EDITOR CLEM

By Ralph Kemp

"It's powerful nice to edit this copy without having to clear with Tojo, and if you folks buy enough War Bonds we won't ever have to remember there are 35 million of 'em to beat."

True or False

Test your knowledge of your Government's War-Bond Financing program. The answers to these questions, given at the end, should be known by every American. How good are you?

1. 85 million Americans have purchased Series E War Bonds.
2. 84% of all the money ever invested in E Bonds is still invested in them.
3. If a Bond is lost, stolen or destroyed, it is just the same as if the owner had lost the money he invested.
4. E Bonds may be cashed at any qualified bank for their full cost any time after 90 days from date of issue.
5. The U. S. Government's promise to redeem War Bonds any time after 90 days from date of issue is just as strong as its promise to stand back of a dollar bill.
6. You have to hold a Bond the full ten years to get any interest.
7. The lowest-priced War Bond costs \$25.
8. War Bonds are better than cash.
9. Two persons cannot own a War Bond jointly.
10. The only reason we should buy War Bonds is to help pay for food, ammunition, etc., for the armed forces.

ANSWERS

1. True.
2. True.
3. False. War Bonds are registered in the names of their owners, and lost Bonds can be replaced.
4. True.
5. True. Compare wording on a Bond and a bill.
6. False. Your Bond increases in value after one year. See the values on the back of the Bond. But you get a greater increase in value the longer you hold a Bond, up to \$1 at the end of 10 years for every \$3 you paid.
7. False. A \$25 Bond costs \$18.75.
8. True. They can be replaced if lost, they increase in value and they can be converted into cash in case of need.
9. False. War Bonds can be owned by two people as co-owners or as owner and beneficiary.
10. False. Your savings invested in War Bonds will also help to stabilize prices now and to provide for your own security in the future.

Pay-Cut

Last year at this time I enjoyed the acquaintance of a business man whose salary was \$50,000 a year. I looked upon him with a great deal of admiration and respect for several reasons. He earned what he has with hard work and know-how. His employees, numbering above ten thousand, call him Uncle Frank. He lives in a small town and helps a lot of people in a quiet way.

Last week somebody showed me a page of a pocket-size magazine published for the employees of his company and I read with grave interest that his pay had been cut. That was news by anybody's standard; most people are getting raises in pay these days. What's more, this man's pay-cut is big. It amounts to more in a year than most men manage to accumulate in a whole lifetime.

His Own Words
"I insisted that the board of directors reduce my annual salary from \$50,000 to one dollar," the signed statement said, "I have not been receiving net anywhere near \$50,000 a year for working. . . . Only \$399.36 was left for my use out of my 1944 wages. . . . Why should

I permit the company to pay out \$50,000 a year to benefit me by only \$399.36?"

Let me make haste to say that I am not sorry for Uncle Frank. He will be all right; he has some other money. I am not worried about his employees either. The faithful workers among them will be able to retire in dignified comfort. My only concern is over men who, next year or the next, may hunt jobs and not find them; jobs Uncle Frank would like to offer but can't.

Inside Figures

Here is another enlightening passage from his statement: "Perhaps you wonder why my net realization from wages has been so small. The answer lies in the extremely high income tax rates which apply to my wages, added as they are to my other income, and to the fact that I must pay not only federal income taxes but also state income taxes."

This man is not the only big-company official in the country who has cut a lordly income to less than 10 cents a month. Why do they do it? Because their big salaries benefit them so little and cost their firms so much. My young friend who started last fall to work his way through college, running a steam dishwasher four hours a day, realized more net from his salary than this \$50,000 executive.

Who Is Injured?

Men who cut off big salaries have other income. That's why their tax rates are so high. That's why they can afford to spurn a salary. But if they must decline the proceeds of their own invested earnings, one thing is sure: They will not invest further earnings to start new ventures or expand old ones. Investments in business are not safe, never have been. Any investment is a risk.

Men with money invest it only when they believe, to the best of their judgment, that it will pay reasonable returns. Now they are sure of only one thing: Nearly everything an investment earns will be taxed away from them. Will they invest in new enterprises? No. Then where will our returning service men find work? Unless present tax laws are changed soon, they will find it on a huge W. P. A. to the disgrace of our free America.

RENT CONTROL

All persons renting, or offering for rent, any living quarters whatsoever must register each dwelling unit with rent control office in their rent area. Persons who feel that they are being over-charged for rents may submit complaints to OPA. Complaint forms are available at the local War Price and Rationing Board if your area does not have a rent control office.

Rationing rules now require that each car owner write his license number and State on each coupon in his possession as soon as it is issued to him by his local rationing board.

They raised
the Flag again
on Corregidor...

Let's raise the money in the
MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men—more and more—died to take the long step forward to victory. Twenty thousand others suffered wounds. Yes, we're on the way to Tokyo!

At home, your contribution to Victory is measured in dollars. The Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!
