Tax Levy of Fifty Cents on the Hundred Dollars.

The County Commissioners were in session Tuesday and levied the taxes for 1920. This is some three months later than the taxes have heretofore been levied, due to carrying out the revaluation act of 1919 and submitting the result to a special session of the Legislature which finished its work and adjourned last Thursday.

There will be no property tax for State purposes as the State will get sufficient revenue from other sources to run the State government. Last year Alamance county paid the State \$41,409.01 levied on real and personal property. Now all property taxes collected in the county will be used for county purposes.

The levy on the \$100 valuation of real and personal property is as follows:

County government,	.08
Roads and bridges,	.04
Bonds and debt,	.09
School purposes,	.29
Total,	.50

The poll tax will be in addition to the above for those liable to poll tax.

Last year the property valuation in Alamance aggregated \$14,296,732, upon which there was a levy of \$1.40 on the \$100, which produced \$200,154.25 in taxes on both real and personal property.

This year under the revaluation act real and personal property valuations aggregate \$38,589,554, which may be slightly varied by final verifications. The tax on the amount under the levy of 50 cts. on the \$100 will produce \$192,947.78, which is \$7,206.47 less than the property tax of last year. Instead of the ten per cent increase in amount of taxes over the amount levied last year, permitted under the revaluation act, there is a decrease of nearly four percent, or about \$7,206 less than levied last year.

Instead of paying over to the State this year over forty thousand dollars derived from tax on real and personal property, all taxes derived from these sources will be kept in the county to be used for school and county government expenses of every kind and nature.

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30 x 3-, 30 x 3 1/2- and 31 x 4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread... \$23.50
30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread... \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly castings when such sure protection is available? \$4.50
