iation has faith in Alamance County is evidenced by the fact that W. O. W. has \$215,500.00 invested in municipal bonds of this county, according to a statement today by W. A. Fraser, Sovereign mander of the Woodmen of the World and President of the Globe Life Insurance Company.

"The Woodmen of the World has great faith in the future of this state," said Mr. Fraser.

Sovereign Commander Fraser also announced that the Woodmer of the World Life Insurance Assoc iation now has \$13,769,000.00 invested in municipal bonds in the state of North Carolina.

"Our funds are used to help the development of the various parts of the United States where Woodmer of the World members are located," said Mr. Fraser. We are glad in having the opportunity to aid the various counties and states in building roads, school houses, court houses, street improvements and other municipal enterprises."

"Not enough people in America realize the importance of modern and up-to-date school houses and modern methods of education. Sanitary and modern school houses without los tend toward making both teachers or interest.

on account of the cold wet spring

put all the soil to the plant that

HAT the Woodmen of the and school pupils more contented and, therefore, more efficient. Good school houses with their sanitary conveniences, proper lighting and ventilation enable school teachers to do better work, and nothing is more important than education of our children-the future citizens of tomorrow."

Mr. Fraser said the factors entering into security of their investments are based foremost on the community's financial responsibility, both present and potential. But Investment Committee was also guided by good faith of and confience in the municipality issuing such bonds.

"Great assurance of good faith is given to the Committee in the simple statement that American Municipalities of any importance do not default in the principal or interest of any of their obligations,' said Mr. Fraser.

During the thirty-seven years existence of W. O. W., the association has been very careful in the disposition of its funds for investments. The company now has \$88,000,000 invested in municipal bonds. During its twenty-seven years, W. O. W. has handled more than \$120,000,000 of investments without losing a cent of principal
