Make ration applications by mail—save time and effort.

Housewives are advised by the Office of Price Administration to retain in their possession War Ration Book 4, now used only to obtain sugar.

Although the currently valid stamp 39 is the last stamp in War Ration Book 4, that is specifically labeled for purchases of sugar, spare stamps in that book will be designated as sugar stamps from time to time. For this reason, War Ration Book 4 should be retained even after Sugar Stamp 39 has been used, OPA emphasized.

Tuberculosis today is unquestionably a greater public health and economic problem to the country than all acute communicable diseases combined.

HADLEY'S "The Jewelers"

Graham, North Carolina

Western Electric Granted Lease

The Justice Department in Washington has approved the lease of the former Fairchild plant in Burlington, to Western Electric Corporation.

A high justice official says a letter is being drafted by the justice department to war assets administration recommending the lease.

The company will make such electric equipment as radio and radar apparatus.

The proposed lease, which already has the approval of the reconstruction finance corporation with whom the company had negotiated, is for five years at a rate of \$155,988 a year, war assets corporation said. Cost of the building and land is listed at \$2,103,666.

Uncle Sam Says

This lad in the coal mines near Wilkes Barre, Pa., buys a Savings Bond every month because he is going to be married. "I've seen plenty of sickness and layoffs in my time," says Joe. "I've \$375.00 in War and Victory Bonds now. Ten years from now 25 bucks a month coming in. Imagine what that will mean to Irma and me, and maybe a couple of kids, specially if these diggings should be shut up for a while."

U. S. Treasury Department

The cost of tuberculosis among veterans of World War II, in terms of compensation, vocational training, insurance and hospitalization, has reached a billion dollars.

The Workman's Pay  
This is definitely a Christian teaching. The illustrious Paul, who wrote most of the New Testament, said, "Do not take account of your own interests, but the interests of others as well." Moreover the rule is not confined to the farm for its application. It is just as righteous and just as practical for the use of working men who want to improve their living standards. Thus: When do laborers enjoy steady work at high wages? Every thinking worker knows the answer. Labor prospers when men of wealth put out their money, expanding old businesses and building new ones. Of course it is for their own gain but it pays the workers. Mystery: Why don't labor's leaders do their best to make investments attractive? Such strategy would pay rich and direct returns. It is the only way to higher and higher wages.
