STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble." I heard

HOW EUROPE CAN ESCAPE COLLAPSE

GRAVE MENACE TO U. S. A. European Ruin Would Involve America—Starvation and Disease Rampant.

Des Moines, Ia.—Speaking before the General Conference of the Methodist Episcopal Church, Henry P. Davison, Starvation with complete power.

Plan to Aid Central Europe.

It is not for me perhaps to give in detail a formula for solution of the world's lils, but as I have been asked many times, "Whât would you do?" I am glad to give my own answer.

Accordingly, I would ask:

1. That Congress immediately pass a bill appropriating a sum not to exceed \$500,000,000 for the use of Central and Eastern Europe.

2. That Congress call upon the President to appoint a nonpolitical commission of three Americans, distination of the type of General Patshing, Mr. Hoover or ex-Secretary Lane. I would livest that commission with complete power.

3, I would have the commission in structed to proceed at once, accompa-nied by proper personnel, to survey conditions in Central and Eastern Euconditions in Central and Eastern Eu-rope and then act for the restoration of those countries under such condi-tions and upon such terms as the com-mission itself may decide to be practi-cable and effective. Among the con-ditions should be provided that there should be no local interference with the free and untrammeled exercise by the commission of its own prerogative of allocating materials. Governmenta politics should be eliminated; unreasonable and prejudicial barriers be tween the various countries should be removed, and such substantial guaran-tees as may be available should be exacted in order that the condition posed should be fulfilled.

posed should be fuifilled.

4. As to financial terms, I should make them liberal. I would charge no interest for the first three years; for the next three years, 6 per cent, with provision that such interest might be funded if the economic conditions of the country were not approaching normal, or if its exchange conditions were advantages as to make navnent unso adverse as to make payment unduly burdensome, I should make the maturity of the obligation 15 years from its date, and I should have no doubt as to its final payment.

The situation that I have spread out here is far beyond the scope of Indi-vidual charity. WHO STARTED SUFFRAGE? It Was the South, Not the North.

Who killed cock robbin and let the female of the species into politics anyway?

Where does the blame lie for letting oman get the very first whift of the political banquet of her lords and masters? If that first taste of the intoxicating beverage of political free-dom had only been kept away from women, who knows but they might have gone right on doing the family wash forever and left all the dirty political linen to the men. The West got too fresh, that's what

happened, Ssh! Don't be too rapidit wasn't the west-it was-Kentucky. In "My Old Kentucky Home, Far Away" there were some Americans

of American citizens not to be taxed saw that widows were paying a school tax, and hadn't even a word to say about building a little red schoolhouse, nor how many days a year it should be in operation after it was built, nor what, nor whether, their children should study.

In 1838, these Kentucky men gave school suffrage to widows with chil-dren of school age, and this set the ball rolling. The South beat the tice and fair play. It is not recorded that the widows of Kentucky paraded for it, nor sent in petitions, nor did any of the things Northern men have made women do.

Kentucky gentlemen thought the widows with children of school age had had a raw deal, and they shuffled the pack and gave them a better. That's all there was to it.

REAL SOUTH NOT OPPOSED TO SUFFRAGE.

Mrs. Josephus Daniels of North Carolina, wife of the Secretary of the Navy, says it will be a pity if the men of her state do not ratify the Federal Suffrage Amendment, as it would be the first break in their reputation for

giving women what they want.

"No class of women has ever been considered more of the clinging vine than the women of the south," said Mrs. Daniels. "No class of women has ever been more protected, yet in times of national stress, southern wom-en always have risen to the occasion and proved themselves more than squal to their responsibilities."

FOR THE SAKE OF THE

Of the thirty states where women will vote in the registering of 1999 the the presidential election of 1920 the popular vote is nominally Republican in two-thirds of them. With the wovote on the Republican side is increased by millions. In the Democratic South millions of women are excluded and the popular vote correspondingly reduced. It makes a bad appearance on the face of things. It creates the impression that the Republican party is the people's party. It isn't. The Democratic party is the people's party. It's unfair to create this faise impression by an exclusion of the woman vote in the South at the expense of the Democratic party."

SENATOR SIMMONS ON THE FEDERAL SUFFRAGE AMENDMENT.

Senator F. M. Simmons of the University of States Senate says:

"It is true that the suffrage amend ment needs the vote of one more state for final ratification, but when the legislatures of all the states shall have acted, I feel sure after thorough investigation, it will have several more votes than is necessary. The practical question which now confronts us is, therefore, not whether women shall be accorded the privilege of full and equal suffrage, but when shall they be permitted to enter into the enjoyment sufficiency. Shall it be today permitted to enter into the enjoyment of these privileges.
