

## "WORTH WEIGHT IN GOLD"

Verdict of Woman Who Tried Pinkham's Compound

Tully, N. Y.—"It hurt me to walk or sit down without help and I felt sick and weak. My mother-in-law took Lydia E. Pinkham's Vegetable Compound and she induced me to take it. I am now on the fourth bottle and have also used Lydia E. Pinkham's Sanative Wash. The medicines that will do for me what the Vegetable Compound and Sanative Wash have done are certainly worth their weight in gold. I think I have given them a fair trial and I expect to take two more bottles of the Vegetable Compound."—Mrs. CHARLES MOSMAN, R. F. D. 1, Tully, N. Y.

**Sure Relief**

Policeman—I'm pulling you in for  
reckless driving, endangering the  
lives of pedestrians.

Motorist—Why, man, there isn't a  
pedestrian on the street.

Policeman—All right, then; I'll  
make it attempted suicide.—Boston  
Transcript.

## WOMEN, BUILD UP YOUR HEALTH!

Rosnoke, Va.—"There is nothing  
like Dr. Pierce's Favorite Prescription  
for weak women. I became all run-  
down in health, had no  
appetite and could  
not sleep. My nerves  
were so unstrung I  
could not sit still.  
My back ached, I  
had pains in my side,  
lost in weight and  
had no strength left.  
I was just as miser-  
able as I could be  
when I decided to take the 'Prescription.'  
It strengthened my nerves, I could eat  
and sleep and was soon well and strong.  
I went from 117 to 130 and never felt  
better."—Mrs. A. C. Hamilton, 506  
Commonwealth Ave., N. E.

All dealers. Send 10¢ for trial package  
of tablets to Dr. Pierce's, Buffalo, N. Y.

## Christmas Cards

The earliest example of the art  
of making Christmas cards is attributed  
to J. C. Horsley, R. A., who in 1846  
made designs of this character. Sub-  
sequently the demand for these to-  
kens became enormous, and at present  
Christmas cards are often of much  
artistic merit in both design and  
coloring.

THERE is nothing quite like Bayer  
Aspirin for all sorts of aches and  
pains, but be sure it is genuine Bayer;  
that name must be on the package,  
and on every tablet. Bayer is gen-  
uine, and the word genuine—in red-  
—is on every box. You can't go wrong  
if you will just look at the box when  
you buy it.

## Feel Tired and Achy?

Too Often This Warns of  
Sluggish Kidneys.

LAME? Stiff? Achy? Sure your  
kidneys are working right? Sluggish  
kidneys allow waste poisons to  
accumulate and make one languid,  
tired and achy, with often dull head-  
aches, dizziness and nagging back-  
ache. A common warning is too fre-  
quent, scanty or burning excretions.  
Doan's Pills, a stimulant diuretic,  
increase the secretion of the kidneys  
and thus aid in the elimination of  
bodily waste. Users everywhere en-  
dorse Doan's. Ask your neighbor!

**DOAN'S PILLS**

## World's Largest Statue

What will be the largest statue of  
its kind in the world is to be erected  
in the bay at Rio de Janeiro, a huge  
figure of the Christ, 100 feet high,  
says Popular Mechanics Magazine. It  
is the work of the Polish sculptor,  
Landowski.

## Goes Up Straight

An inventor in France claims to  
have developed an airplane which will  
rise straight up and is operated by a  
compressed air motor.

## For COLDS

there is nothing  
like Salicon.  
Two of these  
when your  
cold starts  
and it's  
knocked out  
before it really gets started.  
It may take 24 hours to break  
up a heavy stubborn cold but  
you can depend on Salicon; it  
will do the trick.

No dose in Salicon—many physicians pre-  
scribe it—great for Flu, and grippe, too. At  
all drugstores 15¢ and 50¢.  
There is no substitute for

## KELLOGG'S

## Notions About Seed Potatoes

Doubtful Whether There Is  
Any Difference in Value  
of Each "End."

(Prepared by the United States Department  
of Agriculture.)

Much experimental work has been  
done with the potato to determine the  
best methods of treating the seed to  
secure the most satisfactory yields.  
The results have varied to the point  
of confusion in many instances. In  
technical bulletin No. 5-T, "Source,  
Character and Treatment of Potato  
Sets," just issued by the United States  
Department of Agriculture, William  
Stuart reviews the results of note-  
worthy experimental work and in addi-  
tion presents the results of the de-  
partment investigations on the source,  
character and treatment of potato  
seeds.

## Value of End for Seed.

The relative value of the seed and  
stem end of the tuber for seed pur-  
poses has served as a basis of numer-  
ous studies, both in this country and  
in foreign countries to determine  
which portion of the tuber will ordi-  
narily produce the larger yield. Some  
growers are so firmly convinced that  
the seed end of the tuber is unde-  
sirable for seed purposes that they clip  
it off and discard it. Other growers  
are equally convinced that the seed  
end is superior to the stem end for  
planting. These different viewpoints  
have been responsible for repeated ef-  
forts to demonstrate the superiority  
of one over the other.

After a study of the literature in  
which each "end" of the potato has  
proved superior to the other in differ-  
ent tests, Mr. Stuart concludes that  
it is doubtful whether there is any  
real superiority of one end over the  
other for seed purposes. The data as  
a whole, however, seem to indicate  
that as the weight of the set increases  
there is a greater response from the  
seed end than from the stem-end set.

## Greening Process.

Sprouting seed potatoes in the light  
before planting them, a process known  
as "greening," has long been practiced  
by growers of early potatoes in most  
European countries in an effort to  
hasten the development of tubers of  
marketable size early in the season.  
Greening is not yet a commercial prac-  
tice in the United States. In fact, the  
department studies, covering a period  
of years in four different localities,  
show rather conflicting results when  
yearly comparisons are made, or when  
the average yields for the period are  
considered. Detailed discussion of the  
subject is included in the bulletin.  
Consideration is also given to the ad-  
visability of planting immature rather  
than mature seed.

A copy of the bulletin may be ob-  
tained by writing to the United States  
Department of Agriculture, Washing-  
ton, D. C.

## Sensible Idea to Want to Own Only Pure Breds

It is a fine and sensible ambition for  
every farmer to want to own nothing  
but pure breeds, and the ambition can  
be gratified. By starting with pure-  
bred sires, and then securing an oc-  
casional good pure-bred female, satis-  
factory progress is possible. The  
young man who is at the present time  
embarking upon the perilous enter-  
prise of farming, may console himself  
with the idea that if he uses good  
judgment, and has at least a fair  
amount of "good breaks," he will en-  
ter into the serene and mellow years of  
retirement with a splendid live stock  
equipment and some money in the  
bank. His sons, carrying on where he  
leaves off, have the priceless oppor-  
tunity of fixing blood lines and build-  
ing up families of stock.

## Beans All Summer

When a garden runs out of beans  
it seems like it is about done for.  
Maybe that is why a good gardener  
most always sees to it that he has a  
succession of beans coming on all the  
time. Pole beans planted in early  
June should give a steady supply of  
beans throughout the late summer  
and fall. Bush beans ought to be  
planted at intervals of two to three  
weeks in order to insure enough.  
One thing about beans that is in their  
favor is that any that are not used  
can be kept over.

## Agricultural Hints

Measurement is the foundation of  
all engineering work.

The house wren feeds itself almost  
entirely on harmful insects.

Popcorn that is too dry to pop can  
be put in popping condition by adding  
a little water.

Best results are obtained when lime  
for alfalfa is applied before the seed  
is sown if the soil is sour, for lime  
acts slowly.

Sow seeds of cos lettuce for a sum-  
mer crop. It is the most heat-resist-  
ant and surest cropper of all the let-  
tuces. No use trying to start head  
lettuce this late.

Good tools and equipment may de-  
crease the difference between a good, clean,  
well-cultivated garden and one full of  
weeds. A little time spent in over-  
hauling garden tools will bring ample  
payment.

## Small Girl Knew All About Wife of Noah

The kindergarten teacher was telling  
her group the story of Noah and the  
ark. Suddenly little Isabel waved her  
hand wildly.

"I know somef'n else," she an-  
nounced triumphantly. "Noah's wife  
could ride a horse!"

The teacher was for the moment  
completely nonplused, and couldn't  
just then remember whether those  
were prehistoric days or not. To gain  
time, she asked:

"How do you know she could, Is-  
abel?"

"'Cause I saw the picture and she  
was ridin' a white horse. An' I know  
her name, too."

Again the teacher was not sure  
whether or not the Bible mentioned  
Mrs. Noah.

"Well, what was it, Isabel?"

"Joan. I saw the picture of the  
lady on the horse and daddy said it  
was Joan of Arc!"—True Story Mag-  
azine.

## New Dresses for The School Girl

By MAE MARTIN

Thousands of  
mothers with daugh-  
ters of high school  
or college age, have  
problems like this  
Little Rock, Arkan-  
sas, mother. She  
says: "I don't be-  
lieve I could have  
put my daughter  
through the last two  
years of high school  
and college without  
the help of Dia-  
mond Dyes. Dresses  
long-out of style  
and faded were  
made new with a  
package or so of  
Diamond Dyes and  
the addition of a  
few dozen buttons and a little braid.  
Sometimes two dresses were com-  
bined and brought up to date in lines  
that gave no hint of their past. Peo-  
ple never knew they were redyed  
when I used Diamond Dyes. They  
never take the life out of cloth or  
make it limp. They always make  
things fresh, crisp and bright."

Diamond Dyes are true dyes, like  
those used when the cloth was made.  
Tinting with them is as easy as blin-  
ding, and dyeing only takes a little  
more time. Insist on Diamond Dyes  
and save disappointment. They never  
streak, spot or run.

My handsome new book, "Color  
Craft," will help you with your  
clothes and home furnishing prob-  
lems. Sixty-four pages of dollar-sav-  
ing suggestions, fully illustrated in  
color. It's FREE. Simply write Mae  
Martin, Home Service Dept., Diamond  
Dyes, Burlington, Vermont.

## "Men of the Trees"

An organization started six years  
ago by an Englishman among African  
tribesmen in the highlands of Kenya,  
with the object of encouraging the na-  
tives to replant denuded areas, has  
extended the scope of its operation  
and is now seeking to educate public  
opinion throughout the British empire  
in forestry and to instill love of trees  
into all sections of the community.  
To this organization has been given  
the appropriate title of "The Men of  
the Trees."

## Accommodating

She—"I don't like to be pawed over  
and kissed." He—"All right—I'll kiss  
you first."—Life.

One of the secrets of enjoying life  
is not to want more of anything than  
you can have.

## Less Kitchen Work Now SHREDDED WHEAT

## BARE TO HAIR

If you want to grow hair  
on your bald head, save  
the hair you have, stop  
falling hair, dandruff, etc.,  
write for literature and  
information.

W. H. FORST, Mfg. - Scottdale, Penna.

## Race Mingling

In Hawaii, according to the Hon-  
olulu Nippu-Jiji, intermarriage between  
its many races is becoming more and  
more prevalent. American men in the  
islands showed the highest percentage  
of intermarriage in the year ending  
June 30, 1927, only 152 out of a total  
of 383 being with women of their own  
people. Hawaiian women also inter-  
marry frequently, for out of 271 mar-  
riages recorded, 156 were with mem-  
bers of other races. The Chinese, in  
spite of a popular belief that they are  
inclined toward intermarriage, showed  
a total of but 42 such weddings out of  
173 men who were married. Only 29  
out of 796 Japanese men married women  
of another race, and intermarriages  
among Japanese women totaled 41 out  
of 810.

## Took Eagle on Hook

The season's best fish story isn't  
about fish. John H. Pitts, Alabama  
Polytechnic institute football coach,  
cast his line and a big bald eagle, also  
fishing, nabbed it in midair. The fish-  
hook caught the eagle and Pitts land-  
ed him. The bird, measuring five feet,  
four inches from wing tip to wing tip,  
was presented to the institute's zool-  
ogy department.

## Compliment, Anyway

"Will you marry me?"  
"You haven't a chance. But I rather  
admire your taste."

No man, no matter what his prej-  
udices, can hold out long against a  
man who likes him.

## GENE SARAZEN

Brilliant  
Golf Champion

Says:

"When it comes to the crucial moment,  
I turn to a Lucky Strike. They leave a  
soothing effect upon my throat. They're  
great, they afford a real pleasure."

## Gas Can His Credentials

George Niederauer, a young college  
student, arrived in Washington, after  
getting lifts from San Bernardino,  
Calif., with the aid of a gasoline can.  
Flagging motorists with the can and  
having them pick him up on the as-  
sumption he was a fellow-driver in  
distress, the drivers would usually  
laugh when they found the gas con-  
tainer was only the wanderer's suit-  
case filled with clothing and continue  
to carry him on his way.

## Something Brewing

Ted—Last night when I got home  
my wife had my slippers ready, my  
pipe filled and—

Harry—How much did her new hat  
cost?

Nothing is more expensive than the  
things that are presented to us.
