Red Cross Christmas Seal Campaign

This is the poster selected by the the National Tuberculosis Association officials for the Red Cross Christmas Seal sale. It will appear throughout the country on the eve of the seal sale—Dec. 1-10.

URGENT RED CROSS SEAL DAY IN ALL SCHOOLS

Surgeon General Blue Asks That Churches Also Join in Movement to Further Sale

Surgeon General Rupert Blue has issued an appeal to observe Christmas Seal Day in the schools and in all places of worship in the United States, December 5, 6 and 7. The appeal follows:

"Over one hundred and fifty thousand Americans die annually from tuberculosis. This is an appalling waste of life when we consider that tuberculosis is classed as a preventable disease. Moreover, because this loss of life occurs almost entirely in the ranks of the young adult population; health authorities throughout the world ever have come to consider the control of tuberculosis as still the most pressing health problem confronting them. Every year the National Tuberculosis Association, by selling Red Cross Christmas seals, raises a considerable sum of money to be used in a nation wide campaign to combat tuberculosis. This year a special effort is being made to interest school children in this work and December fifth, sixth and seventh have been designated as days on which the seals are to be sold in the public schools, synagogues and churches. Because of the seriousness of the situation, I trust that the campaign this year will be particularly successful."

"RUPERT BLUE, Surgeon General, United States Public Health Service."

CHRISTMAS SEAL FUNDS

Within two weeks over a billion Red Cross Christmas Seals will be on sale in every nook and corner of the United States. These seals are sold to finance the campaign against tuberculosis in this country. Of every dollar received from the sale of Red Cross Christmas Seals, \$1.70 remains in the state where the seals are sold for the benefit of the organized anti-tuberculosis campaign in that state.

Out of the remaining 83%, the expenses of running the campaign are first deducted, and whatever is left is then divided between the American Red Cross and the National Tuberculosis Association.

The Red Cross Christmas Seal campaign is not for the purpose of financing the work of the American Red Cross or its chapters. It is for the purpose of financing the National Tuberculosis Association and the various state tuberculosis associations. The Red Cross Christmas Seal, launched in 1908 by the American Red Cross, has been issued in the name of the Red Cross since that date. In March 1919 the American Red Cross agreed to allow the National Tuberculosis Association to use its name and emblem on the usual Christmas seal. This year the Red Cross has no other part in the Tuberculosis Seal Campaign. The Red Cross Seal is a Tuberculosis Seal. Those who buy it are supporting the tuberculosis work in their own communities.

To support the programs of work outlined in the forty-eight states and insular possessions for 1920 in such a manner that results in the saving of thousands of lives may be realized, will demand the sale of at least 650,000,000 Red Cross Seals at one cent each. Tuberculosis can be suppressed. The Red Cross Seal offers an opportunity for the widow's mite or the rich man's thousands. Do your share today.

INVEST IN HEALTH BONDS

Dividends in the Form of a Reduced Tuberculosis Death Rate will be Paid

The National Tuberculosis Association and its 1000 affiliated organizations offer this year, in addition to the Red Cross Christmas Seals, Health Bonds on which annual dividends in the form of fewer new cases of tuberculosis and a reduction in the white plague death rate will be paid. The bonds have been issued for the convenience of those who cannot use the number of seals their contributions will call for.

In Grip of Winter.

Kansas City, Nov. 29.—With a thin coating of ice over everything and snow or sleet falling in nearly all sections, the southwest today was in the grip of winter.

Under the weight of the ice, telephone and telegraph wires snapped and communication was paralyzed throughout the section. Railroad traffic was interfered with, but it was said trains were running within a half hour to two hours of schedules.

Snow flurries were reported generally from Missouri, Kansas, Oklahoma and the Texas Panhandle. Temperatures ranged well above zero, but no reports had been received at the weather bureau here from western Kansas.

GO NO FARTHER

The Evidence is at Your Door.

Graham proof is what you want and the statement of this highly respected resident will lannish all doubt.

A. T. Webster, Poplar St. Graham gave the following statement in December, 1917: "I suffered severely from pains across the small of my back and there was a soreness through my kidneys. The kidney secretions were unnatural, too. Finally I used Doan's Kidney Pills and soon was much better in every way. I have had but little pain in my back since and the kidney secretions have cleared up."

On July 12, 1918, Mr. Webster added, "I would not be without Doan's Kidney Pills for anything as I think they are the best kidney medicine on the market. They put me on my feet when I had kidney complaint and I advise anyone who has this trouble to take them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Webster had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Courting Trouble.

The habit of many automobile owners and operators of filling the gasoline tank while the motor is running is a most dangerous one and there should be most rigid regulations forbidding it. The Kansas State Fire Marshal reports many fires which originate in this manner, saying "We doubt if many people realize just how dangerous the operation is. For the individual who has never had the matter brought to his attention, there may be an excuse, but with the danger of the practice, there is none. A lighted cigar or cigarette is also a mighty dangerous proposition to have near the tank while it is being filled, and yet there are thousands who take the chance daily."

Concrete on the Farm

A fine lot of improvements can be made around the farm with concrete. It is not hard to get a good job with the farm help, if a few vital points are kept in mind. These are pointed out by Mr. Deane G. Carter of the Agricultural Engineering Department.

Use only clean materials for concrete work. Sand and gravel ought not to contain vegetable matter or dirt, and the water should be clean. Any brand of Portland cement is suitable if it has not been wet.

The common proportions for most farm work are 1 part of cement to 2 parts sand and 3 parts of gravel. This material is thoroughly mixed dry and enough water added to make a jelly-like mixture. If ungraded sand is used, the proportion is 1 part cement to 4 parts sand.

These proportions can be used for troughs, water tanks, floors, dipping vats, foundations, sidewalks, steps and such structures. If a smooth hard surface is desired a top coat should be added to sidewalks and floors. The top coat is made of 1 part cement and 2 parts of sand.

The Agricultural Engineering Department of the North Carolina State College will be glad to give detailed information about concrete to any one interested.

Isaac Davenport of Pennsylvania, was fatally injured in Lenoir county Thursday when a stump puller at high tension broke in two, a piece striking and badly mangleing him. He was 40 years of age.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood... I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse... Nothing seemed to help me until, one day, I decided to

TAKE CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain... It has now been two years since I took Cardui, and I am still in good health... I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezont costs but a few cents at any drug store. Apply a few drops on the corn, callus and "hard skin" on bottom of feet and then lift them off.

When Freezont removes sores from the toes or calluses from the bottom of the feet the skin beneath is left pink and healthy and never sore, tender or irritated.

PREVENT PNEUMONIA

Neglect of a simple cold is often the direct cause of pneumonia. Children do not like to take nauseating medicine but do like the soothing effect of the external remedy;

BRAME'S VAPORANTHA SALVE

WILL NOT STAIN THE CLOTHES

Brame's Vaporantha Salve is applied by rubbing this delightful salve into the chest and under the arms. The result is almost instant relief from cough and cold. It is not unusual for embryos of pneumonia to be smothered after a few applications. Recommended by doctors for the youngest babies as well as for grown-ups.
