A Daily Builder For Your Child—
A Quart Of Rich, Pure Milk!

What do you see in a bottle of milk . . . your child playing in the summer sun? Long happy hours of play call for the wealth of buoyant energy milk can supply. Doctors agree most children should eat oftener. Give your child milk regularly at mid-morning and mid-afternoon. A perfectly balanced food, it is refreshing and digests quickly, increasing appetite for other meals. It can be varied endlessly. Delicious, health-building sweet drinks can be made by stirring honey or molasses into cold milk. Straws and tall glasses add child-appeal. Our milk is known for purity . . . richness . . . vitamin and mineral content . . . and country-fresh flavor

What do you see in the woods?

Remember the old saying about the man who "couldn't see the forest for the trees"? Lots of people are like that. All they see is trees. Others look at the forest and see it filled with books, magazines, newspapers. They see the raw materials of many great industries which depend on pulpwood, such as rayon and plastics. They see cartoons and boxes, and many other products manufactured from pulpwood.

They see jobs and wealth. Security for the workers and prosperity for the entire community. And if this forest wealth is properly harvested, it will increase in value in the years to come.

Let's take another look at our woods. Let's look at the trees and see the opportunities that lie within.

The USS Bennington, which docked in San Francisco last month, is shown speeding through the Pacific with her planes lashed to the flight deck.

Lt. B. Harper Barnes, USNR, of 109 East Harden street, served on this carrier. As a member of Task Group 58, the "Busy B" participated in the first carrier strike against Japan.

Despite damage inflicted by the terrific typhoon of June 4-5, 1945, the Bennington later returned to Japan and launched an attack against Kyushu airfields. Her planes also took part in strikes against Iwo Jima, Okinawa, Keramo Retto, and other Japanese home islands.
