## PRESIDENT WILSON.

President Wilson's speaking tour in behalf of the Peace Treaty and League of Nations had to be canceled before completed on account of nervous exhaustion. He reached Washington Sunday. His physician demands absolute rest for him. The years of war and since have made inroads on his strength and physical endurance to the extent that his condition is giving much concern to the public.

U. S. Senator James A. Reed had a speaking date at a town named Ardmore, in Oklahoma, Wednesday night, against the Peace Treaty and League of Nations. A speech of introduction by the mayor was made under much uproar, but Reed was not even allowed to begin his speech. There seemed to be a lack of "Senatorial courtesy." A report says he was "egged from the start." The Lodge-Johnson et al. propaganda against the treaty and league does not appear to have taken much root in the hurricane State.

Elaine, near Helena, Ark., was the scene of a race riot Wednesday and as a result two white men and seven negroes are known to be dead. Tuesday night the firing on special agents precipitated the clash. An uprising of the negroes is reported to have been headed by a white man. The report says United States troops are being rushed to the scene; that the situation is critical, and many arrests have been made.

The strike mania is almost unabated. It seems to be strike, strike, strike—grievance or no grievance. There appears to be a strike committee which pulls off the performance whether workers want it or not.

Fayetteville is pressing for a front seat, having invited King Albert and Queen Elizabeth of Belgium to come to the Cape Fear city on their visit to this country.

## PRESIDENT CANCELS SPEAKING DATES.

Overwork Causes Illness Which Determines Action.

On Board President Wilson's Special Train, Sept. 28.—Ill from over-exhaustion on his long tour for the Peace Treaty, President Wilson today cancelled the speaking dates remaining on his schedule and turned back toward Washington.

The President acted under orders from his physician, Dr. Cary T. Grayson, who said in a formal statement that Mr. Wilson was suffering from "nervous exhaustion and that while his condition was not alarming, a considerable period of rest would be necessary for his recovery."

After a few days at the capital, where the President's special train will arrive Sunday morning, the President may go to some resort for a rest from the stresses and strains which have occupied his attention continuously for many months.

A plan for Mr. Wilson to go to New York late next week to see King Albert and Queen Elizabeth, virtually has been abandoned, but the President expects to receive the nation's visitors later at the White House. All engagements for the immediate future have been canceled.

After a night of illness during which Dr. Grayson and Mrs. Wilson were in almost constant attendance on him, the President decided to abandon his trip—when his train reached Wichita, Kan. He did not leave his private car there, and during most of the time he was in bed. In the afternoon and evening he got some sleep and was able to take some nourishment.

Since he left Washington September 3d, the President has delivered 46 speeches for the treaty, and when he reached Wichita he had traveled more than 4,200 miles of his original 10,000 mile schedule.

Although Mr. Wilson's illness did not take an aggressive turn until last night, he has not been entirely well since he left Washington. A slight cold several times handicapped him in speaking and for several days he has suffered from headache. After leaving his train for a three-mile walk yesterday near Pueblo he seemed in much better trim.

In the evening, Dr. Grayson spent some time with him and during the night made another visit to the President's car and found that the President was not sleeping well and that Mr. Wilson, who has been his constant companion during his trip, had been up attending to his wants. When the physician left Mr. Wilson seemed to be resting more quietly.

At five o'clock this morning Mrs. Wilson asked that Dr. Grayson again be called. Virtually without sleep during the night, the President was in a nervous condition.

Mr. Wilson was up and dressed before his train reached Wichita at 9 o'clock and was preparing some notes for his address. It was when that Dr. Grayson, after an examination, took a resolute stand against continuation of the speaking trip. Secretary Tumulty was called in the consultation and the two prevailed on the President to abandon his plans and return to the capital.

Meantime the train officials acting on orders from Dr. Grayson and Secretary Tumulty, sidetracked the presidential special a mile away from the station where a crowd was waiting impatiently for the chance of the executive to appear. Word was later sent to the crowd and it dispersed.

## Guilford Man Refuses to Comply With Revaluation Law—May be Tested in Courts.

Greensboro Patriot.

Action which may result in thorough testing the validity of the revaluation act adopted by the general assembly of 1919 has just been taken by County Auditor Willis Booth, who is also county supervisor of revaluation. Mr. Booth has written a letter to a Guilford county taxpayer in which he notifies that man, a farmer in Jefferson township, he must comply with the provisions of the revaluation law.

Failure to comply fully with the law, Supervisor Booth points out in his letter to the taxpayer, will result in the bringing of legal charges against the offender. In fact, the supervisor states that failure of the taxpayer to comply with the law will be promptly followed by the issuance of a warrant. The warrant will be served next Wednesday, October 1, according to Mr. Booth, if the Jefferson township farmer fails to comply with the law by that time.

The Jefferson man, who owns a farm of 48 acres, flatly refuses to cooperate with county officials in the revaluation of his property, according to Supervisor Booth. For example, he declines to answer the questionnaire submitted to him, in the same manner as it is submitted to all owners of real property. Mr. Booth states, in fact, according to the supervisor, the Jefferson farmer refuses to have anything to do with the revaluation act, and it is also reported that he has spoken to his neighbors in very disparaging vein concerning the new law.

It is pointed out that the act stipulates that failure to comply with any of its provisions will be punishable by law. Failure to answer truthfully any questions propounded by officials employed to execute the provisions of the law may be punished by a fine or imprisonment, in the discretion of the court.

If the recalcitrant taxpayer refuses to comply with the law by the first of October he will soon find himself a defendant in the Superior court of Guilford county, Mr. Booth states, and the case will be prosecuted vigorously. Efforts might be made to take the case from the Superior court to the North Carolina Supreme court by the appeal route, it is suggested. In that event the State would, of course, be prepared to press the matter vigorously to a logical conclusion.

This is the first case of the kind which has arisen in Guilford county, and, according to available information, is the first case found in the entire State. The general spirit of co-operation manifested by taxpayers has been very gratifying to officials, revaluation activities having evidently been quite successful to date.

**Catarhal Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by the exclusive remedy, **Carruth's Deafness**, which is an inflexible condition of the hearing nerve. Carruth's Deafness is a disease of the hearing nerve, and when this tube is inflamed you have a ringing sound or imperfect hearing, and when the inflammation can be reduced and this tube destroyed forever. Many cases of deafness are caused by catarhal deafness, and Carruth's Deafness sets the blood on the mucous surfaces of the ear.

We will give you Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Carruth's Deafness. Creators from A. J. CHERNEY & CO., Toledo, O.

## United States Helps Plan Farmhouses.

It does not cost any more to build a house which will be pretty and convenient than it does to erect a homely and inconvenient dwelling, the home demonstration agents of the South are telling the people in their territories. The State agricultural colleges and the United States Department of Agriculture are backing up this "home beautiful" movement. In some States the work is yet in the lecture stage and in others demonstration homes are being erected which are to serve as good examples of architecture in that community.

Such a home was built last summer in Talladega county, Ala. Not only its plans, but its decoration and landscape setting as well, have been made according to the designs of the Government experts. It is up-to-date in every detail, but strict economy has been used in the plans. Beauty of line and material are so much found in this farm dwelling. So much care has been put on the floor plans and so many labor-saving devices have been built in it that housekeeping in it will be easy. The house is built of lumber cut on the farm and it is located on a main thoroughfare, where a comfortable, well-planned, and pretty farm home can be a source of inspiration.

It should be a big season for the song writers. All the new ditties will be in need of national anthems.

## CALOMEL

Calomel is a dangerous drug. It is mercury—quicksilver, and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go

back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

## Biggest Hog Shipment Marketed.

The largest individual hog shipment ever received at the Kansas City market, consisting of 940 hogs which averaged 280 pounds apiece, a total of 265,720 pounds of pork on the hoof, recently was received from a Livingston county, Missouri, farmer. These porkers had rail service de luxe, as the 16 cars they occupied were handled as a special live-stock train. The extra attention accorded this shipment was worth the trouble, as only three hogs, or about three-tenths of 1 per cent were lost.

## OH MY STOMACH.

"I had stomach trouble so badly that nothing I ate would digest as it should," said Sadie E. Hamilton, Portland, Me., as she began a remarkable story of the relief she has secured from Argo-Phosphate, the new reconstructive, stomach tonic and system purifier.

"Everything that I ate would lie in my stomach like a lump," she explained. "Gas would form and I would suffer distress all the time. I got so I could hardly keep anything down. Trying to get relief, I had my stomach pumped out, but even this did not help me as I continued just as bad. I kept hearing so much about Argo-Phosphate that I thought maybe it might help me and I decided to try it. I have taken two bottles and to my surprise I am already feeling fine. I can eat anything and I am not troubled at all. I am completely rid of my old stomach trouble that I had for three years. I have not felt so well for years and I am certainly glad to endorse Argo-Phosphate because I want others to be helped by this wonderful medicine."

## The Home Paper's Purpose.

THE GLEANER would be glad to give credit to the writer of the following editorial which sums up concisely the purpose of the local newspaper. But since we do not know who was responsible for it, instead of taking refuge in well worn "Exchange" tacked on at the end of the editorial, we take this method of acknowledging our debt to the man who wrote it. The editorial follows:

"Our State is dotted with villages, in each of which one or more newspapers are published. They do not claim to be a review of the world. These country newspapers appear faithfully week after week, recording the happenings of the neighborhood, lending assistance to the unfortunate, extending sympathy and consolation to the bereaved, chronicling with pardonable pride any improvements in the community and bringing to the fireside a record of happenings that are of more importance to the readers than the crowning of George V as emperor of India.

## Influenza and kindred diseases start with cold.

Don't trifle with it. At the first shiver or sneeze, take

## CASCARA QUININE

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine has a Red top with Mr. Hill's picture. At All Drug Stores.

Better than Pills. GET A For Liver Ills. 25c Box

GRABAM DRUG CO.

## WILL INSPECT HORSE MEAT MEANT FOR HUMAN FOOD.

To open up the channels of trade for some of the inferior horses in this country that do not pay for their keep, and to increase the meat supply in some of the larger cities in the United States and abroad where horse meat is used for human food, the United States Department of Agriculture is authorized by Congress to inspect horse meat and horse meat products. The amendment to the regulations governing meat inspection by Congress on July 24, with an appropriation of \$100,000 to carry on the work during the fiscal year ending June 30, 1920.

While it is expected that as a result of this amendment inferior horses throughout the country will be slaughtered for human food, it will open a market especially for the small horses—many of them wild—on the western range. These animals are eating much of the limited supply of range feed which is needed by live stock that is better able to pay for its keep. Elimination of the undesirable horse not only will save feed for more worthy cattle and sheep, but will add hides to the leather supply and increase meat stocks.

## Horse Meat Must Be Inspected.

Every establishment in which horses are slaughtered for the preparation of food products for transportation or sale in interstate or foreign commerce must be Federally inspected under the new regulations. All horse meat for export trade must be inspected. The slaughter of horses and the preparation and handling of horse meat must be conducted in establishments separated from those in which other animals are killed and handled. All horse meat or horse-meat products must be conspicuously labeled or branded: "horse meat" or "horse-meat product," and must bear the statement, "U. S. Inspected and Passed by the U. S. Department of Agriculture." The regulations list a number of horse diseases which, if found in any animal, slaughtered, will cause it to be condemned as food.

## Necessary for Export.

One of the most important reasons for the new regulations is that many foreign governments will not import horse meat from the United States unless it is Federally inspected. Briefly, in making possible the utilization of horses for meat, the regulations place the matter under Federal supervision, thereby insuring that the product is clean and wholesome.

The regulations, it is explained, merely provide for the inspection. The number of horses used for meat will depend on the extent to which horses are marketed for that purpose and likewise on the demand for the product.

## LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers.

## WILL'S REMEDY

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine has a Red top with Mr. Hill's picture. At All Drug Stores.

# DON'T TIE A WEIGHT TO YOUR CAR

WOULD YOU KNOWINGLY, AND WITH PERMISSION, ALLOW A SEVERAL HUNDRED POUND ROCK TO BE TIED TO YOUR CAR? OF COURSE NOT!

But when you buy at random, any sort of Motor Oil, you give the power in your motor just about the same "knock out" blow, as if you had a weight dragging on behind.

The perpetual power of your car, its pulling efficiency, its "pep" to get up and step, depends upon the way you take care of it; and that care in the MAIN is CORRECT LUBRICATION.

When your engine bucks, knocks, loses power, and easily overheats, ten times out of nine, there is a depositing of destructive elements in the oil being forced through the lubricating channels of the oiling system, getting back into the oil case, and thence redistributed, until the bearings and pistons and combustion chambers begin to creak up with carbon. Then you have a badly overheated engine. Ordinary oils can not stand the test of heat, which the fast working of the motor runs up to from 200 to 1000 degrees F. Ordinary oils break down under this terrible temperature, and leaves your engine and motor and their intricate, close-working parts at the mercy of expansion; and the reaction of this sort of doings will shortly leave your motor in the "rattle-trap" class.

Play safe, and not only buy the best oil—"GREEN FLAG" Oil, but the proper body and consistency for your particular car. The following well-known and reliable dealers in this county are exclusive agents for "GREEN FLAG" MOTOR OIL, and will guarantee its quality, and the correct body for your car. It will pay you to DRIVE OUT OF YOUR WAY to get this very superior Motor Oil and accept no substitutes.

Graham Motor Car Co., Graham, N. C.  
Elkin Motor Co., Mebane, N. C.  
Anderson Motor Co., Burlington, N. C.

## PE-RU-NA

and MANALIN Cured Me

Mrs. E. M. Harris, R. R. No. 3, Ashland, Wis., sends a message of cheer to the sick:

Catarrh of the Nose, Throat and Stomach.

"After following your advice and using Peruna and Manalin, I was cured of catarrh of the nose, throat and stomach, from which I had suffered for several years. When I commenced taking Peruna I could not make my bed without stopping to rest. Now I do all my work and am in good health. I recommend this valuable remedy to all suffering from any disease of the stomach."

Peruna is Sold Everywhere Liquid or Tablet Form

## SALE OF REAL ESTATE UNDER DEED OF TRUST.

Under and by virtue of the power of sale contained in a certain Deed of Trust recorded in Book of Mortgages and Deeds of Trust, No. 71, at page 221, Public Registry of Alamance county, default having been made in the payment of the bonds said deed of Trust was executed to secure, the undersigned Trustee will, on

FRIDAY, OCTOBER 31, 1919, at 12 o'clock noon, offer for sale at public auction to the highest bidder for cash, at the court house door of Alamance County, North Carolina, at Graham, N. C., as coparceners, Webb Avenue and other parcels of land in Alamance County, North Carolina, and in Burlington township, adjoining the lands of W. R. Garrett, A. H. Compton, Webb Avenue and others; the same being lot No. 1 of the Jane Cates project, according to the survey made by Lewis H. Holt, County Surveyor for Alamance County, April 6, 1918, and duly probated and recorded in the office of the Register of Deeds for Alamance County, at Graham, N. C., in Plat Book No. 1, at page 85; said lot adjoins the lands of W. R. Garrett and others, as aforesaid, fronting on Webb Avenue 62 feet and extending back in the shape precisely as a parallel map and survey. On said lot is situated a 3-room dwelling.

This September 26, 1919, Alamance Ins. & Real Estate Co., Trustee.

## SALE OF REAL ESTATE UNDER DEED OF TRUST.

Under and by virtue of the power of sale contained in a certain Deed of Trust, recorded in Book of Mortgages and Deeds of Trust No. 71, at page 82, Public Registry of Alamance County, default having been made in the payment of the debt said Deed of Trust was executed to secure, the undersigned Trustee will offer for sale, on

FRIDAY, OCTOBER 31, 1919, at 12 o'clock noon, to the highest bidder for cash, at the court house door of Alamance County, in Graham, N. C., two certain tracts or parcels of land in Alamance County, North Carolina, bounded and described as follows:

LOT NO. 2—Lying in Burlington township, same being Lot No. 5 farm plot of the A. T. Walker land, as shown by blue print recorded in the office of the Register of Deeds for Alamance County, N. C., in Plat Book No. 1, at page 2, and containing eight and fifty-five one-hundredths acres, more or less.

LOT NO. 2—Lying in Burlington township, same being Lot No. 5 farm plot of the A. T. Walker land, as shown by blue print recorded in the office of the Register of Deeds for Alamance County, N. C., in Plat Book No. 1, at page 2, and containing 11.18 acres, more or less.

This September 26, 1919, Alamance Ins. & Real Estate Co., Trustee.

## Why Brunswick Tires Win Preference

There are two main reasons—one, the name itself, which certifies superfine value—the other, that time tells the same story.

Thus reputation and performance unite in giving you all you expect—and more.

Yet Brunswicks cost no more than like-type tires. Many motorists would pay more readily, but the Brunswick idea is to GIVE the utmost, rather than to GET the utmost. And this has been true since 1845. You can appreciate what Brunswick Standards mean by trying ONE Brunswick Tire. It will be a revelation. You'll agree that you could not buy a better, regardless of price.

And, like other motorists, you'll decide to have ALL Brunswicks. Then you'll know supreme satisfaction from your tires—longer life, minimum trouble, lower cost.

THE BRUNSWICK-BALKE-COLLENDER CO. Baltimore Headquarters: 107 Hopkins Place

There's a Brunswick Tire for Every Car Cord—Fabric—Solid Truck
