Surviving are her husband, W. H. Wheeler; three daughters, one son, four sisters, two brothers,

Housed Farm Machinery

Enjoys Much Longer Life

We have daily reminders of the special attention our cars need to make them last, but farm machinery, as vital as a car to the farmer, has literally been left out in the cold. Farm machinery housed, lubricated and repaired will outlast unattended machinery on an average of 5 to 10 years.

Actual figures as the result of an investigation made at the University of Missouri show that a housed walking plow, for instance, will last five years longer than one left out to rust and corrode; a cultivator will last 12 years longer, while the life of a gang plow is doubled.

An unused building may be converted into a machine house or shed, or it may be necessary to build one. The shed should not be less than 24 or 26 feet wide and long enough to house all machinery. A farm shop adjacent to the machine shed is a useful addition to the farm. Farm tools, which would be scattered and lost if there were no special place for them, would have a better chance of being returned to their place in the shop. As most repair work is done in the winter during hails in other work, a stove should be part of the shop.

DEATHS

Mrs. Lillian Parks Burgess, 70, died at the home of her daughter, Mrs. Albert Brown, in Mebane, last Thursday afternoon after an illness of three months. Mrs. Burgess was born in Asheville.

Surviving are five daughters one son, one sister, one brother, 17 grandchildren and 7 great grandchildren.

Bonds Over America

EVANGELINE

American boys fight, suffer and die today to perpetuate freedom. And other Americans on the home front buy and hold War Bonds to safeguard freedom. If Henry W. Longfellow had not enjoyed liberty he could not have written "Evangeline," the story of Emmaline LaBiche, St. Martinville, La., pioneer girl who waited on the banks of the Teche for years, hoping to greet her lost lover. The Longfellow-Evangeline Memorial Park, oldest of Louisiana's state parks, is a monument to liberty and freedom.

Behind Your Bonds Lies the Might of America

PICKLES

Industrially great as is Pittsburgh, it demands recognition, too, as the home of one of the nation's greatest food processors. Heinz pickles and other vegetable products in glass and metal containers are sold throughout the world. From a small brick building, this business has grown to require 28 major plants and 150 branches. The small sums housewives pay for its items everywhere contribute to national prosperity and help assure War Bond payments.

NOW 7 1/2 POINTS FOR USED FATS

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of last year! We are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So...

If you want more soap and soap flakes... if you're dreaming of nylon, sheets, cotton fabrics and want them to hurry back to the store counter... you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and other things - like new cars, electric washers, refrigerators and tires. Industry must have these fats... to help get to you more quickly the peacetime products you want.

So skim and scrape just as you did so faithfully before V-J Day. To prove how important it is, your government has increased the point bonus. So please help! Keep on saving used fats! If you can't find a store that accepts used fats, call Home Demonstration or County Agent.

A Daily Builder For Your Child-- A Quart Of Rich, Pure Milk!

What do you see in a bottle of milk... your child playing in the summer sun? Long happy hours of play call for the wealth of buoyant energy milk can supply. Doctors agree most children should eat oftener. Give your child milk regularly at mid-morning and mid-afternoon. A perfectly balanced food, it is refreshing and digests quickly, increasing appetite for other meals. It can be varied endlessly. Delicious, health-building sweet drinks can be made by stirring honey or molasses into cold milk. Straws and tall glasses add child-appeal.

Our milk is known for purity... richness... vitamin and mineral content... and country-fresh flavor
