STEEL MASTER BEGAN TO SAVE WHEN YOUNG

Recognize That Success Lay in Sound Investment--Safe Security in World is Now Offered By Government.

Andrew Carnegie did not long ago, leaving behind him \$30,000,000. He had given away about \$50,000,000 in an effort to avoid the reproach of dying rich.

It is probable that the high cost of living gave the "steel master" little worry during the latter half of his life, but it is certain that in his boyhood the prices of the necessities of life were vital factors. And Andrew Carnegie in his early years met the cost of living with the same remedy which America's leaders, headed by President Wilson, are now putting forth as the basic principle of the fight to withstand the menace that lurks in the soaring prices of today. That remedy is thrift--the practice of saving, the elimination of waste and sound investment.

In the days when Andrew Carnegie, 14 years old, earned \$1.20 a week as a bobbin boy in an Allegheny City cotton mill, and later when he earned \$11.25 a month as a telegraph messenger boy, the cost of living meant much to him. He had little margin for saving. But he did save. There were few opportunities for the small saver to make safe investments. Securities were not issued in small denominations. There were no Thrift Stamps or War Savings Stamps, backed by the government, into which the meager proceeds of the Scotch boy's thrift could be converted.

But Andrew Carnegie at the age of 20 determined upon safe investment. The soundest securities that offered were 10 shares of stock in an express company worth \$1000. Carnegie had to borrow part of the money he paid. But he was convinced the savings by long idle were not performing their proper function.

The American man or woman, boy or girl of today does not have to borrow to add to the savings fund in order to find safe investment. The government makes sound security in the form of Savings Stamps, Thrift Savings Certificates, and war bonds available to every saver who will begin to practice thrift by the regular investment of sums as small as 25 cents.

Every American today has a better opportunity for success than lay before Andrew Carnegie when he faced the world.

SAVING GROWS EASIER AS HABIT TAKES HOLD

Young People Must Be Brought to Realization of What Future Means to Those Who Spend Wisely.

It is easier to spend money than it is to save. It is also more fun--at first. But money that is spent does not work for you. It is gone, and is working for somebody else.

It is as hard to make young people realize the necessity of saving as it is to make them realize that they are not always going to be young. It is no easy to be young and reckless.

But habits of thrift have to be taught. They also have to be formed by practice. That means that the rising generation must be taught to capitalize its youth, and in childhood show how to distribute and allot such income as it may have.

That indeed, is a large part of civilization. The savage lives today with an eye upon tomorrow. In order that tomorrow may be as secure as today he saves some of today's goods for tomorrow's use.

The war taught many people how to save; it taught other people how to spend. The wise spender is the wise saver, but the emphasis is on the "wise" and not on the "spending." Education in thrift is an education in good citizenship and in good morals. The person who is being taught to save is also being taught to forecast the future and to make tomorrow better because of wise living today.

The government of the United States is offering to men, women and children the opportunity to invest savings in safe and profitable securities.

ARE YOU A CAPITALIST?

The dictionary defines a "capitalist" as one who has a "pecuniary surplus." The dictionary is wrong. A capitalist is one who has a pecuniary surplus "which is invested."

You are if you are buying War Savings Stamps or Treasury Savings Certificates. They represent "pecuniary surplus" or, in simple English, "savings," and they make your money work by bringing to you 4 per cent interest, compounded quarterly.

Are you a capitalist?
Secretary of Commerce Redfield recently said to the Cleveland advertising men: "There are 64,000,000 subscribers to our Liberty Loans. I suspect that many a factory is manned, as I know some government services are, by a force from top to bottom of capitalists, in varying degrees, but not the less really."

Don't kick about the high cost of living. Beat it by trimming your sails and buying War Savings Stamps. The capitalists are not kicking about the high cost of living.

Why?
Because they have money at work. Cut your expenses to the bone. Invest in War Savings Stamps. Be a capitalist.

SCOTCH SONGS TO DATE

If a body meet a body
Coming through the eye:
If a body save a dollar
Why, then, bye and bye,
When the shiftless people holler
"Money's scarce and tight!"
He who saves the nimble dollar,
Will come through all right!

Shouldn't acquaintance be forgot
And never come to mind?
Why, no!--unless he is a sot
And better left behind.
But one thing you must not forget,
If you are using more than funny:
"When you think on saving's set
It's easy saving money!"

Knowing War Savings Stamps are a good investment won't do you any good unless you back up the knowledge with your money.

Follow the example of rich men if you would be rich. They make their money work for them. You can do it by buying War Savings Stamps.

Condition to Avoid.

The dangerous moment in life comes when men begin to over-value the past at the expense of the present. It is the moment of religious controversies, for ancestor worship, for narrowing in, for exalting one set of people and excluding another. When we reach it, it means that we are growing old. But we need never reach it.--Exchange.
