

THE GLEANER

ISSUED EVERY THURSDAY.

J. D. KERNODLE, Editor.

\$1.00 A YEAR, IN ADVANCE.

Entered at the Postoffice at Graham, N. C., as second-class matter.

GRAHAM, N. C., FEB. 14, 1929.

Tuesday, 12th, was the birthday anniversary of Abraham Lincoln. He was born in the year 1809.

Friday, February 22nd, will be the 197th anniversary of the birth of George Washington.

Mr. Hoover will end his stay in Florida and return to Washington the first of next week to finish getting himself in readiness for his inauguration.

Something is going to be done about a better and cleaner voting law in the State. If everybody would vote honestly and let everyone else do the same, any old election law would suffice.

Congress has passed the cruiser bill, and the President has asked for an appropriation to begin construction. Should there be another limitation of armament treaty there would then be something to scrap.

The engagement of Col. Chas. A. Lindbergh and Anne Morrow, daughter of United States Ambassador Dwight W. Morrow to Mexico, is announced. Col. Lindbergh had just completed his return flight from Panama to Florida when the announcement was made.

The Legislature is still at work devising ways for raising more tax money. The big item it seems will be adding of an extra cent on the gallon of gasoline. That will not be altogether pleasing to automobile owners. But if it is properly spent on road construction, it will afford a little balm for the wound.

Thomas A. Edison, the electrical wizard, celebrated his 82nd birthday on Monday, 11th inst., at his winter home in Florida. President-elect Hoover was one among the many to tender congratulations. Edison has about 1100 patents to his credit and still he works. Everything, almost, that is electrically operated is due directly or indirectly to Edison's genius.

Clinton S. Carnes, defaulting treasurer of the Baptist Home Mission Board, plead guilty last week to one of 20 indictments for embezzlement of the board's funds. He was sentenced to the penitentiary for a term of five to seven years and was placed in prison Tuesday. He was tried in Atlanta where he carried on his defalcations and will serve his sentence in the Georgia penitentiary. He made away with nearly a million dollars as an audit of the records show, around \$100,000 for each year he was treasurer, and now the limit of the penalty meted out to him is seven years. It is such sentences as this that bring courts into disrepute, and, perhaps, encourage others to do as Carnes did.

Appeal in Behalf of 3,000-Acre Pasture Campaign.

Livestock experts say that the fundamental weakness in our dairy development in this County of Alamance is lack of good pastures.

We are asking you, if you own one or more acres of land, to join in a 3000-acre campaign of improved pastures, today.

Perhaps you own only a few acres for a small farm. You can encourage your friends who do have land to start now, as well as yourself.

Your local seedman or the County Agent will aid you in securing seed. We can furnish grass seed mixtures and give information on sowing. Let's put this over. May we help you?

W. KERR SCOTT,
County Agent.

Sheep raising will be started in Avery county this year by boys belonging to the 4-H club.

Plans for Celebration Washington's 200th Anniversary.

Washington, D. C.—Congress has authorized appropriations of \$4,500,000 for a nation-wide celebration in 1932 of the 200th anniversary of the birth of George Washington. The commission which has charge of the proposed celebration met recently to formulate definite plans for this event.

As part of the proposed celebration, the meeting adopted a resolution calling for the construction of a suitable highway to connect Mount Vernon, Va., the home and burial place of Washington, with the south end of Arlington Memorial Bridge now being constructed in the city of Washington over the Potomac River.

The meeting also adopted a resolution for the publication of all of George Washington's papers, except his diary which has already been published. Another resolution called for the restoration of "Wakefield," birthplace of George Washington. It provided further for the appointment of a committee of three to consider plans submitted by the National Wakefield Association and Army engineers for restoration of this property, which is owned jointly by the United States and the Association.

President Coolidge, chairman of the Commission, presided at the meeting. Others present were, Senator Fess of Ohio, vice chairman; Senator Capper of Kansas; Senator Glass of Virginia; Senator Baynard of Delaware; Representative Tilson of Conn.; Representative Byrns of Tenn.; the Vice President Charles G. Dawes; C. Bascom Sloop of Virginia; the Speaker of the House, Nicholas Longworth; William Tyler Page of Maryland, Clerk of the House and executive secretary of the commission, and Mrs. Sherman of Denver, Colorado.

Dairying Now Classed as World's Largest Industry.

Growing, handling and feeding cows and dealing in their products is now the World's largest industry.

Quoting Dr. C. W. Larsen, former chief of the dairy industry bureau at Washington, Fred M. Haig of State College says that fifty years ago, the dairy industry was undeveloped, unscientific and relatively unimportant. Today the dairy industry of the United States is the largest and most vital industry in the world. It has a far-reaching effect upon health and property. In 1926, says Mr. Haig, the United States produced one hundred and twenty-one billion pounds of milk. The population of this country is increasing at the rate of about one million and a half each year and since 1916, the production and consumption of dairy products has increased 51 percent.

The number of dairy cows per thousand consumers has increased only 16 percent, showing that dairymen are not trying to see how many cows they can feed but are getting more milk from less cows. There is no economy, says Mr. Haig, in keeping 20 cows when ten good animals will produce more milk than the 20 low grade ones. In 1916, he finds, the average amount of milk produced per cow in the United States was 3,700 pounds. In 1926, this amount was 4,700 pounds per cow.

"Pure milk," says Mr. Haig, "contains all food elements in proper proportion, including minerals and vitamins, for the growth and the health of young and old. This food is in the most digestible and economical form. Every child should have at least one quart of milk each day. There is no substitute for butter; cheese is a real food and ice-cream is delicious and nutritious. A survey made recently showed that 20 percent of the consumers food dollar was used for dairy products."

Food For Chicks in Grain and Mash Given By Kaupp.

The 100 chicks with which one will start a poultry flock of 50 hens to be raised, will first need 450 pounds of feed up until the ninth week, and thereafter, for the whole year, the 50 hens selected will need 4,290 pounds of feed.

"The 450 pounds of feed needed for the 100 chicks up until the ninth week should be 250 pounds of mash feed and 200 pounds of grain," says Dr. B. F. Kaupp, head of the poultry department at the State College. "Then when the 50 hens are selected from the lot, these hens will need 50 pounds of grain and 35 pounds of mash per hen for a year. This makes a total of 4,290 pounds of feed that should be provided on the home farm. Of this amount 2,800 pounds is grain feed and may be supplied by 25 bushels of corn, 24 bushels of oats and 13 bushels of wheat. To sup-

Did You Ever Stop To Think

(Copyright 1928)

By Edson R. Waite, Shawnee, Okla.

All the things I had been hearing about the new Spirit of St. Louis came back to me the other day, when I was in that rapidly growing city.

My friend, E. Lansing Ray, president and publisher of The St. Louis Globe-Democrat, has been one of the leaders in the development of this metropolis, and I was eager to see the evidences of growth there.

The city is being made over, with \$87,000,000 which was voted in 1923 for a bond issue. Streets are being widened. Several imposing civic buildings are being built around what is to be the Municipal Plaza, in the heart of the business district.

And, with this civic building has come other construction—big office and business structures, apartments, dwellings.

When I was in St. Louis, the famous Municipal Opera was preparing for the opening of its tenth season. This interesting entertainment feature, with its mammoth outdoor auditorium in Forest Park, attracts hundreds of thousands of dramatic fans summer after summer, and more than pays its way.

St. Louis is decidedly air-minded. I found, Col Lindbergh's famous trans-Atlantic flight has fired the imagination of the people there. That city is one of the principal links in the newly organized Railway-Airway line, on which passengers may ride by rail at night and by air during the day to cut the time of coast-to-coast travel in half.

I CAN APPRECIATE NOW WHY ST. LOUIS IS PROUD OF HER PAST HISTORY, AND ENTHUSIASTIC OVER THE HISTORY WHICH SHE IS DESTINED TO MAKE IN THE FUTURE.

ELON COLLEGE ITEMS.

Elon College, Feb. 14.—The Woman's Missionary Society held a splendid meeting and one that was well attended, Thursday afternoon at 3:30 o'clock, with the president, Mrs. W. M. Jay in charge of the meeting.

After the devotional and singing of a hymn, a well prepared program was rendered by Mesdames T. C. Amick, C. M. Cannon, C. E. Tapscott, J. S. Alexander and O. W. Johnson.

Special music by the society quartette, Mesdames J. W. Barney, W. M. Jay, J. L. Foster and J. W. Patton, was rendered.

Mrs. J. A. Hornaday, secretary of the society, gave a report of the last month's meeting, and each circle leader gave report of the activities of their respective circles.

Mr. and Mrs. C. D. Johnston, spent Wednesday at Raleigh.

Little Miss Irene Hook is confined to her home with illness.

H. H. Kimrey left Monday for a three week's stay in Eastern North Carolina.

Eglebert Trollinger, of Burlington, spent a part of Tuesday here with relatives.

John Harrell, of Norfolk, Va., spent the first of the week here with friends.

Miss Dorothy Lowe has returned to Mt. Airy after a visit here to relatives.

Sophia, the little daughter of Prof. and Mrs. T. E. Powell, is quite ill, suffering with ear trouble.

Pauline, the little daughter of Rev. and Mrs. J. Frank Apple is very ill with pneumonia.

Misses Wautell Lambeth and Ruth Alexander, spent Sunday with friends at Brown Summit.

ply the 1,750 pounds of mash feed also in the ration, the grower should raise 10 bushels of corn and 11 bushels of oats."

Some additional feed will also be needed on the poultry farm for young and growing birds, therefore Dr. Kaupp says if the average farm keeping a flock of 50 adult hens will produce for the poultry, 25 bushels of corn, 26 bushels of oats and 15 bushels of wheat, the owner will need to buy only about 400 pounds of fish meal or meat meal, 400 pounds of middlings and 75 pounds of bone meal to have his birds well fed.

Dr. Kaupp has worked out a North Carolina laying mash and a North Carolina grain feed which has given excellent results on the experimental poultry farms. The formula for mixing these feeds at home will be supplied to any poultry grower in the State who will write for it. The successful farmer who keeps a flock of pure bred poultry as a side-line should not have to buy his feedstuffs. They can be raised and mixed at home with excellent results, declares Dr. Kaupp.

NOTICE

Sale of Real Estate.

Under the power of sale contained in a mortgage deed given by J. C. Foust and wife, Bessie Foust, to the undersigned on February 10, 1927 which said mortgage deed is recorded in Book No. 89 at page No. 509 in the Office of the Register of Deeds for Alamance county, N. C., default having been made in the payment of the indebtedness secured thereby, the undersigned will offer for sale at auction on

THURSDAY, FEB. 21, 1929, at 12:00 o'clock noon at the courthouse door in Graham, North Carolina, to the highest bidder for cash the following described real estate:

A tract of land in the Town of Graham, Alamance County, North Carolina, and being lots No. 12, 13, 14 and 15 of Block "A" of the Walker property as platted by plot for which is recorded in the office of the Register of Deeds for Alamance County, N. C. in Plat Book No. 2 at page 14.

This the 19th day of January 1929.

J. R. GUTHRIE,
Mortgagee.
Long & Allen, Attys.
