Bonds Over America

TENNESSEE'S CAPITOL

America's devotion to freedom, which the purchase of War Bonds directly helps to maintain, nowhere has a more exemplary shrine than the State Capitol at Nashville. The \$1,500,000 building memorializes years of struggles of sturdy folk. Tennessee's first Legislature met at Kingston and adjourned to Knoxville. Later it met at Nashville and Murfreesboro. Nashville became the permanent capital and the cornerstone of the present building was laid in 1845. It took 14 years to complete. The same love of freedom that inspired those early legislators in selecting a seat of government motivates the state's 186,000 men now in the U. S. armed forces.

The housewife should examine them to see if the weave is firm enough and the fiber long enough to be securely locked in the weave structure. A double weave has two sets of filling and permits more napping without the danger of "over-napping." A blanket that has been over-napped provides warmth at a sacrifice of strength. It is desirable to choose a blanket 10 inches longer and 18 inches wider than the mattress. Wartime restrictions now limit blanket lengths to 84 inches, but this is usually adequate. Rayon bindings ordinarily hold color better in cleaning than do cotton.
