Local Girl Elected President Student Government at W. C.

Miss Mary Elizabeth Brittain, daughter of Mr. and Mrs. Dwight Brittain, East Harden street, was elected last week to one of the highest offices of Woman's College, Greensboro, when she was named president of the student government of the college. In winning the election, Miss Brittain defeated three other candidates.

Rationing News

SUGAR

Sugar Stamp No. 39 became valid for five pounds of sugar January 1, expires April 30.

Make ration applications by mail—save time and effort.

Housewives are advised by the Office of Price Administration to retain in their possession War Ration Book 4, now used only to obtain sugar.

Although the currently valid stamp 39 is the last stamp in War Ration Book 4, that is specifically labeled for purchases of sugar, spare stamps in that book will be designated as sugar stamps from time to time. For this reason, War Ration Book 4 should be retained even after Sugar Stamp 39 has been used, OPA emphasized.

A MOON'S-EYE VIEW OF THE EARTH

When and if rockets eventually taken to the moon scientists expect to find that the earth—like a comet—trails a streamer of tumbling gases behind it. Read about this interesting phenomenon in the March 10th issue of THE AMERICAN WEEKLY National Favorite Magazine With The Baltimore Sunday American Order From Your Newsdealer

Behind Your Bonds Lies the Might of America

FOOD FOR ALL Besides Iowa's great waving fields of corn, its fields of other grains will feed millions, provide jobs for thousands and add to the Nation's wealth to guarantee War Bonds. Almost 10 million acres are at work. Annually the harvest amounts to 596 million bushels, worth \$471,469,000. Iowa grows 20 1/2 million bushels of oats, 38 million bushels of soybeans and 55 million pounds of popcorn. Onions, asparagus and melons sprout and ripen there to help feed the world and win the war.

More Flowers In Postwar Gardens

—Photo Courtesy Perry-Morse Seed Co.

This year many a home dooryard will take on gay colors than for some years past. Victory Gardeners who concentrated on vegetable growing during the war can now afford to give more attention and space to flowers while continuing to raise enough vegetables for the table. From now on, seed of a greater range of flowers will be available, too. Certain kinds which were produced to a limited extent or not at all during the war are coming back.

You can find annual flowers suitable for almost any location on your home grounds. Is the soil sandy and inclined to be poor? Nasturtiums often like it better and bear more abundant bloom than when the seed is sown in more fertile ground. The same is true of poppies, portulaca, and zinnias.

Do you have a 'hot spot' where the soil is likely to dry out rapidly? Ornamental sunflowers, petunias, annual galliardia, calliopais, sweet alyssum, four o'clocks, and cosmos can endure quite a lot of heat and drought.

No annual flowers will thrive in all shade, but in a place where they get sunshine only part of each day you can enjoy the modest beauty of pansies, violas, bachelor buttons, and mignonette.

Plan for a border of annuals that will furnish cut flowers over a long season with plenty left on the plants for dooryard charm. Most flowers do well in the same kind of soil that will grow good vegetables.
