

### For Torpid Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White-side, of Keota, Okla. She continues: "I had a pain in my chest after eating light, uncomfortable feelings—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

## Thedford's BLACK-DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver, indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Thedford's Black-Draught," is on the package. At all druggists.

Accept Only the Genuine.

It is said there are families in Switzerland which have cheese dating from the first French Revolution.

There were about 9000 murders in the United States in 1920.

### Re-Sale of Land.

Pursuant to an order of the Superior Court made in a special proceeding therein pending, entitled "R. P. Braxton and others vs. Kate Braxton and others," whereto all the devisees of the late J. W. Braxton and owners and tenants in common of the real property hereinafter described are duly constituted parties, the undersigned Commissioner will offer for sale to the highest bidder at public auction at the courthouse door in Graham, on

**SATURDAY, DEC. 31, 1921,** at 12:00 o'clock, noon, all of the following described real property, to-wit:

Two certain tracts or parcels of land in Alamance county, North Carolina, adjoining the lands of Wm. Hadley, J. W. Whitehead and others, and fully described by metes and bounds in the petition in said special proceeding. The first tract containing 38 acres and the second 43 acres, more or less. This property is known as the Dark Place. There has been sold off from the 44 acre tract a one-half acre lot to the Trustees of Center School.

Terms of Sale—The purchaser will be required to pay one third of his bid in cash on date of sale and the other two thirds in equal installments within six and twelve months, deferred payments to bear interest from date of sale until paid. Sale made subject to advance bids and confirmation by the Court, and the title to be reserved until the purchase price is fully paid.

This is a re-sale on account of an advance bid and bidding will start at \$770.00.

This 14th day of Dec., 1921.  
**J. DOLPH LONG,**  
Commissioner.

### POULTRY FLOCKS

#### TEST EGGS AT LEAST TWICE

Make inspection on Seventh and Fourteenth Days for These Infertile or With Dead Germs.

(Prepared by the United States Department of Agriculture.)  
It is of little profit for a hen to sit patiently for 21 days if the eggs over which she fluffs her feathers are infertile or if the germs in them have died. Neither does it pay to run an incubator for three weeks, with its attendant care and expense, if the eggs in it are not fertile.

All poultry owners who raise chicks should be thoroughly familiar with the method of testing eggs. An egg, whether it is fertile or not, has a small grayish spot, known as the germinal spot, on the surface of the yolk. As soon as a fertile egg is placed under a hen or in an incubator the development of the germ begins. All eggs should be tested at least twice during the incubation period, say poultry specialists of the United States Department of Agriculture. This is done preferably on the seventh and fourteenth days. The infertile eggs, and

Testing Egg by Use of Metal Chimney Tester.

those with dead germs, should then be removed. White-shell eggs can be tested on the fourth or fifth day, whereas the development of eggs having brown shells often can not be seen by the use of the ordinary egg tester until the seventh day.

A satisfactory home-made egg tester or candler can be made with a shoe box or any other box large enough to hold the lamp. Cut a hole a little larger than a 25-cent piece in the side of the box, so that when the lamp is placed inside the box the hole in the side will be opposite the flame. Make a hole also in the top of the box large enough to prevent the top from catching fire from the heat of the lamp. When the chimney is long enough, allow it to extend through the top of the box. This permits the heat to escape and avoids the risk of fire. Special care should always be exercised in using kerosene lamps in candleing to prevent fire. To prevent further possibility of fire, a wooden box may be used in place of a pasteboard one, and, if desired, the opening through which the chimney extends may be lined with tin or asbestos.

Electric or gas lamps may be used in a box with a hole in the same way that the kerosene lamp is used. The hole which is in the side of the box should be on the same level as the light. The eggs may also be tested by sunlight or daylight, using a shade or curtain with a hole in it for the light to shine through.

Testing with a tester or candler should be done in a dark room. Hold each egg with the large end up, so that the size of the air cell may be seen, as well as the condition of the embryo or germ. An infertile egg when candled looks perfectly clear, the same as a fresh one; while a fertile egg shows a dark spot known as the embryo, with a mass of little blood vessels radiating in all directions. When the germ is dead, and the egg has been incubated for at least 48 hours, the blood settles away from the embryo toward the edges of the yolk, forming in some cases an irregular circle of blood, known as a blood ring. Eggs vary in this respect, some showing only a streak of blood.

All infertile eggs, and those with dead germs, should be removed at the end of the first test. Eggs with dead germs soon decay and give off a bad odor if allowed to remain. The infertile eggs make good feed for young chickens.

At the second test, on the fourteenth day, the eggs containing strong, living embryos will be dark and well filled up, showing a clear, sharp, distinct line between the air cell and the growing embryo, while eggs with dead germs will show only partial development and lack this clear, distinct outline.

The period of incubation for hen's eggs is 21 days, but usually some of the eggs hatch the evening of the twentieth day. Sometimes it happens, however, that the hatch will run over the twenty-first day, especially during cool weather.

**Crickets That Eat Clothing.**  
To exterminate crickets that eat clothing scatter snuff about their haunts, pour boiling water into cracks and crevices from which they emerge, and put ginger cordial into open places where they can partake of it.

### Sale of Valuable Property.

Under and by virtue of the power of sale contained in a certain deed of trust, executed by W. C. Thurston and his wife to Felix F. Smith, Trustee, the undersigned Trustee will, on

**SATURDAY, DEC. 31, 1921,** upon the premises, near Graham offer to the highest bidder for cash the following described property:

First: A certain tract or parcel of land in town of Graham, Graham Township, Alamance county, State of North Carolina, adjoining the lands of J. D. Moon, Southern Railroad Depot, lot Emma D. Walker, Sidney Cotton Mills, lot J. J. Mathews, J. N. Williamson and others, and bounded as follows: Beginning at an iron bolt corner with Moon in said depot lot line; running thence N 85 deg W 1.31 deg to an iron bolt, corner with said Walker in said depot lot line; thence S 4 deg W 4.65 deg to an iron pipe, corner with said Walker; thence N 85 deg W 2.01 deg to an iron bolt, corner with said Walker in said Williamson's line; thence S 2.05 deg W (S. S.) 1 of 1/2 lks to an iron bar, corner with said Cotton Mill lot; thence N 1 deg E (S. S.) 4.54 deg to an iron bolt, corner with said Moon in said Matthews line; thence N 86 deg W 834 lks to an iron bolt, corner with said Moon; thence N 17 deg E 1.134 deg (or 75 ft) to the beginning, containing 1.4 acres, more or less.

There is situated on this property a building that has been built and rebuilt, which is to be used as a cotton manufacturing plant, particularly for handling and manufacturing wastes, and also for a lumber manufacturing plant. This real property is subject to the lien of a mortgage or deed of trust securing H. C. Walker, in the sum of \$950.00, which sum bears interest.

Second:—All machinery of every kind, including one (1) 15 H. P. motor and electrical equipment, nine (9) knitting machines and all other machinery of every kind and description, whether for use in manufacturing cotton or wastes, or for manufacturing lumber and building material situated in the building or upon the real property hereinafter described. Also all additions to said machinery and equipment, which may be bought and placed in said building or upon said lot after the date hereof.

Third: All supplies of material of every kind, including repair parts, cotton and waste, lumber, and all other supplies and materials on hand or purchased after the date hereof. As to that property conveyed under this item (numbered 3) it is distinctly understood that the said W. C. Thurston, of the first part shall have the privilege of handling and selling the same in the due course of his business as a manufacturer of cotton and particularly cotton waste and a lumber dealer, and that he shall not be compelled to apply the proceeds of the property referred to in this item to the payment of the notes hereinafter referred to, but may use said proceeds in the conducting of the businesses referred to herein; and it is distinctly understood that this conveyance is intended to, and does cover all additions to those supplies and kinds of property referred to in this item, and shall, at all times, cover such supplies and property on hand and owned by W. C. Thurston.

**F. F. SMITH, Trustee.**

### To Change Gray Hair!

Here's the simple, easy, safe way to surely change gray, faded or lifeless hair to a uniform, dark, lustrous, beautiful shade—perfectly natural in appearance. Merely do as thousands have done and apply Q-ban.

Not a quick acting dye, but defies detection. Guaranteed harmless—see a large bottle. Sold by Hayes Drug Company, and all good drug stores. Try Q-ban Hair Tonic; Q-ban Liquid Shampoo; Q-ban Soap. Also Q-ban Depilatory.

### Summons by Publication

**NORTH CAROLINA,**  
Alamance County.  
In the Superior Court.  
R. W. Warren, Plaintiff,  
vs.  
Beulah B. Reeves and Chas. B. Reeves.  
The defendants above named will take notice that a summons in the above entitled action was issued against said defendants the 13th day of December, 1921, by D. J. Walker, Clerk of the Superior Court of Alamance county, North Carolina, for the sum of \$2000.00, due said plaintiff by reason of money paid by plaintiff for defendants on endorsed notes, which summons is returnable before said D. J. Walker, Clerk of the Superior Court, at his office in Alamance county, on the 18th day of January, 1922. The defendants will take notice that a warrant of attachment was issued by said D. J. Walker, Clerk of the Superior Court, on the 12th day of December, 1921, against the property of the said defendants, which warrant is returnable before the said D. J. Walker, Clerk of the Superior Court, at the time and place above named for the return of the summons when and where the defendants are required to appear and answer or demur to the complaint, or the relief demanded will be granted.  
This 12th day of December, 1921.  
**D. J. WALKER,**  
Clerk of the Superior Court.

### THE FAR-REACHING EFFECTS OF BLOOD DISORDERS

Pimples, Rash, Itching etc., the First Signs—New Form of Iron Clears the Skin and Brings Positive Benefit Quickly

It is impossible to estimate the extent to which human ills and disease owe their origin to disordered and impure blood. Think of the various forms of Kidney ailments that have their origin in diseased blood conditions. And no one questions that Rheumatism starts in blood.

So it is important to watch the blood and to begin treatment at the first signs of disorder. By taking such troubles in time and through persistent attention, harmful results and much suffering can be avoided.

Nearly everyone is familiar with the so-called blood disorders as evidenced by pimples, rash, itching, etc. It is not important whether these symptoms indicate eczema, salt rheum, scrofula, etc., but it is vitally imperative that the blood be given treatment to make it healthy. There should not be an instant's delay in doing this.

And the disfiguring effects produced by these blood impurities are embarrassing to the sufferer. A remedy should be used which not only drives the impurities out of the blood but which will at the same time remove every trace of pimple, rash and "breaking out."

A positive and quick treatment for these blood disorders is supplied by Acid Iron Mineral—a new form of liquid iron. Its first function is to strengthen and purify the blood by putting iron into it. Thus impurities are driven out and the blood is enriched—the whole system is strengthened—the skin is made clear and free from blemish, perfect health throughout the body is established.

Druggists will refund the purchase price of Acid Iron Mineral if it fails to give you satisfaction—it contains no alcohol or injurious drugs.

For Sale by All Good Druggists.
