

THE GLEANER

GRAHAM, N. C., FEB. 21, 1946

ISSUED EVERY THURSDAY

J. I. KERNODLE, JR., Manager

\$1.00 A YEAR IN ADVANCE

Entered at the Postoffice at Graham, N. C., as second-class matter.

With Thanks

Free schools are still free institutions in the United States, thanks to the bravery of ten congressmen, five Democrats and five Republicans. Jointly, last December 12, they broke up a piece of law-making strategy that might have wrecked American freedom completely.

What happened that day made the best news of the week but, important as it was, did not eclipse the brilliant tidings of the previous week when President Truman signed a bill to place a group of government corporations under control of Congress.

Many Good Reasons The Chief Executive complimented Congress for roping and branding these freebooters, as well he might. Indeed the 79th Congress deserves a great deal of commendation. One of its most notable achievements of the First Session was that exhaustive job by the Manasco Committee, X-raying the so-called Full Employment Bill. It deserved to be diagnosed thoroughly, and was.

Toothless Enactment Several well informed Washington observers are predicting that a dehorned and fangless version of the Full Employment Bill will pass into oblivion. As originally written, it was a viper, a sort of two-edged Townsend plan of pensions with an appended government guarantee of everybody out of jails and hospitals, drunk or sober, on borrowed government money.

Wealth and Plenty I wish every American could live on a farm long enough to learn how plenty depends on production. The more of anything people produce, the more of it they have. There's a difference between abundance and prosperity; production is only one ingredient, but an essential ingredient. Idleness and scarcity lead directly to poverty and want. It is true of a man. It is true of a nation.

Behind Your Bonds Use the Might of America

Prosperous, productive people can afford to yield their substance freely to help genuinely unfortunate folk who are in need. On the other hand it is not a kindness to quench any man's desire to make his own living and build his own success. Doing such things for people is unfair to them. We should be proud of our 79th Congress for holding that everlasting truth in mind.

SHEEP AND CATTLE New Mexico's 41,269 farms, containing 24,397,000 acres valued at over \$170 million, produce corn, wheat, cotton, fruits and vegetables worth millions annually.

Why Not Grow Better Sweet Corn?

Photo Courtesy Ferry-Morse Seed Co.

What's your favorite garden vegetable? "Roastin' ears!" you can hear whole families shouting in the Southern States. "Corn-on-the-cob!" exclaim the Northern folks. It's the same everywhere. Sweet corn is even more American than "hot dogs".

During the war many Victory Gardeners discovered the real flavor of sweet corn for the first time. They found that all the luscious sweetness is preserved by cooking the ears as soon as they are picked.

Golden Bantam. And fortunate folks who have had a chance to sink their teeth into the deep milky kernels of Ferry's Golden want nothing else in their sweet corn patch.

Whatever the variety, several short rows should be planted to form a compact plot, rather than one or two long rows. This is to make sure that the wind will carry pollen to every silk on every ear for only in that way can all the kernels develop.

Whether hybrids or regular types of corn are grown, be sure to put in several plantings ten days to two weeks apart instead of sowing all the seed at once. Extend your sweet corn eating time over as long a season as possible.

Take courage if you have been a bit discouraged because of the corn borer or ear worm. There are more preventives this year and fairly simple ways to combat the pests. Begin early if you suspect a corn borer attack.

Where corn diseases are not common, some of the regular varieties still take precedence. Many gardeners think nothing surpasses the flavor of true

FLORIDA FARMS

Two million acres of farms in Florida produce cotton, tobacco, sugar cane, tung oil, grains, citrus fruits and vegetables valued at \$285,000,000 annually. Only 6 per cent of the land is cultivated in the state, leaving vast acreage to be developed and furnish additional national wealth.

Evidence of tuberculosis of the bone has been found on the mummified bodies of early Egyptians.

PROPHETS GIVE DATES FOR 'WORLD'S END'

The prophets never give up. Religious zealots are still predicting the end of the world—some going so far as to pick the exact dates. Read about this psychological phenomenon in the March 3rd issue of
