Roosevelt's Appeal for 7th War Loan

WASHINGTON, D. C.—Before his death President Franklin D. Roosevelt issued a statement in support of the 7th War Loan for 14 billions of dollars in which he reminds the Nation it is still locked in a deadly struggle with its enemies.

The President stressed the importance of greater production together with the buying and holding of War Bonds to help achieve the victory. He said:

"I don't need to tell you that we are still locked in a deadly struggle with our enemies—the enemies of our way of life—and the war is still the chief job of each one of us. The greatest production of which we are capable, faithful adherence to regulations that make it possible to supply our boys in battle with everything they need, and buying and holding War Bonds—these are things we at home must do to speed victory."

"In the past three years more than 85 millions of Americans have invested billions of dollars in bonds. Never before have so many people held such a direct share in a great national effort. To save—buy and to hold all we can of war bonds—this is a small service to ask of us who do not fight—yet it is one of the biggest things we can do for our fighting men."

Pinup Baby Given War Bonds

THE WINNER—Little 15-month-old **Harolyn Cheryl Meyer** of Trenton, New Jersey, official pinup girl of the USS New Jersey, was made \$3,500 richer in War Bonds through donations by the crew of the USS New Jersey for use in obtaining her future education. Governor Walter E. Edge made the presentation. The child's father, an Army Air Corps pilot, is a prisoner of war in Germany. He has never seen his little beauty queen. She is held by her mother, Mrs. Harry C. Meyer.

Refrigerator Care
Whether your refrigerator is old or new it needs care to give its best. Keep the coils free from dirt. An accumulation of dirt and dust interferes with the motor's cooling efficiency and will cause it to run more. Clean the coils with a long handled brush (be sure to turn off the motor if it is an electric refrigerator).
Avoid frequent door openings. Re-

move several articles at a time and when they are to be replaced in the refrigerator, assemble them on a convenient table so that they may all go into the refrigerator as quickly as possible. Do not overcrowd the refrigerator with food as the necessary circulation will be stopped. Hot foods should be cool before they are stored. Do not store items that do not need special refrigeration but leave more room for such things as milk that do.

Don't Worry About Us!
Well do it!

They tell us that the fat salvage problem has got to be licked in the small cities, the towns and on the farms.

Our country has to have one hundred million more pounds of used fats this year. And we're the people who must save it. We've rolled up our sleeves! We'll save every drop and bit possible... and keep doing it till the last jar is licked.

HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies. Keep meat trimmings and table scraps in a bowl. Melt them down when your oven's going, add the liquid fat to the salvage can. Take can to your butcher as soon as it's full. He will give you four cents and two red points for every pound. Your County Agent or Home Demonstration Agent can give you full particulars.

100,000,000 More Pounds of Used Fats Are Needed This Year!
Approved by WFA and OPA. Paid for by Industry.
