

THE GLEANER

GRAHAM, N. C., July 2, 1925.

Postoffice Hours.

Office open 7.00 a. m. to 7.00 p. m. Monday 9.00 to 11.00 a. m. and 4.00 to 6.00 p. m. J. R. GUTHRIE, Postmaster.

LOCAL NEWS.

It is awfully dry in this section, though lately there have been showers almost in sight. But there has not been a season here in over five weeks.

Mr. and Mrs. E. L. Henderson who have been residents of Graham for about 20 years, moved to Burlington a few days ago. Mr. Henderson is manager of the Home Ice Co. of that city.

Chas. F. Raubut, aged 68, died in Burlington Monday. He was a merchant and business man. His home had been there for about 60 years, and at the time of his death there were very few who had lived longer in Burlington than he.

Christian Endeavor To Give Play At Whitney.

The Concord C. E. Society will give a play, "The Little Clodhopper," on Saturday evening, July 11, at 7:30, in the Whitney High School Auditorium. The program will be enjoyed by all. Everybody invited. The proceeds will go for the benefit of Concord Church.

Adults, 25 cents; Children, 15 cents.

Train Hits Car at Mebane and Two Are Dead.

About 2 o'clock Monday morning a car occupied by Mr. and Mrs. Wilkes Sykes, their son-in-law and daughter, Mr. and Mrs. Highfill Jobe, and son Hubert, was hit by a passing train at a grade crossing. Mr. Sykes was killed and Mrs. Sykes survived but a few hours. The others were seriously injured but it is thought they will recover.

Hubert Sykes was driving and had stopped for one train to pass and before he cleared the track the car was hit by another train moving in an opposite direction.

The ill-fated party had started at the early hour for Ocean View, Va., to spend a few days.

A double funeral was held at Mebane Tuesday afternoon for Mr. and Mrs. Sykes.

Pot Liquor.

"Learn to love your liquor," advises Philander D. Poston, writing in the Washington Post. He hastens to explain this may be done without violation of the Volstead Law, for he refers to "pot liquor," or water in which vegetables have been boiled—once a staple of Southern food, but now, he charges, too often poured down the sink.

Col. Henry Watterson, he tells us, claimed that "pot liquor" made the Confederate soldier the best individual fighter and the finest type of hardy manhood the world has ever seen. He insisted, that without "pot liquor," the Southern Confederacy would have fallen within six months, instead of holding out against overwhelming odds for four long years. As a matter of fact we eat too few vegetables, and the art of drinking "pot liquor," and eating corn dumplings is getting to be almost a lost art. Lots of young people today stare at you in amazement if you ask them if they like "pot liquor." They don't know what you are talking about.

Mr. Poston continues:—"Pot liquor" is just plain vegetable essence, or the water in which vegetables are boiled, which nearly every one pours down the sink. It's that sturdy stuff dear to the heart and stomach of the real negro "buck," that tower of strength and endurance that wins our admiration when we watch the play of his brawn and bone in the happy execution of his hard physical tasks. "Pot liquor" is quite foreign to the frail and educated "colored gentleman," but just mention it to a real sturdy downright negro, and watch him smile.

"Evolution works from the ground upward. The earth is composed of certain minerals, such as iron, lime, soda, phosphorus, iodine, etc. These same minerals are found in sea water; in the vegetable and animal kingdoms, and in physical man. Nature, always responding to the eternal cosmic urge, causes the vegetables to eat, digest, assimilate, and deposit in the cells of the plant these minerals from the soil. After being so treated they are advanced to the higher plane of life-vegetable kingdom. Now they are refined and made ready for another upward move and

PERSON.

Mr. and Mrs. Wm. I. Ward and their two little boys left Saturday for Moore's Springs to spend a few days.

Mr. and Mrs. Roy Long and children of Brevard spent from Saturday till Tuesday here with Mrs. Long's parents Mr. and Mrs. A. Lacy Holt.

Charles and Worth Thompson left Tuesday morning for Camp Glenn at Morehead City, where they will be for about three weeks.

Mr. and Mrs. J. Dolph Long and son George left Sunday for Asheville and other points in the Western part of the state to spend a few days.

Dr. Geo. W. Kernodle of Washington, D. C., was here Monday for a short while. He also visited his brother, Dr. J. L. Kernodle, in Burlington.

Mr. B. M. Rogers went to Merriam, Carteret county, Saturday and returned Sunday with Mrs. Rogers and children, who had been on a visit at her old home.

similar process in the animal and human body.

"Vegetation receives from still another source another power—tremendous in its strength and eternal in its vitality. That power is solar energy. It comes to the earth in the form of sunrays, and vegetation, exposed to the constant rays, absorbs this vital power and locks it up tight in the vegetable cells along with the minerals from the earth. There, in the leaf, which is the chemical laboratory of the plant, in the pod, in the fruit, and in the grain, are blended and bound together the Almighty powers of sun and of earth.

"But right here, man steps in and spoils it all. He destroys or throws away practically all value in the vegetables he cooks and eats. In the hard, long boiling, the vegetable cells are broken open and the mineral wealth and vitamins liberated into the water and steam. This great wealth is then drained off, or pressed out, and poured down the sink."

I would add just this to this valuable article—That when we throw away the liquor that vegetables are cooked in, we throw away 95 to 98 per cent of the mineral salts in the vegetables, the very material needed to build bones, muscles and teeth. If you want your children to have good teeth, start them, when a year old, on pot liquor.—Health Sermonette by Dr. F. M. Register in Prog. Farmer.

Of Interest to Timber Owners.

Timberland owners in the South are urged by the United States Department of Agriculture to keep a close watch this summer on their pine lands to note any clumps of pines dying from the attacks of the southern pine beetle. Recent studies made by the Bureau of Entomology indicate outbreaks of this insect occur during periods of abnormally low rainfall. The Weather Bureau reports that the rainfall for the first five months of 1925 has been much below normal in the southeastern sections of the United States, the deficiency in rainfall at some stations being as much as 15 inches.

All timberland owners in this region are familiar with the destructive work of the pine beetle. If the present dry spell should continue it is likely, says the department, that serious losses will occur this summer.

Pine owners are advised to make an examination of timberland once a month or oftener for clumps of dying trees indicated by fading or brown foliage. Such trees should promptly be worked up into lumber, or the logs placed in water until more opportune time for sawing. Reports of the presence of the beetle

ALL WORN OUT?

So Was Mr. Poole Who Tells His Experience.

Are you tired all the time; worn-out night and day? Does your back ache as if it would break? Do you suffer dizziness, headache, rheumatic twinges or distressing urinary disorders? You have good cause, then, to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Graham case is convincing:

K. B. Poole, retired grocer, Mill St., Graham, says: "I had a dull ache in my back and it got so bad that if I stooped, sharp pains came in the small of my back. I had no ambition, felt tired and was all worn-out. My kidneys also troubled me and the secretions passed freely. Doan's Pills from the Graham Drug Co. cured me of backache and had my kidneys working all right again."

District Meeting of Junior Order.

On Saturday, July 11th, starting at 2 p. m., the district meeting of the Fifteenth District of the J. O. U. A. M., comprised of the Councils of Alamance county, will meet in Burlington.

At the afternoon session Prof. A. H. King will make the welcome address; response by Thos. C. Carter, Esq., State Vice-Councilor M. W. Lincke of Nashville will also deliver an address. Between the addresses there will be business transactions and music. At the conclusion of the afternoon session the members will go to Moonelon Park and partake of Brunswick stew supper.

At the evening session, 8 o'clock, there will be a round table discussion, music, and address by State Councilor Robert M. Gantt of Durham.

The exercises will be under the direction of District Deputy T. C. Moon of Graham, and a large attendance is expected.

At the conclusion of the session cigars and cold drinks will be served.

To Have A Successful Picnic.

One of the most successful picnics held in North Carolina each summer is the great gathering of farmers at the Piedmont Branch Station near Statesville. The picnics at the other branch station farms, are also conducted very efficiently and successfully. To do this the managers of these picnics have found certain rules to be necessary. These rules should be of value to those planning to have picnics this summer.

- 1. Have committees appointed for all definite jobs.
2. Advertise the picnic thoroughly. Talk it up for weeks in advance.
3. Adopt method of financing so that the picnic will be self-supporting.
4. Have badges for officials. These acting as police, ushers, and in charge of games, etc., can handle the crowd better if provided with badges.
5. In big picnics, start car parking early.
6. Providing plenty of good drinking water.
7. Start program at scheduled time.
8. Have music or sport at the beginning of program to draw crowd.
9. Arrange games for everybody, men, women, boys and girls.
10. Do not have a speaking and music program of more than hour and half in length.
11. Do not plan on more than one outside speaker.
12. Make careful arrangements for accommodating and entertaining invited guests and speakers.
13. Have platform and seats arranged in shade.
14. Keep crowd from getting on four sides of the platform.
15. Keep all concessions and noise making apparatus away from speaking place.
16. Have organized plan for youngsters during program but have it far enough away so as not to interfere with the program.
17. Arrange for adequate toilet facilities.
18. Have some one definitely responsible for each part of the program.
