Mother! Watch Child's Tongue

"California Syrup of Figs"

Delicious Laxative for Child's Liver and Bowels

Hurry mother! A teaspoonful of "California" Syrup of Figs today may prevent a sick child tomorrow. If your child is constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good "physic-laxative" is often all that is necessary.

Children love the "fruity" taste of genuine "California" Syrup of Figs which has directions for babies and children printed on the bottle. Say "California" or you may get an imitation fig syrup. Beware!

A man's politeness isn't all on the surface when he gives up his seat to a lady on the elevated.

A Polite Fiction. "Are lawyers truthful?" "In the nature of things they can't be."

"Pape's Diapopein" Corrects Stomach. "Pape's Diapopein" is the quickest, surest relief for Indigestion, Gas, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only 50 cents at drug store. Absolutely harmless and pleasant. Millions helped annually. Best stomach corrective known.—Adv.

Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infects the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface. One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old

blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief. Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address: Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

Movement to Eliminate the Defective Should Begin in the Schools.

By ARTHUR WOODS, Former New York Police Commissioner.

We have been very amateurish in our handling of the question of criminal defectives. Prevention, of course, is the great aim. We do not want to wait until a crime has been committed before we do anything about the feeble-minded offender. It is only fair to the individuals affected, as well as to the public, that examination should be made very generally and that the proper kind of treatment should be given to those who are suffering from mental diseases. We recognize this in bodily diseases, yet in many cases they are nothing like so dangerous to the community as these mental troubles. Many a child who is slightly deranged may in growing up become steadily worse because of unfavorable associations and lack of skilled treatment. I believe it is possible to redeem a considerable proportion of defective children if their cases are diagnosed early and if they are given kind and skillful treatment. There is no duty that I can think of which is more obligatory upon a community than to give children a fair chance—the children who particularly need help in order to overcome the handicap of mental deficiency which may bring to them later such terrible results.

The beginning of a movement to eliminate the defective from our midst should start in the schools. Examinations should be made and children who are dull, stupid and unpromising, but as yet not criminals, should be separated and treated. If it is found that after kind and prolonged treatment the child cannot be made normal he should be put permanently in an institution.

"Workmen Don't Want Philanthropy; They Want a Fair Deal All Around."

By W. H. TODD, President Todd Ship Yards Corporation.

No! I gave that million to the boys because it was coming to them, because they had earned it, because I promised it to them. I didn't really give it away, at that. We're all working together. We all did pretty good work for the last four years and I simply was giving the gang I work with a split on what was made. Four years ago I gave each of our men a chance to put down his name for a piece of stock.

Loyalty of labor? You can't buy that with a million times a million. Incentive to increased efficiency? There's not a big man in our outfit who was not lifted out of the ranks by his own effort. Philanthropy? Workmen don't want philanthropy. They want a fair deal all around.

Maybe there's a lack of common sense in high places. There's a lot in both sides understanding each other. It seems to me the present difficulty is due to too much propaganda and too little hard work.

What makes an American workman sick is the chap who gets in a hole of his own making, then runs to the workmen, throws his arms around them, and begs them to help him out. On the other hand there's the workman who says he can't work longer than six hours a day, and when he gets six hours complains that six hours' pay isn't enough to live on. Why doesn't he work longer, then? I'm working more hours a day now than I ever did.

Steady Increase in Divorces Means a Devastated Chicago in 30 Years.

By WILLIAM F. McDERMOTT, Chicago.

If the present rate of divorces continues in Chicago for the next generation the city will by 1950 be more desolate than any of the war ravished cities in France.

Take the figures of the last ten years, for instance, as far as they are available. In 1911 there were 30,417 marriages and 3,442 divorces, or once out of each 8.83 marriages failed; in 1915 there were 31,509 marriages and 4,116 divorces, or one divorce to every 7.65 marriages. The increase of divorce over marriage in that period was 13.3 per cent.

The years following, being war years, cannot be taken as normal. But last year, the first full year of peace, there were 37,683 marriages, while the local judges handling divorce cases estimated there would be between 5,000 and 6,000 divorces. Taking the mean of the two figures, or 5,500, it would show one divorce for every 6.83 marriages, or an increase of approximately 23 per cent over the divorce rate of 1911. Three decades more, at that rate, will see divorces equaling the number of marriages.

Take the figures for 1914, a normal peace year. Out of 3,577 families getting divorces, only seventy owned their homes; in 2,171 cases, or nearly two-thirds, there were no children.

Increasing childlessness, especially among our native American people, the growth of the apartment habit, and the tendency toward ease, indulgence and fast living only presage more divorces, more broken homes, and greater menace to the future of America.

"The Best Advice I Can Give to Women With Nothing to Do—Go to Work."

By MRS. WALTER WILLETT, Chicago.

I have a husband, a home, a car and a prize bulldog—but I have taken a job and gone to work.

The day is coming when there won't be any silly, idle women, waiting for hubby to come home and then dragging him out at night when he is tired and wants rest. The clinging vine days are gone.

The homes are going to be happier when women who haven't children to care for go out and get jobs for themselves. I got mine without a suggestion from anyone and without telling my husband. I've been a bridge-playing, day-sleeping loungeabout long enough. My husband says it improves my disposition as well as my understanding of how men come home tired at night and while he is too surprised to understand it all yet, he likes it.

It is the best advice I can give women with nothing to do—go to work.

BOCHEE'S SYRUP

A Harmless Soothing, Healing Remedy for Coughs and Colds.

Here is a remedy for coughs, colds, bronchitis, throat irritation, and especially for lung troubles, that has been sold all over the civilized world in many thousands of households for the last fifty-four years. Its merits have stood this test of time and use, and surely no test could be more potent or convincing. It gives the patient with weak and inflamed lungs a good night's rest, free from coughing, with easy expectoration in the morning. Try one bottle, accept no substitute. For sale by all druggists and dealers in medicine everywhere.—Adv.

To succeed one must be patient. The penitentiaries are full of people who were impatient.

CALOMEL DANGER TOLD BY DODSON

Says You Cannot Grip, Sicken, or Salivate Yourself if You Take "Dodson's Liver Tone" Instead

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone, which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

Building Homes for the Chicago Homeless

The Chicago Housing Association has undertaken a great social experiment in the erection of many homes for families which had nowhere to live owing to the house shortage in that city. The homes are of brick, two stories, and the tenant pays rental of about \$35 a month which is applied on the purchase price. The house is sold at exact cost.

U. S. SHIPPING JUMPS

Now Forms Quarter of the Tonnage of the World.

Increase of More Than 500 Per Cent Since 1914—America is Now in Second Place.

London.—According to Lloyd's Register of Shipping for 1920-21 just issued, the seagoing tonnage of the United States apart from Great Lakes shipping, has increased since 1914 by over 500 per cent and now stands at 12,400,000 tons. Thus the United

States of the world's tonnage as against 4.7 per cent six years ago, the Register states.

The figures shown for the formerly belligerent countries include a considerable amount of enemy tonnage provisionally allocated to those countries. Germany, which in 1914 occupied, after the United Kingdom, the first position with over 5,000,000 tons of shipping, now only owns 415,000 tons.

The steam tonnage owned by the principal maritime countries in June, 1920, totaled 38,905,000, an increase of 8,501,000 tons as compared with

1914, by the shortage of other tonnage having given new life to the construction of sailing vessels. The United States, the only country which has increased sailing tonnage since 1914, now owns over 43 per cent of the world's sailing tonnage.

Human Chain Saves Girl. Chippewa Falls, Wis.—To the presence of mind of Miss Marie Cuddy of Spooner, Wis., Miss Norma Marshall of Chippewa Falls owes her life. The two girls, with four other girls, were bathing in Popple lake when Miss Marshall stepped into a deep hole and went under. None of the girls could swim but Miss Cuddy quickly lined them up and formed a human chain from a tree on the shore to the drown-
