EDITOR CLEM

By Ralph Kemp

"This next stick of 't' type is going to say just one thing—We got 35 millions of Japs to beat."

Follow Through

Do you believe working people have a right to organize and bargain as a group for their general betterment? Do you believe a man who has saved some money has a right to invest it in any business he likes and to operate that business, trying to make a reasonable profit? Do you believe that big-volume production at low cost is the key to good pay? My answer is yes, to all three questions.

If you agree, you subscribe to the fundamentals of the Labor-Management Charter. It was signed in Washington last March 28 by William Green for the American Federation of Labor, Eric Johnson for the United States Chamber of Commerce, and Phil Murray for the Congress of Industrial Organizations. It is a powerful document, able (if carried out) to do the world more good than the famous Atlantic Charter.

Nothing Original

People who work surely have rights. Open competition is certainly fair. Economy of time and effort yields positive rewards. These ideas are not original. They are old and time-tested principles. All of them stand out clearly in the teachings of Jesus and of many great men who have lived and enriched the world more recently. They appear in the Labor-Management Charter. Besides declaring the rights of labor, the fairness of competition and the dividends of economy, the Labor-Management Charter contains two vital pledges: (1) To settle industrial disputes peaceably—no strikes, no violence, no lockouts, no trickery, and (2) To support a sound economic system in America—an expanding foreign trade and an enduring peace. Both are perfectly sound.

Big Responsibility

Being the richest and strongest nation in the world, the United States has a serious responsibility. It is graver than ever now, with a global war to finish and the world to be set in order. Miss Columbia must point the way and she stands at the crossroads. America's choice will determine which way the whole world goes; to peace and plenty or to poverty and oppression.

Of the 200 billion people who have lived on earth, not more than 2% could call their souls their own. The way of the world has always been oppression and it still is. Now especially the trend is toward dictatorship. Not 20% of the people now living ever dreamed of freedom and prosperity like we enjoy, but America is in actual danger of being carried with the political tide.

Jobs and Markets

The Labor-Management Charter points the right way: toward freedom of faith, security of ownership, and liberty in self-government. Like any guide-post it is powerless in itself, useful only if it is followed. If followed, however, it indicates an orderly transition from war to victory in peace and prosperity. If it is ignored, our alternate course leads to economic war, government by edict, lower wages, and less of the things people want.

The system of open competition in enterprise made America the world's most influential nation and kept it in the forefront of human progress for 170 years. A recent survey shows that conservative business men are ready, if they have a chance, to offer more than one job per available worker after the war. For full employment, good pay, ready markets and active business, let's follow through with the Labor-Management Charter.

Set Example For The Nation

TED R. GAMBLE, National Director of the Treasury's War Finance Division, and his son, Ted, Jr., exchange War Bond presents in honor of Father's Day, June 17. The Father's Day Committee is urging all fathers and sons to follow the example set by the Gambles.

TOPS FOR INDIVIDUAL FLAVOR—HOME-MADE FRUIT PICKLES

—Photo Courtesy Ball Brothers Co.

Even when plentiful in the shops (try to find them now!), pickled fruits are costly and lack the flavor of a good homemade product. The commercial packers do a top notch job but it is a mass production proposition and must, for practical purposes, lack the touch of individuality found in good homemade pickles.

First-quality pear or peach pickles are plump and tender and the color of amber. The sirup, honeylike in thickness, is flavored to please one's own taste.

Here's a secret. Follow the recipe to the letter until you come to the spices, then go on your own. You dislike clove? Leave it out. You like ginger? Put it in. And if you can get them, use oil or essences of spices rather than the whole ones called for in recipes. The oils won't discolor the fruit, but go slow, a drop at a time. Those oils are expensive and as strong as "all-get-out!"

The richest pears for pickling are

seckels but any good, firm ripe ones will do. This is how:

- 1 gallon pears
- 6 cups sugar
- 2 cups water
- 4 cups vinegar
- 2 pieces ginger root
- 2 sticks cinnamon
- 2 tablespoons whole allspice
- 1 tablespoon cloves

Select firm pears. Pare and leave small ones whole; halve or quarter and core large ones. Boil 20 minutes in clear water. Boil sugar, water, vinegar, and spices (tied in bag) 10 minutes. Add pears. Let stand overnight. Cook until tender. Pack pears into hot jars. Cook sirup until thick. Pour over pears. Process 5 minutes in hot-water bath.

Voted Best Canines of 1944

These are the best four dogs of 1944, in the opinion of America's dog judges polled by the Gaines Dog Research Center, New York City. Female Boxer El Wendie of Rockland (left), shown with her owner, Mrs. Philip Crystal of Harrison, N. Y., was voted first place.

Second, third and fourth places respectively were accorded to Flornell Rarebit of Twin Ponds (center, top), male Welsh Terrier owned by Mrs. Edward P. Alker, of Great Neck, L. I.; Hetherington Model Phythim, female Wire Foxterrier owned by Mr. and Mrs. T. H. Carruthers, Glendale, Ohio (shown at right with her handler, J. Terhune); and Dictator v. Glengulch, a male Doberman Pinscher (center, bottom) owned by Marine Capt. and Mrs. Bob Adamson, Arlington, Va.

Machinery Revolutionized

World's Farming Methods

Up until 1800, farming methods had remained much as they had been in the days of Julius Caesar, and humanity continued to suffer from inadequate food supplies. The change from iron-covered wooden plows to cast iron plows had marked agriculture's chief mechanical progress.

Most of the farm machinery which has done so much to revolutionize the world's agriculture

originated in the United States. The reaper was invented in 1831, the mower and threshing machine in 1834, the first combine in 1836. These implements reduced the time required to harvest an acre of wheat from 36 man-hours to less than 12.

Today various labor-saving machines on U. S. farms are estimated to number in excess of 10 million. Further, this same mechanization of farming methods has been extended to practically every land, through the export of American machines. Before the war, U. S.

manufacturers exported approximately 125 million dollars worth of farm machines a year, a fourth going to Europe. Farm implement factories in the United States, about 1,200 in number, have made a direct contribution to the war, turning out war machines and parts. Some of the larger factories have been engaged 75 per cent in war work.

American Prisoners say:
"WE WANT TO GET BACK AT THE JAPS!"

MATCH THEIR SPIRIT in the MIGHTY 7TH WAR LOAN DRIVE

YES, despite their long months and years of privation and suffering, those gallant men, just released from filthy Jap Prison Camps, still have their good old fighting spirit. They're itching to get back into the fight and give the Nips a taste of their own medicine.

Let's show them that we're not quitting either! Let's match their spirit with our dollars! Let's make this MIGHTY 7th War Loan the mightiest of them all!

But to come even close to matching their sacrifices, everyone here at home must buy War Bonds until it hurts. Buy double or treble the extra War Bonds you've bought in any previous drive. Remember, this is really two drives in one. In the same period last year, you were asked to subscribe to two War Loans.

So let's go, Americans. Our hard-fighting Soldiers, Sailors and Marines are giving their ALL. The least we can do is to lend our dollars.
