Farmers Have Less to Worry Them This Time

Washington, D. C.—Farm prices stand at 206 per cent of the 1909-1914 average—higher than the prices of 1918—and will drop again but not as sharply as in 1921 because the Government is required by law to maintain support prices of at least 90 per cent of parity for two full calendar years following the year in which the war ends.

The announcement indicates the farmer will not be a victim of a drop in prices similar to that which followed the last war in 1921 when prices hit the low of 115 per cent of the May, 1920, level which was 235 per cent of the 1909-1914 level.

War Finance Committee officials said that in addition to the maintenance of the price level for two years, that non-farm families already have, and are accumulating, weekly savings through the Payroll Savings Plan of the War Finance Division of the Treasury. This, they claim is proof the non-farm front will be much better able to support itself than after the last war during the normal lull of reconversion.

The Payroll Saving Plan has sold \$18,000,000,000 in War Bonds to wage earners, that great bulk of non-farmers who will, if need be, enjoy the fruits of their savings in the reconversion period and have the cash with which to support themselves.
