To Owners of Machine Guns and Other Automatic Weapons

Our Government is making an effort to secure a record of all machine guns and machine pistols imported into this country by members of the armed forces, and to prevent, as far as possible, any such weapons getting into the hands of reputed law violators, gangsters and other criminals. Under authority of the National Firearms Act, every importer of any such weapon is required to register the same with the Alcohol Tax Unit, and, in addition, urged to have the weapon rendered unserviceable by welding.

"As long as the weapon is serviceable, the law requires a payment of a \$200 tax on each sale, gift or other transfer of the firearm. If the gun is made permanently inoperative, it may be transferred as a war trophy without payment of the tax."

Every owner of any such weapon is expected to report to the Alcohol Tax Unit the loss or theft of any firearm that has been registered. The address of the Alcohol Tax Unit in this section is 428 Post Office Building, Greensboro, N. C.

Rationing News

SUGAR
Sugar Stamp No. 39 became valid for five pounds of sugar January 1, expires April 30.

Make ration applications by mail—save time and effort.

Housewives are advised by the Office of Price Administration to retain in their possession War Ration Book 4, now used only to obtain sugar.

Although the currently valid stamp 39 is the last stamp in War Ration Book 4, that is specifically labeled for purchases of sugar, spare stamps in that book will be designated as sugar stamps from time to time. For this reason, War Ration Book 4 should be retained even after Sugar Stamp 39 has been used, OPA emphasized.
