Rationing News

MEATS & FATS
Red Stamps:
V2, W2, X2, Y2, Z2, expire September 30.
A1, B1, C1, D1, E1 expire October 31.
F1, G1, H1, J1, K1 Expire November 30.
L1, M1, N1, P1, Q1 Expire December 31.

Controls over how much livestock can be slaughtered and where the meat may be shipped have been suspended by OPA.

Effective immediately, OPA area rent directors may require a minimum of six months before a purchaser may evict a tenant in order to occupy a house himself.

Gasoline and fuel oil will cost less at retail in the eastern seaboard area effective at once. It will be reduced 1.2 cents a gallon throughout Eastern North Carolina.

All meats require ration points except mutton and a few specialties including kidneys, tripe and brains. Red points are required for butter, margarine, lard, shortening, salad and cooking oils, canned fish, and meats canned and in glass. Canned milk and cheese no longer require points. Red tokens continue in use as change-makers. Consumers will get 2 red points in addition to 4 cents for each pound of waste kitchen fats and greases rendered and brought to the neighborhood meat shop.

The OPA customarily validates five new red stamps at the beginning of each month. Each stamp is valued at 10 points.

A member of the armed forces on leave or furlough may apply for food and sugar rations at the nearest rationing board in the district where he is spending his furlough. He will receive an allotment of red and sugar stamps by showing his furlough papers.

Go to your local rationing board with any rationing problems; also if you need to buy a new automobile or other commodities on which sales have been restricted. For information about price and rent control write to your local price panel or the OPA District Office, Capital Club Building, Raleigh, N. C.

Make ration applications by mail—save time and effort.

A Daily Builder For Your Child--
A Quart Of Rich, Pure Milk!
What do you see in a bottle of milk . . . your child playing in the summer sun? Long happy hours of play call for the wealth of buoyant energy milk can supply. Doctors agree most children should eat oftener. Give your child milk regularly at mid-morning and mid-afternoon. A perfectly balanced food, it is refreshing and digests quickly, increasing appetite for other meals. It can be varied endlessly. Delicious, health-building sweet drinks can be made by stirring honey or molasses into cold milk. Straws and tall glasses add child-appeal.
Our milk is known for purity . . . richness . . . vitamin and mineral content . . . and country-fresh flavor

Come Back Home
Jobs Are Waiting
A LOT of our patriotic neighbors left home to serve their country, either in the armed services or in war industries.
If you are one of them, we want you to know there is a warm welcome and a job waiting for you here.
We hope you will come back to make your home here among your old friends and neighbors. This is a good town with a lot of fine people—and a fine future.
Plenty of Jobs Here
In addition to the opportunities here with which you are familiar, some new ones have developed during the war. For instance, a lot of people around here have been making good money working in pulpwood. The tremendous war-time demand for pulpwood will continue because of the civilian demand that has been piling up and the many new industrial uses that have been discovered. Pulpwood has no re-conversion problem.
And that is typical of most of our business here. It runs along pretty steadily—no big ups and downs. You can enjoy security here and a nice way of living that doesn't cost every penny you make.
So come on back home to stay! We'll be mighty glad and proud to have you with us again.
Cut this out—Mail it to somebody you want to come back home
