfalfa hay sold here for \$37.50 to \$40.00 per ton, but putting the yield at six tons per acre and the price at \$35.00 per ton the proceeds would amount to \$210.00 to the acre. That's not bad farming. If the weather had continued reasonable he would have got another cutting.

FROM TROLINWOOD TO GULFORD LINE.

Road Will be Built by State Highway—County Passes on and Accepts Proposition of Highway Commission.

Sept. 13, 1919. Mr. Frank Page, Chairman, Raleigh, N. C.

Dear Sir: In reply to your letter of Sept. 9th, I am glad to tell you that in a special meeting of the Board of County Commissioners today in which the full Board was present, the proposal as set forth in the above named letter for completing project No. 22 was unanimously approved, with this reservation, however: the thickness of the wearing course is not stated. The Board request that you write me stating what the minimum thickness of this wearing course will be.

Immediately upon the receipt of a satisfactory reply to this request, I will mail you final instructions as to our part in the construction of the road known as project No. 22.

Very truly yours, C. P. ALBRIGHT, Chm'n Bd. County Commissioners.

Graham, Alamance County, N. C., September 13, 1919.

A special meeting of Board of County Commissioners of Alamance county, N. C., was held, pursuant to call of Chairman, on Saturday, September 13, 1919, to consider a proposition of the State Highway Commission looking to construction of a certain road in Alamance county.

Upon roll-call all Commissioners were present, to-wit: C. P. Albright, Chairman, W. O. Warren, Ed. L. Graves, John M. Coble, and W. P. Lawrence.

All the Commissioners waived all formalities as to call and meeting was called to order by Chairman, who laid before the Board the proposition of the State Highway Commission as set out in letter as follows:

September 9, 1919. Mr. C. P. Albright, Chm'n Alamance County Commissioners, Graham, N. C.,

Dear Sir: In compliance with our conversation, this letter is to say that the State Highway Commission will take the contract for the County and Federal Government for building project No. 22 from Gibsonville to Trolinwood exclusive of that distance from the west corporate limits of Burlington to the east corporate limits of Graham.

It is our plan to build a 16 ft. penetration macadam road, using wherever possible, the old macadam basis, supplementing new stone so that you will have at least 6 inches of well bedded stone below the wearing course.

The recent bids we had on this road would carry your price around \$28,000 per mile. We obligate that the road shall not cost you in excess of \$26,000 per mile.

The financial arrangement will be that: At the beginning of each month we will ask you to deposit, subject to order, one-half the sum of money that we contemplate is necessary for us during that month, and in no instance shall this amount exceed \$13,000 per mile of completed road.

If this road can be built for less than \$26,000 per mile you will have the benefit of any reduction below this amount, that is, we will charge you actual cost plus 10 per cent for supervision, and in no instance shall this amount exceed \$13,000 to be paid by Alamance county.

If this proposition is agreeable to you we will thank you to let us know and so accept it by legal meeting of your Commission.

It is our purpose to immediately get to work on this road so that there will be no more delay in its completion than is absolutely necessary.

Awaiting your reply, I am, Very truly yours, (Signed) FRANK PAGE, Chairman State Highway Commission.

After full discussion, E. L. Graves moved that the proposition of the State Highway Commission as contained in said letter be accepted, and that the Clerk to the Board notify said Highway Commission of action of this Board at once. This motion was seconded by John M. Coble and upon roll call the following Commissioners voted upon said motion to-wit: C. P. Albright aye, Ed. L. Graves aye, W. O. Warren aye, W. P. Lawrence aye, John M. Coble aye.

After further discussion the matter of raising funds to provide funds to pay for that part of the expenses of building said road to be considered and acted upon at the regular meeting of the Commissioners to be held in October.

J. B. M. Rogers, Clerk to Board of County Commissioners of Alamance County, N. C. certify that the foregoing is a true and compared copy of the Commissioners proceedings of September 13, 1919.

Plants Trees Along Roads. Dr. J. E. Westlake, of Virden, Ill., has started a campaign in behalf of fruit tree planting along the public highways. He favors the planting of a fruit tree on every mile of the country roads and suggests that the Boy Scout organizations serve as guarantors of the trees after they are planted. He estimates the cost for the county would be about \$12,000. He has launched a similar campaign in other counties of the state.—Chicago Journal.
