Managers of Both Parties Are Raising Big Hullabaloo Over Campaign Funds.

### VIOLATIONS CHARGED

Gompers Asks Union Labor to Sup port Cox-More Trouble in Mining Fields-Poles Destroy Budenny's Red Army in Galicia,

By EDWARD W. PICKARD. Candidate Cox and the managers of both the Democratic and the Republican campaigns have created a deal of noise and fury with their charges and counter-charges relating to the campaign funds. Accusations and redenials and admissions have een flying thick and probably will no cease for some time. The senatorial investigating committee seemingly is out fear or favor, and if certain of charges are sustained, legal pro-

ceedings are likely to result.

Republican managers assert that Cox's charges that they had conspired to buy the presidency with huge sums of money have been completely dis-proved. Homer Cummings, former Democratic national chairman, told the enators he could find no evidence of corruption in the Republican plan for raising campaign funds, and added that his own party organization was trying to raise funds by the san method used by the Republicans. But, he complained, the latter had been the more successful. Neither Mr. Cum mings nor any other witness heard by the committee was willing to admit that the presidency could be "bought."

Mr. Cox elaborated his statem by making public a document entitled "Campaign Plan in Larger Cities," which he said proved the Repul lican national committee was seek ing to raise sums ranging from \$5,000 to \$10,000. Treasurer Up ham disposed of this by explain ing that the plan outlined in the document was not ratified, but on the contrary was vetoed almost without discussion because the national committee was determined to try out the \$1.000 limit plan. How closely this was adhered to was fold the senators by National Chairman Hays. He said to August 26, 1920, there were 12,389 the national committee and to state committees through the joint collect ing organization, an average of \$82.11 Of these none have been over the thou sand-dollar rule except eight, which ight have given a total of \$13,500, an average of \$1,687.50. The highest of

hese was \$2,500." On Tuesday Mr. Upham supplemented this by submitting the full list of contributors to the Harding fund. Fewer than a dozen, he said, had given more than \$1,000 and two subscriptions of \$5,000 each were the largest received to date. The quotas for the national fund, Mr. Upham said, totaled \$4,887,000 approximately, with \$800,000 additional quotas for special state funds, but that it was a case of "50 per cent off for cash." He said the glowing "bulletins" sent out to Republican fund workers and quoted extensively by Governor Cox were "bull" and "salesmanship." The Republican budget, he insisted, was for slightly more than \$3,000,000.

But the Democrats were not out of ammunition, by any means. The next thing they brought to the attention of the senatorial committee was the "deluxe" book, "Republicanism in 1920," which William Barnes of New York was said to be getting out. The sena tors were shown a list of wealthy me who had pledged some \$37,000 for this Barnes effort, and Wilbur Marsh, Democratic treasurer, said that to his mind it indicated a plan to collect large campaign funds in lependently of the regular Republican machinery. He named a number of organizations that.

Protective Tariff association, the Committee of American Business Men, the American Defense society and the Republican Publicity association.

As for the Barnes book, the Demo-crats assert the Republicans are breaking the law by accepting for this campaign effort contributions from corporations. The senatorial committee decided to hear more of it from Mr.

Provoked into recrimination, the Re publicans are making various accusa tions against their opponents. In the first place Chairman Hays asserted the Democrats were planning to raise a fund of \$10,000,000—which the latter promptly denied. Then Mr. Hays charged that the liquor interests were actively engaged in supporting the campaign of Governor Cox; and he produced a letter signed by the president of the New Jersey Federation of Liquor Interests which said the organization had set out to do its part toward the election of Mr. Cox and called for assistance, financial and otherwise. The reply of the Democrats to this is that they have received no contributions from either the vets or

More serious, perhaps, was the accusation made before the senators that the Democrats were breaking the law by assessing federal officeholders for campaign money. W. D. Jamleson, director of finances for the Democratic national committee, was questioned closely concerning this and partly admitted its truth, but said the soliciting letters were sent to the homes of the officeholders and that he was soliciting funds from Democrats as Democrats, not as federal officials He said his office had sent out about 300,000 letters of appeal. He told of a card index of 500,000 Democrats— with incomes. But he said the income leaders in the various neighborhoods not from the income tax reports in the department at Washington.

The combined efforts of Senators Reed, Spencer, Edge and Kenyon out from Mr. Jamleson the fact that federal officials generally were solicited; that they were in formed of the exact amount they were expected to give, and that only the who were so poorly paid that Mr. Jamieson "didn't think it worth while to waste a 10-cent special delivery on were excepted from the

Samuel Gompers and his associates in the management of the American Federation of Labor have finally announced themselves in the mat-ter of the presidential campaign. The "nonpartisan political coinmittee" of the federation has is-sued a report on the candidates for the presidency in which Governor Cox is proclaimed a stronger champion of organized labor than Senator Harding. Consequently members of unions are urged to vote for Cox. The report, which is signed by Gompers, Matthew Woll and Frank Morrison lists as "favorable" or "unfavorable to labor the legislative record of Sen ator Harding as a member of the Ohio state senate and in the United States senate on measures in which organized labor had a special interest.

It does likewise with Mr. Cox as a member of the house in 1912 and a governor of Ohio in 1913, 1914, 1917-19-20. The records of the candidates are summed up as follows:

Harding—Favorable, 7; unfavorable 10; paired unfavorably, 1. Cox-Favorable, 60; unfavorable, 0.

More trouble has broken out in the mining fields. President Wilson, after receiving and approving the report of the wage award made by the federal commission for the anthracite miners, telegraphed his urgent request that the men also accept it. The miners' scale committee did this under protest, but a strong minority in 66 locals refused and voted to take a "vacation" until better terms were granted. In some of the bituminous fields also work has ceased. In Alabama the men struck on order of President Lewis because, he says, the terms of the agreemen are not being carried out by the operators. In Iowa the miners and op-

erators failed to reach an agreement, but there may be no strike there. New York was badly tied up by an unexpected strike of about 8,000 employees of the Brooklyn Rapid Transhe said, were engaged in similar efforts, mentioning the National Young it company, which concern is in the Men's Republican lengue, the Southern hands of a federal receiver who re-

tives tried to undo its action in rati-fying the suffrage amendment by ex-punging from its journal all record of the ratification and voting to nonconcur in the action of the senate. Next day the senate refused to join with the house in its attempted reversal of the ratification. Secretary of State Colby says woman suffrage is an ac-complished fact and that there is no chance for reconsideration.

Another great victory for the Poles was recorded last week. General Budenny's bolshevist army, which had invaded Galicia and was threat-ening Lemberg and the rich oil fields of that region, was cut off and virtually destroyed. Only a few detachments escaped and these were reported in disorderly re-treat. Budenny's men, mostly mount-ed, were advancing on Lublin and had nearly surrounded Zamosc, midway between that city and Lemberg, when the Poles flanked them and attacked from the east, putting them to rout deliberately set by the Poles. The losses of the reds in men and mate-rial were heavy. The "retirement" of this army was officially admitted by

In the north the Russo-Polish war de generated into a confused series of isolated battles, various units of both sides being separated from their main commands and in some cases forced across the East Prussian border. In general, however, the Poles continued their successes of the former week and they even advanced into Lithuan lan territory for strategic purposes despite the orders of Lithuania to the contrary. What Germany would do with the many thousands of reds who took refuge in East Prussia was a pressing question. The Poles feared these men would be permitted to reenter Russian territory and rejoin their army, and there was reason for this fear. The Germans complained they had not enough troops there to guard the interned reds, but their hatred of the Poles is so great that their motives are open to grave sus-

What promised to develop into an other severe blow for the soviet Rus-sians was the drive started by the Ukrainians in conjunction with Po-land. They began by forcing the reds and capturing that city. They have Dniester river and it is hoped that it can unite with General Wrangel.

The peace parley at Minsk broke up but the bolshevik government an-nounced its willingness to resume the

negotiations at Riga.

Dr. Walter Simons, German foreign minister, told the reichstag that proposals had been made to him to co-operate with Russia against the western powers as a means of breaking the bonds imposed by the treaty of Ver-sailles, but that he had rejected them because they would mean that Ger-many would become the theater of war. He said he had also rejected proposals to unite with the western powers against Russia. "No power at war with soviet Russia," the foreign minister added, "need count on our

#### The Jazz One of Direct Causes of Marital Discord and Divorce.

Not one temperament in a thousand can stand an afternoon of jazz and remain sane. Jazz music produces a fevered disorder of the brain leading to bad temper, slackness, lassitude and bad health.

These are the reasons the dancing craze in Europe is near its end. Husbands don't take their wives to dance because they find it inevitably means a raggedy temperament afterward. Mothers forbid their daughters to jazz because it leads to irresponsible actions.

The only hope for the dance is to abolish the jazz and bring back the old, healthy dances—the waltz, the polka, the tango and the maxixe. These were beautiful dances because the music they were danced to was beautiful.

No one-step danced to jazz music can be anything but hideous.
