

How to Cut and Make Door Pocket

HERE is extra closet space—a place for shoes, whisk broom, hat brush and other odds and ends including laundry. All you need to make this door pocket is 2 1/2 yards of 36-inch-wide chintz, 8

yards of bias binding, 8 bone or plastic rings and half a dozen cup hooks for hanging.

First, cut a strip 8 inches wide from one side of the entire length of fabric; then cut this crosswise in three equal parts to make the three pockets. Now, cut the foundation piece 24 inches wide and 54 inches long. Cut the laundry pocket 18 inches deep and 23 inches wide. The diagram shows how these pieces are put together.

NOTE—The door pocket shown here is from Book 4 of the series offered with these articles. This book contains more than 30 other ideas for things to make for your house and for gifts and bazaars. To get a copy of Book 4, enclose 15 cents with name and address direct to:

SNAPPY FACTS ABOUT RUBBER

Proper inflation is a must for maximum tire service; and now we have reports of an ingenious post-war device which, through a series of lights on the car or truck dashboard, will warn the operator when the pressure in any tire is under what it should be.

"Ducks," the amphibious 24-ton trucks now used by the Army, have tires that originally were designed by B.F. Goodrich for desert use. The tires have broad tread and are exceptionally flexible and light in weight. These desert tires which used to see so much service in the South Pacific and on the European battlefronts.

Household Hints

Machine stitch the drawstring on pop's and junior's pajamas firmly at center back. Then it's less likely to become detached and get caught in the washer.

Reinforce your heavy bath towels along each side with a binding of one-inch tape. Strengthens them for the hard pulling men and boys give them rubbing hard after shower baths.

If you thumb-tack waxed paper to the pastry board before rolling out the pastry, the dough won't stick.

When convalescent children are able to sit up in bed they need a place upon which to draw or color. By opening only two legs of a folding card table, it may be placed over the side of the bed and will take the place of a bed tray.

If small bits of leftover foods are placed in small jars for the refrigerator, several of them may be placed in one pan of water and reheated for serving. This makes one pan do the trick instead of having several small ones to wash.
