## Government Asks for Money—And Gets It.

The Secretary of the Treasury of the United States is offering \$500,000,000 United States of America Treasury Notes, bearing 2½ percent interest from January 29th and maturing March 15, 1935. Also a like amount of Treasury Certificates of Indebtedness, bearing 1½ percent interest from January 29th and payable September 15, 1934. In each instance subscriptions up to and including \$10,000 will be taken care of in full. Those in excess of ten thousand and will be allotted on a percentage basis.

Since writing the above a report comes from Washington that the 2½ percent obligations were more than two billions oversubscribed; and the 1½ percent ones a billion oversubscribed—these reports were made before returns were all in.

The eagerness to get hold of some of these government obligations indicates that people who have money to invest still have faith in the government, notwithstanding there are those who would make the charge that government credit is in danger.

The country continues to be terrorized by reports of kidnapping and demands for big ransoms under pain of death to the kidnaped for the failure to pay. It has been suggested in Congress that kidnapers caught be subjected to a firing squad.

When Europe reads this morning that the one billion asked for at Washington was oversubscribed more than three billions, she will rub her eyes and wonder. Doubtless, too, she will realize the futility of nagging at American credit. If she will, she will also vision that Americans are behind their government with their money, which is concrete evidence of their faith in it.

Hon. Leo Carr has announced his candidacy for the office of Solicitor of this district to succeed himself. He went into office about a year ago by appointment to fill out the unexpired term of Wm. B. Umstead, resigned. The friends of Mr. Carr feel that it is but fair that he should be retained, since he took office under the conditions which he did, and for the further reason that he has discharged the duties to the satisfaction of the public.

Friends of Hon. F. M. Simmons of New Bern, former United States Senator for thirty years, are urging him to become a candidate for Congress to take the place of Congressman Abernathy. Though the veteran statesman celebrated his 80th birthday on the 20th of this month, he is described as hale, healthy and alert. He has not yet given any intimation that he will accede to the wishes of his friends in the matter.

## Corn-Hog Contract Simple Business Deal.

The corn-hog adjustment contract may be regarded as a simple business deal between the farmer and the Secretary of Agriculture, it is pointed out by W. W. Shay, swine extension specialist at State College.

The contracting producer agrees under the contract to make a definite reduction for 1934 of 20 percent in his corn acreage and 25 percent in his hog production for market. He also agrees to abide by other sections of the contract, such as regulation of the use of contracted acres.

The Secretary of Agriculture is obligated under the contract to make certain payments to the producer for fulfilling the contract terms. For each acre of land offered by producers and accepted for contract, the Secretary will pay in one or more installments a total of 30 cents per bushel on the estimated yield of corn from the contracted acres. The Secretary obligates himself to pay 15 cents of this amount as soon as practicable after he accepts the contract, and to pay 15 cents per more, less the producer's prorata share of local administrative expenses, on or after November 15, 1934, upon such proof of compliance with the contract as may be required.

The Secretary also agrees under the contract to pay the producer a total of \$5 per head on 75 percent of the annual average number of hogs produced for market by the producer from 1932 and 1933 litters.

Of this amount, \$2 will be paid as soon as practicable after the contract is accepted. The remainder, less the producer's prorata share of local administrative expenses, will be paid in two installments, the first on or about November 15, 1934 and the final payment on or about February 1, 1935.

## More Families Aided With Less Money.

Raleigh, N. C., January 20 — Although the number of North Carolina families given direct relief during the month of December show an increase of 3,104 over November, the amount of money spent during the past month was \$74,059.30 less than in November, according to figures made public at the office of Mrs. Thomas O'Berry, Administrator of the North Carolina Emergency Relief Administration.

Fifty-two thousand nine hundred thirty-eight families received direct relief during November but at the end of that month only 43,138 were on relief rolls. During December 56,042 families were given direct relief with 47,635 on the relief rolls at the end of the month.

During November a total of \$611,362.83 was spent for direct relief. During December \$537,303.53 was expended. The decrease in the amount of money spent was due to many of the relief cases receiving aid through CWA jobs. Usually the December expenditure for direct relief was a large increase over the November expenditure.
