Entered at the Postoffice at Graham, N. C., as second-class matter.
GRAHAM, N. C., March 4, 1920

REPUBLICAN CONVENTION.

The Republicans held their State convention in Greensboro yesterday. Before the meeting a fine prospect for a row was peeping over the horizon. But the disaffected were appeased and upon the surface things went off smoothly.

The permanent chairman of the convention was C. A. Reynolds, who was Lieut.-Gov. during the Dan Russell regime.

Delegates at large to the National convention to be held in Chicago on June 28th were named as follows: John M. Morehead, E. Carl Duncan, Marion Butler and Frank A. Lincey, the same old crowd which has been in control for years.

Of course everything the Democrats have done in all the past years was severely condemned by both resolutions and the open speaking. This was expected. A Republican convention is the last place in the world for a Democrat to go to to look for comfort or commendation.

A full ticket, as follows, was recommended to be voted on in the State primaries:

U. S. Senator, A. A. Whitener, Governor, John J. Parker, Lieut.-Gov., Irvin B. Tucker, Sec'y of State, Brownlow Jackson, Attorney-Gen., H. P. Seawell, Treasurer, J. J. Jenkins, Commissioner of Labor and Printing, James F. Barrett, Sept. Education, Mrs. Mary Settle Sharp, Auditor, J. Ed. Mendenhall, Com'r Ins., W. L. Stanton, Corp. Com'r., J. B. Mason, Supreme Court Justices, T. T. Hicks, J. F. Alexander.

Wood's Boom on the Rocks.

Philadelphia Record.

Now that Congress has turned down the plan for universal military training, why does Doc Wood remain in the field as a Presidential aspirant? The only valid argument for his candidacy has been removed. The country has turned to successful soldiers after its wars, as it did to Washington, Jackson, Taylor and Grant, because of their great achievements, but General Wood has nothing of that kind to his credit. The political experts say that his campaigners have abandoned Pennsylvania as a field for possible delegates, and that his boom is on the rocks. It is to be hoped this is true. The bluff has been kept up too long, and it is full time that someone exposed it.

Southwest Alamance.

Cor. of The Gleaner.

The flu patients in our community are all improving and no new cases. The schools and churches will reopen soon.

Rev. L. U. Weston's sermon was very much enjoyed; hope to get another.

Mathias and the ground-hog are giving us just what they promised, but in this case it would have been better if they had not been so honest in their dealings.

With the high cost of living and people leaving the farms every day for public work is making the few that are left wonder how the country is to feed the cities. City prices for work are so high farmers cannot pay them and only get 8 hours for a day. The farmer works 12 and 14, so there is the problem. If more people don't work, the H. C. L. will be still higher.

If the women ever organize a separate political party, the rolling pin should be its emblem.

You can cork a demijohn, but not a demagogue.

When prices come down, will they slide down in graceful spirals or will they come down like the deacon's one-horse shay?

If Berkman and Goldman have to work twelve hours a day they will think they have been deported to Hades and not Russia.

The affairs of Greece are looking up. A prince of the Greek royal house has won an American widow worth \$14,000,000.

Von Hindenburg is to publish his memoirs. We wonder if they will include the verdict of the international court that is to try him.

Nowadays in the Middle West that rushing sound in the air doesn't mean a cyclone. It's merely the approach of Hiram Johnson on his way to deliver an anti-League speech.

"Mark Hanna's methods were classical in their day," remarks the New York World, and if certain gentlemen have their way they will insist on close study of the classics at the next Republican convention.

Legumes grown and not turned under do not ordinarily add much more to the fertility of the soil than other crops grown on the land.

COMMUNITY MUSIC.

This is Part of Extension Service of University—Prof. Weaver to go Out and Lecture on Singing—Exchange of Professorship Plan Among Southern Universities.

Cor. of The Gleaner.

Chapel Hill, N. C., March 2.—New plans for the development of community music in North Carolina are announced in a recent leaflet of the bureau of extension of the University of North Carolina, prepared by Paul J. Weaver, Professor of Music.

Defining community music as everything which will be of aid in making the community musical, Mr. Weaver says that the "sing" is the fundamental expression of community music, "for here everyone can participate, no matter what the age, creed, or color, and no matter if some cannot even carry a tune." The community chorus is the next step beyond the "sing," and beyond that comes the men's chorus, the community orchestra, and other community instrumental organizations.

Mass music such as this, Mr. Weaver says, has proved its importance in American life. "It is in its very nature democratic. . . . It is a most potent force in binding men together for a common cause and in forming and directing public sentiment. It is recognized as a most vital factor in the present 'Americanization' movement. . . . It is earnestly believed that community music can be one of the most effective means of solving the negro problem in the Southern States."

Through the bureau of extension Mr. Weaver will be sent out to deliver lectures on community music and to lead community singing throughout the State. He has already started at Chapel Hill a series of Sunday afternoon concerts, which have been largely attended by students in the University.

Mr. George Howe, Dean of the College of Liberal Arts and head of the Latin department, spent last week at the University of South Carolina delivering a series of lectures before the University. The Universities of Virginia, North Carolina, South Carolina, and Vanderbilt University have an exchange professorship plan by which a member of the faculty of each institution goes each spring to another institution in the group to deliver special lectures in his field of work. Later in the spring Dr. J. C. Metcalfe of the University of Virginia, will come to Chapel Hill.

Professor F. H. Hickerson, head of the civil engineering department, has also delivered lectures recently at the University of South Carolina, the occasion being a road institute held in Columbia by the University of South Carolina.

What Do You Want?

Charlotte Observer.

Just what do you want? High costs and low wages, or low costs and high wages? Anybody with one who thought in his head will say that he wants low costs with high wages. And we can have this if each of us will do his part. There is just one way to get what all the country needs. That one way is work.

We can't reduce prices until we increase production. We can't increase production until every mother's son, and daughter, buckles down to the job with the determination to produce to the limit.

There is no place for the slacker in business, or anywhere else. It is time each of us understands his responsibility.

It makes no difference what you are doing; but it makes a lot of difference how you do it. Your job may be in the "front office," or in the factory, or in the home; wherever it is it's Your Job, and you can't be fair to yourself or anybody else unless you give that job the best there is in you.

You can't reduce the cost of living by howling about it. But you can reduce it by doing more and better work. As soon as you speed up production, prices will have to drop. They will have to drop because the market will have all the goods it wants.

After you have shown what you can do it will be time to talk. Now is the time to work.

Take an interest in your work. All of us can do more than we are now doing.

Get on the job with a cheer. Produce and watch the prices fall. Make every minute count. Make your dollar worth what it used to be worth. It's up to you.

Jilted, Blind Preacher Takes to the Warpath.

Lenoir, March 1.—Rev. Albert J. Setzer, a blind preacher, ran amuck with a .38-caliber pistol at Hudson, threatening to shoot the man who had won his sweetheart's affections and then kill himself, several days ago, according to news just reaching here.

Setzer was preparing to get married. He had already rented a house and had partly furnished it for what he thought an appropriate wedding. Then the girl turned him down and he went on the warpath.

Undaunted by his handicap of blindness, the preacher secured his trusty old ".38" and made his way to the girl's home, where he expected to find his rival.

According to reports, he planned to first shoot his rival and then turn the pistol on himself and end it all. Upon failing to find the man, he created a bit of excitement with a short sermon, using the pistol in making more emphatic certain points which he wanted to convey.

Friends prevailed upon the preacher to quiet down. They secured his pistol and carried him to the home of a neighbor.

Rev. Mr. Setzer, though blind, is highly educated. He has been a hard worker in county religious circles and has been held in high esteem.

Country Comforts.

Dean E. Davenport, in the Country Gentleman.

Of all men the farmer lives most in his home. His home and his business are so interlocked as to make it quite impossible to say where the one leaves off and the other begins. The farmer has been working long for land. He proposes now to be housed comfortably. He proposes that his wife shall have some of the comforts and conveniences of housekeeping and he challenges the world to produce a housekeeper who more richly deserves them.

Is there any woman who labors as continuously and carries as unmitigated responsibility as the farmer's wife? Is there any other housekeeper who works as long hours for three hundred and sixty-five days in the year as does the farmer's wife?

The answer to all these questions is: We are going to have the modern conveniences for the farmer's wife, who for the most part does her own work and is nurse, cook and laundry maid as well as mother and water extra-ordinary. We are going to have these things for her whether we can afford them or not, and the cost is going into the overhead.

Not luxury but comfort is to be the slogan for American agriculture, and at last we are organized to secure it. Partly by education and partly by increased outlay a more comfortable life is coming to the farm.

Free 1920 Calendar and Book for Our Readers.

We take pleasure in announcing that any subscriber or reader of this paper can secure a vest pocket memorandum book with 1920 calendar and much useful information by sending the postage therefor, three cents in stamps to D. Swift & Co., Patent Attorneys, Washington, D. C. It contains valuable information about past presidential elections, showing how each State voted in each presidential election during the last forty years. It also shows the population of each State during the census of 1890, 1900 and 1910. States the amount of corn, wheat, oats, potatoes, tobacco, hay and cotton produced by each State in 1919. Gives a brief synopsis of business laws, patent laws and much other useful information. For four cents in stamps we will send a nice 1920 wall calendar 10 by 11 inches. Send 7-cent stamps and get the calendar and book.

The Senate is a more intelligent body now than it was last month. Carter Glass has become a member of it.

TAKE IT IN TIME

Just as Scores of Graham People Have.

Waiting doesn't pay. If you neglect kidney backache. Urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills.

St. Paul, Minn., March 2.—Mrs. Bettie L. Pickard, W. Elm St., says, "About two years ago I was troubled with a dull nagging pain in the small of my back. I was very nervous and dizzy and black specks blurred my sight. My kidney secretions passed irregularly, too. When Doan's Kidney Pills were recommended to me, I got a box from Graham Drug Co., and they cured the backache and rid me of the dizziness. I can't praise Doan's highly enough.

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pickard had. Foster-McBurr Co., Mfgs., Buffalo, N. Y.

Millions Need Pepto-Mangan

Is Many Homes Better Health Is Simply a Matter of Better Blood

Pepto-Mangan Improves Blood

Composed of Approved Blood-Making Elements—Put Up in Liquid and Tablet Form

Millions Need Pepto-Mangan

Are you tired and weak and "blue"? Do you say to yourself, "What's the use of living? What do I get out of life, dragging through this dirt existence in this unhappy way?"

You don't feel well and you don't know why you have so little energy to do anything, and you get all tired out before it is done. There are millions in busy America that have such feelings now and then, and they are to be pitied. But there is help. Unless some serious malady is at the bottom of their trouble, a few weeks of Pepto-Mangan will work a wonderful change. Pepto-Mangan puts new vigor into the blood, and the blood is the life fluid. With plenty of rich, red blood coursing through one's body one is pretty likely to feel good and vigorous and be strong and look hearty.

Go to your drugist and ask for "Gude's Pepto-Mangan." Be sure to say "Gude's." If "Gude's" is not on the package it is not Pepto-Mangan. It is put up in both liquid and tablet form. Tell the drugist which you prefer. There is no difference in medicinal value. adv

Gold Production in 1919.

Spokane Spokesman Review.

Twenty States and the territory of Alaska produced gold in 1919, as shown by the report of the Bureau of the Mint and the Geological Survey. The big production came from the Rocky Mountain States and the Pacific Coast, but a little gold was mined in New England, a little in the South and a little in the Mississippi Valley.

Maine, Missouri and South Carolina got in the record by yielding five ounces each, Vermont found ten ounces, Georgia and North Carolina forty-eight ounces, Texas fifty-three ounces and Wyoming fifteen.

California led with an output of 840,758 ounces. Colorado came second with 470,998, and Alaska was a close third with 437,131. South Dakota came fourth with 254,820.

The yield of the Pacific Northwest, in ounces and value, was:

Oz.	Value.
Washington, 14,987	\$ 308,800
Idaho, 34,360	710,400
Oregon, 51,848	1,071,800
Montana, 119,085	2,464,700

The Philippine Islands produced 39,962 ounces, and the total yield, including the United States, Alaska and the Philippines, was 2,829,305 ounces, valued at \$58,488,800, a falling off of \$10,157,800, from the yield of 1917.

Nothing Wrong with America

"There is nothing wrong with America today except in the minds of the men who doubt themselves, their fellows and the fundamental principles of justice upon which this republic is founded," Secretary of the Navy Joseph Daniels told the Raleigh Rotary Club at a dinner in the Yacht Club in celebration of the birth of Rotary and George Washington. Secretary Daniels, honor guest, pleaded for the faith of Washington for men now.

"Washington had the poise that this world needs today, said the secretary, "faith in the government of the people which should not be swayed by lords or mobs but by law and order, justice and fair dealing."

Denies Ownership of Land

In less than a day after R. C. Choplin, a Wake farmer, had denied that two stiffs were recently found in his field, revenue officers captured a still and destroyed 200 gallons of beer on a spring branch about 400 yards from Choplin's own residence.

About a week ago rangers found two stiffs on Choplin's land, and one was near the father's house while the other was near the son's home.

Seaboard to the Rescue

Officials of the Seaboard Air Line have come to the rescue of employees who had trouble in figuring out their incomes of the past year. The company will furnish the income of every employee to the Income Tax Division of the Internal Revenue Department after March 1. This will enable the revenue department to mail income tax returns to employees. Because of the varying amounts of pay including back time employees had considerable trouble in making out returns.

Legislature May meet in June

At the last regular session of the North Carolina Legislature the Governor was directed to call a special session during 1920 for framing legislation to enforce a new taxation act.

This session, it is believed, will be called for June and advocates of suffrage have announced that they expect to bring the suffrage amendment up at this session. The opinion is general that it will be ratified. At the last session the amendment was adopted by the Senate by a large majority but was killed in the House.

NATURE PROVIDES THE INGREDIENTS

Argo-Phosphate, the New Herbal Remedy, Now Endorsed by Local People.

If the digestive organs are not properly performing the work which nature has assigned to them, then nutrition, which is absolutely essential to the recovery of other diseased parts, will be lacking and there will be no permanent relief. When bodily nutrition is normal, the stomach digests the food, the blood absorbs and carries the nourishment to the different parts of the body, causing the various organs to properly perform their functions.

Nature has provided a remedy in the ingredients of Argo-Phosphate, the new herbal stomach remedy, which is now being introduced here. It is purely vegetable and its vitalizing, corrective and reconstructive qualities are so pronounced that beneficial results are noticed from the first day. This is true, it is only necessary to listen to the statements made daily by local people who have given Argo-Phosphate a fair trial and have benefited thereby.

It is dispensed by Hayes Drug Co.

RESIST LEACHING

MORRIS FERTILIZER COMPANY

BLOOD, BONE AND TANKAGE FERTILIZERS.

Put Slacker Acres to Work

Our Country is calling for bigger yields of all crops. The world needs every pound of farm products the South can furnish, and is ready to pay handsome prices for them. Never before has the Southern farmer had such a golden opportunity to serve his country and at the same time build his own fortune.

Intelligent fertilization of every acre in cultivation is more necessary now than ever before, because each acre should be made to yield its utmost. This cannot be done unless the proper class and quantities of fertilizers are used. Low producing acres and inferior fertilizers constitute an inexcusable and unpatriotic waste.

The MORRIS BRANDS resist leaching, prevent shedding, and hasten fruitful maturity of the crop. Only the best class of materials enter into their manufacture. That's why they always give universal satisfaction.

T. C. MOON
Graham, N. C.

PREVENT SHEDDING

NOTICE!

Sheriff's Sale Under Execution.

In the matter of A. L. Davis, Assignee of the Judgment of; Odell Hardware Company vs. Holt Engine Company.

By virtue of an execution directed to the undersigned Sheriff of Alamance county, from the Superior Court of Alamance county, North Carolina, in the above entitled Judgment, said execution having been duly served, and levy having been made thereunder as provided by law, upon the real property hereinafter described, I will, on

MONDAY, APRIL 5, 1920, at 12 o'clock, noon, at the court house door in Graham, said county and State, sell to the highest bidder for cash, to satisfy said execution and the Judgment in which it is issued, the following described real property and all the right, title, interest and estate belonging to the said defendant, Holt Engine Co., and its successors and assigns:

A certain tract or parcel of land in Burlington township, Alamance county and State of North Carolina, adjoining the lands of J. A. Isley & Bros. Co., Spencer Thomas, and B. R. Sellars, the same lying and being in the City of Burlington, North Carolina, and bounded as follows:

Beginning at an iron bolt, a corner with Spencer Thomas, B. R. Sellars and J. A. Isley & Bros. Co., running thence with the line of the Isley Bros. Co. N 83 deg W 4 chains and 63 links to a stone, Isley Bros. Co.'s corner; thence their line S 11 deg W 1 chain 94 lks to a stone and an iron bolt on 92 lks; thence S 83 deg E 4 chs 92 lks to an iron bolt on B. R. Sellars' line; thence with the line of said B. R. Sellars N 4 deg E 1 chain and 24 lks to the beginning, containing 92-100 of an acre, more or less.

Being the same land conveyed to Holt Engine Co. by John H. Clapp, by deed dated September 28th, 1911, and recorded in the office of the Register of Deeds for Alamance county, in Deed Book No. 44, at page 539.

This 16th day of Feb., 1920.
C. D. STOREY,
Sheriff Alamance County.

The Farmer and His Table.

From The Houston Post.

Governor Bickett of North Carolina sums up the situation for cotton farmers in this bit of homely advice to make their own "hog and hominy" this year, regardless of what they do to stabilize cotton prices.

To fail to raise their own bread and meat would be a criminal blunder, in the opinion of the North Carolina Chief Executive, who, in a letter to President Wannamaker of the American Cotton Association, suggests that Mr. Wannamaker could render a great service to the Southern farmers by driving this truth home to them.

The Governor's idea is the right one. Unless the farmer provides his own supplies, he will not be in a position to have much to say about the price at which he sells his cotton. Resolutions by organizations, denunciations, and even good warehouses in which to hold cotton will not get the farmer very far who doesn't have the basis of his living already provided for.

Holding cotton in warehouses for slow marketing is a good policy for the farmer. But it is also a form of speculation. His only safety, therefore, lies in making his own "hog and hominy" which assures him of food no matter what happens to the cotton market. If he has his food supply provided, as Governor Bickett says, he can hold his cotton indefinitely.

It is never wise, for any man, farmer or otherwise, to involve his living in speculation.

ECZEMA!

HOW MUCH DO YOU SHOW YOUR AGE?

A new form of Natural Iron enriches the blood—smooths out wrinkles—strengthens the nerves—wards off old age.

When you begin to show and feel your age, it is because your blood is thin and weak—it no longer carries life and strength to different parts of the body.

The man or woman with warm, rich red blood retains the appearance and feelings of youth, in spite of the creeping years. To ward off the feebleness and appearance of old age is simply a matter of keeping the blood pure and rich and filled with life and vigor.

Iron is the greatest and surest blood maker, but heretofore the difficulty has been to procure it in a form which the human system would absorb in sufficient quantities to bring satisfactory results. Pills and tonics said to contain iron have usually brought only disappointment.

But now there need be no longer any doubt or question, for a successful and reliable method of getting iron into the blood is assured by the use of a natural form of soluble iron known as Acid Iron Mineral. There are thousands of cases on record that prove this natural iron is a powerful blood and nerve builder.

For want of iron in the blood, you may be old at thirty, or you are more readily subject to the attack of disease without warning, or you will find yourself growing feeble day by day.

If you want to feel the elasticity of youth in your veins, and avoid all the complications and disappointments of increasing age, you will start taking Acid Iron Mineral at once. It contains no alcohol or injurious drugs, and it will not blacken the teeth like most preparations of iron.

Druggists will refund the purchase price cheerfully, if you fail to receive the improvement you seek.

It'll soon be in Museums

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out you believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not irritate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't grip.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the excretion of nourishment from it and the stimulation of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness and disease are the result.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc.

And Nature's Remedy is not only for the relief of rheumatism, it improves the digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.
