

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

SCHOLARS TO GET RECORDS

Attendants of Welsh Schools and Colleges Will Embark on an Interesting Experiment.

Wales, through her schools, is about to launch an experiment. Schools and colleges have been invited to make a collection of all the Welsh field, place and road names, including those of lanes, hills, woods, mounds and dykes, and to mark on the six-inch ordnance map the spots to which the names are attached.

A fund has been placed at the disposal of the Welsh department to provide the materials for the records, which will be collated by the board of Celtic studies in connection with the university of Wales, and deposited in the Welsh library.

Each school is recommended to retain a duplicate of the record, which can be added to from time to time. Space is provided for supplemental information on such matters as the existence of rural industries; the survival of old or curious customs or crafts; peculiar words or pronunciations; local proverbs or quaint sayings; the use of old agricultural implements; particulars of interesting local "characters" who may have been distinguished by their oddities, their benefactions, or their services during the war.

Though it is intended for Wales, there is no reason why a similar scheme should not be put into force in the other parts of the United Kingdom. The framers of the scheme have hit upon a method of making the teaching of history and geography a very living thing, of great educational and national value.—London Mail.

FIND MILLIONS FOR OTHERS

Men Who Discovered the Famous Comstock Lode Profited Little by Their Great Luck.

The famous Comstock lode, greatest of silver deposits, was discovered in 1859 by three prospectors, Pete O'Riley, Pat McLaughlin, and "Old Pancake" Comstock, while washing gravel for gold. They were in hard luck. Needing water for their rockers, they dug a hole four feet deep and came upon a bed of sulphide of silver. Not knowing what it was they tried it for gold, with highly satisfactory results, though cursing the "infernal blue sand" that clogged their primitive apparatus.

The blue sand was an outcropping of the wonderful lode, one vein of which, 300 feet wide, came afterward to be known as the "Big Bonanza," yielding ore that was nearly half silver. From this source were derived the multimillions of Mackay, Flood, O'Brien and Fair—the last named being a young mining engineer, while the other three were everyday miners. The discoverers sold out for small sums. "Old Pancake" blew out his brains; O'Riley went insane and McLaughlin died a poor man.

ANNOUNCEMENT.

To the Democrats of Alamance County:

I announce that I am and will be a candidate for the nomination for Senator from this Senatorial District. "My many friends" have not been to me and urged me to become a candidate. I have the desire to succeed myself.

I am deeply grateful for the support I have received in the past. I have represented Alamance county in the Legislature of 1911 and 1913 and in the Senate in 1917. I shall do my best in the future.

Truly yours,
J. ELMER LONG.

FIX UP HENHOUSE IN WINTER

Poultryman Has Most Time at His Disposal Then to Make Things Convenient for Flock.

Winter is the season when the poultry keeper has most time at his disposal to use his hammer, saw and nails in behalf of his flock. Many conveniences for the henhouse require only a little lumber and time for construction.

If new nests, feed troughs, drinking fountains or dust boxes in the biddies' domicile are needed, now is the time to make them.

Perhaps the roosts need replacing. United States department of agriculture specialists recommend as a satisfactory perch a 2 by 3 inch scantling set edgewise with the upper edge slightly rounded.

Allow 7 to 10 inches of perch for each fowl; that is, a perch 16 feet long would furnish room enough for 20 fowls. A smooth platform should be placed under the perches to catch the droppings. The perches should be from 6 to 10 inches above this platform so as to allow the droppings to be removed without removing the perches. It is usually desirable to have the platform some distance from the floor, from 2 to 2½ feet, in order that all the floor space may be available.

World to Be His Parish.

A Scottish parson, Rev. D. A. G. Mair, is giving up a comfortable parsonate, and, like John Wesley and St. Francis, is going to make the world his parish. In other words, he intends to become an itinerant preacher, wandering up and down Scotland. In the winter he will take up quarters in one of the poverty-stricken parts of Glasgow, where he hopes to spend his time in study and ministering to the wants of people in his neighborhood. He has no private means. "It is God's work," he says, "and I rely on God's promises."

"One of the experiments in the Gospel that we have never tried is that of evangelical poverty as a holy vocation."

MAKES YANK "HONOR MAN"

English Magistrate Has Faith in American Sailor Who Went on Spree.

London.—Louis Martin, American sailorman, who went on a spree without paying his railroad fare, owes some \$2.50 to an English magistrate's court—and has promised to pay it back as "a debt of honor of an American citizen." It happened this way:

Martin left his ship at Tilbury, stopped at London for "a few" and found himself "up-country" without funds wherewith to get back to his ship which was to sail shortly. He "simply had to get back," so he just "took a train."

At the Willesden court, where he was taken after arrest for defrauding the railroad, Martin told the judge:

"You let me go, judge, and I guess the American consul will pay the railroad." The magistrate replied:

"We will lend you 10 shillings out of the court funds, and from that you will pay the railroad and your expenses to your ship. It is a debt of honor, and you, as an American citizen, will remember that you have the credit of your country in your keeping and will repay us the 10 shillings."

Martin said the note "would be honored, sure."

USES CEMENT GUN

Houses are being erected in South-east, England, with the aid of a cement gun. A frame of timber is bolted together with expanded metal, onto which is pumped by a 60 horse power motor a substantial thickness of sand and cement. This is the first building constructed in this manner in Europe.

GAVE HIS WIFE TO ANOTHER

Navy Officer Freed Her So That She Might Marry the Man She Loved.

New York.—At the request of his wife, Gertrude, who, he says, loves another man better than himself, Lieut. Frederick L. Schwartz of the United States navy, has obtained a divorce. Lieut. Schwartz began his divorce suit after receiving a letter at Pelham Bay, N. Y., from his wife, a nurse in the Erie county hospital, at Buffalo, N. Y. The letter which began, "Dear friend husband," said: "Why should three people be unhappy when at least two, and probably three, can be made happy? Try to see it as I do." "I love this man more than I ever thought it was possible to love," the letter continued, "and I sincerely believe he loves me as much as I love him. That leaves only one course open to us, and I ask you, my husband, to make that course possible."

Living Costs Hit Africa; Price of Wives Doubled

Lord Dewar, who has just returned to London from central Africa, in giving an account of his travels there said the increasing cost of living in the district he visited was reflected in the higher prices for wives paid by the natives.

Whereas a fine sixteen hands high wife cost four speareheads in prewar days, she now costs eight speareheads. In the cattle districts, the price of a wife at present is eight cows instead of four.

POLISH WOMEN AS SOLDIERS

Volunteer Battalion to Be Formed for Duty in Warsaw and Vicinity.

Warsaw, Poland.—A volunteer battalion of women is to be formed by the Polish army for duty in Warsaw and vicinity. Service is for six months and is separate from the woman units which have served at the front. The battalion is to have woman officers and will do patrol duty at barracks and other places, thus relieving male soldiers for more strenuous work.

Here's Your Morning's Morning.

Huntington, W. Va.—"Do you need any spirits this morning?" has taken the place of the milkman's call in a mountain town near Huntington. Revenue men say "mountain dew," also known as "white mule," is sold by a man who goes from house to house each morning with his demijohn. His prices are somewhat higher than milk, but much lower than city "moonshine."

The President is forcing his party to do his will, says Mr. Harding. Those Republicans certainly have a flattering opinion of Mr. Wilson's powers.

Which Party Will Win?

We take pleasure in announcing that any of our readers can secure a valuable vest pocket book of political information free by sending the postage therefor, two cents in stamps, to D. Swift & Co., Patent Attorneys, Washington, D. C. It gives the popular vote cast by each State for Wilson and Hughes in 1916, and also for Wilson, Roosevelt and Taft in 1912. It also shows which party carried each of the States in each of the last 10 presidential elections. It also shows which Presidents belonged to the Federalist party, the Whig party, the Democratic party, and the Republican party. It also contains much other useful information, such as business laws, parcel post charts, etc., and it would cost you 25c. at a book store.

The Third party's candidate, Parley Christensen, is unfortunately named. The party is supposed to be against parleying and in favor of direct action.

Mr. Harding is much concerned over preserving the independence of America but he doesn't bother much about preserving his own independence of the bosses.

HOW MUCH DO YOU SHOW YOUR AGE?

A new form of Natural Iron enriches the blood—smooths out wrinkles—strengthens the nerves—wards off old age.

When you begin to show and feel your age, it is because your blood is thin and weak—it no longer carries life and strength to different parts of the body. The man or woman with warm, rich red blood retains the appearance and feelings of youth, in spite of the creeping years. To ward off the feebleness and appearance of old age is simply a matter of keeping the blood pure and rich and filled with life and vigor. Iron is the greatest and surest blood maker, but heretofore the difficulty has been to procure it in a form which the human system would absorb in sufficient quantities to bring satisfactory results. Fills and tonics said to contain iron have usually brought only disappointment. But now there need be no longer any doubt or question, for a successful and reliable method of getting iron into the blood is assured by the use of a natural form of soluble iron known as Acid Iron Mineral. There are thousands of cases on record that prove this natural iron is a powerful blood and nerve builder. For want of iron in the blood, you may be old at thirty, or you are more readily subject to the attack of disease without warning, or you will find yourself growing feebler day by day. If you want to feel the elasticity of youth in your veins, and avoid all the complications and disappointments of increasing age, you will start taking Acid Iron Mineral at once. It contains no alcohol or injurious drugs, and it will not blacken the teeth like most preparations of iron. Druggists will refund the purchase price cheerfully, if you fail to receive the improvement you seek.
