

THE GLEANER

GRAHAM, N. C., SEPT. 12, 1946

Local News

The belfry of the Providence Christian church was struck by lightning last night just as members of the church were leaving following prayer meeting. No one was hurt and no extensive damage was reported.

Mac Cook, son of Mrs. R. N. Cook, and one of North Carolina's most outstanding young artists, will give a part of the piano concert he gave recently in Washington, D. C., at the Burlington Music club Friday evening.

Miss Mary Elizabeth Wilson, a graduate of Meredith college this year, has been appointed field director for the County Girl Scout Chapter, to succeed Miss Sara Bell Thompson, who has resigned. Miss Wilson assumed her duties Monday.

The Burlington Community Fair opens next Monday night in the Kirkpatrick Heights area and will be open nightly throughout the week with special "Childrens Matinee" on Wednesday afternoon, when all children will be admitted free.

The Graham Music Lovers club will give a benefit card party Thursday, September 26, afternoon and evening. The proceeds from this party will be used by the club to help on their project: Sponsoring the Graham High School Band and Girls Glee Club.

Births

Mrs. and Mrs. Harper Barnes a daughter, June Harper, at Wesley Long hospital in Greensboro, September 8.

Dr. Johnson's Hospital

Mr. and Mrs. Charlie Thompson of Route 1, a daughter, Sept 6.

Mr. and Mrs. George L. King, Burlington, a son, Robert Wayne, September 8.

At Simmons-Linton Hospital

Mr. and Mrs. Clyde Webster of Route 2, a son, September 3.

Mr. and Mrs. C. F. King, Haw River, a son, September 3.

Mr. and Mrs. Joe Shaw of Burlington, a daughter, September 1.

At Dr. McDade's Hospital

Mr. and Mrs. Floyd Brewer, a son, Wayne Nelson, September 8.

Mr. and Mrs. R. W. Rudd, Route 5, Burlington, a daughter, G'oria Jean, September 5.

Mr. and Mrs. E. E. Barnhardt of Burlington, Route 6, a son, Preston Eugene, September 7.

Mr. and Mrs. N. J. Whitt of Burlington, a daughter, Linda Kay, September 7.

Mr. and Mrs. Dallas Smith of Burlington, Route 2, Wanda Joan, September 8.

PERSONAL

Mrs. S. S. Holt left Sunday for a visit with her sisters in New York and New Jersey.

Mrs. W. A. McAdams and Mrs. Dan Wiggins spent Tuesday in Goldsboro visiting relatives.

Mrs. Geo. Ross of Raleigh and Mrs. Frank Hunsucker and son, Frank, Jr., of High Point visited their mother, Mrs. W. R. Goley, the first of the week.

Mrs. Don E. Scott spent Tuesday and Wednesday in Winston-Salem visiting her mother, Mrs. Eugene Gray, and her daughter, Mrs. J. Van MacNair.

Mrs. Sidney Holt and son, Michael, who have recently been at Lake Waccamaw are visiting here before joining Mr. Holt in Asheville where they will make their home.

Mr. and Mrs. Edwin F. Thompson, who have been visiting Mr. Thompson's parents, Mr. and Mrs. Eli Thompson, S. Maple street, have returned to their home in Arlington, Va.

Mrs. Ione Scott Thompson left Wednesday to visit her daughter, Mrs. John W. Justice, Jr., and Mr. Justice in Cheraw, S. C., and her son, Mel Thompson, Mrs. Thompson in Fayetteville.

Jack Stratford left Tuesday night to resume his studies at Fishburne Military School at Waynesboro, Va., after spending the summer with his parents, Mr. and Mrs. John B. Stratford.

Music Lovers Club Meets

Mac Cook, pianist and David McAdams, violinist presented a brilliant and highly entertaining program to the Graham Music Lovers club Tuesday evening at the first meeting of the year. Mrs. H. W. Scott and Mrs. Lloyd R. Michels were hostesses to the club at the Scott home on East Harden street.

Mrs. Leo Grutsch, president, lead the singing of the federation hymn and welcomed the new members, after which business was discussed.

The club is sponsoring the Graham High School Band and Girls Glee Club this year, and toward this purpose a benefit card party will be given Thursday, September 26, afternoon and evening at the Community House.

A tea hour with punch and accessories served from a beautifully appointed table followed the program presented by the two young musicians.

New Heating Development Assures Warmer Walls

Among the new developments in heating which are being discussed today is "warm wall heating." The basic equipment for warm wall heating is similar to that for any modern forced-circulation hot water heating system. It consists of a boiler in a basement or utility room and a pump or circulator for mechanically forcing the water.

In addition — and this is the distinctive feature — there is a heat exchanger. The pump forces the hot water from the boiler to the heat exchanger. Here the heat from the water is transferred to air. The air then is permitted to circulate between the studding of the outside walls of the house, thus warming the inner surfaces of the outside walls. The outer surfaces of the outside walls are well insulated to prevent heat loss to the outside.

The fact that the inside surfaces of the outside walls are warm is said to produce a high degree of comfort. Because the heat is distributed over a large area, that is, the entire outside wall of every room, uniform heating and freedom from drafts is produced. Another advantage is the quick responsiveness of the system to the demands of the thermostat and changes in outdoor temperatures.

California Coastline
Of the 1,065 miles of California coastline, 259 miles are now publicly owned. The state legislature last year appropriated \$10,000,000 to acquire beaches for purposes of erosion control and development of extensive recreational areas bordering the Pacific. Cities and counties are being allocated this money on a fund-matching basis and are planning to put many millions more into coastal playground projects. New emphasis is being put on the need for such coastal development of recreation facilities by the war-accelerated increase in California's population. The war further intensified the need for shoreline rehabilitation because preoccupation with wartime activities allowed deterioration of some beach areas. Sewage pollution from Los Angeles in 1943, for example, caused quarantine against public use of 10 miles of excellent recreational beach.

Street Lighting

A poll by the Street and Traffic Safety Lighting Bureau, Cleveland, Ohio, shows that 96 per cent of the police officials replying from cities of 10,000 population and over believe adequate street lighting can reduce the number of traffic accidents and that 71.5 per cent consider their own cities do not have adequate traffic safety lighting. A Utah city cited 9 night traffic fatalities during one year before improved street lights were installed and none in the four years since. A Washington city reported a 73 per cent decrease in traffic fatalities following installation of adequate street lighting. In addition to the regular traffic markings, the painting of dark walls, bridge railings, fences, etc., with white paint can vastly increase the illumination through light reflection and help to guide and safeguard both motorists and pedestrians.

Hunter-Ward Wedding

Miss Sara Jane Hunter, daughter of Mrs. Scott Hunter and the late Mr. Hunter, was married to William I. Ward, Jr., son of Mr. and Mrs. W. I. Ward of Graham, at 4:30 P. M., Thursday, September 5, at the bride's home on Bueda Vista, Biltmore Road, Biltmore Forest, Biltmore.

In a simple service with only the immediate family present, the couple took their vows amidst a setting made lovely with giant dahlias and white gladioli before an open door with the beautiful woods of Biltmore Forest as a background. The bride's brother, Rev. J. Scott Hunter, just recently released from the navy after serving three years as chaplain, conducted the ceremony.

The bride, a petite brunette, wore a gown of white chiffon, featuring a princess style bodice of lace with long sleeves and finger tip veil of illusion. Her only ornament was a string of pearls, gift of the groom. She carried a bridal bouquet of gardenias and white lilacs.

Following the ceremony refreshments were served in the dining room with table covered with a white embroidered cloth, a centered with a silver bowl of red roses and tall white tapers in silver holders.

For travel, on her wedding trip, the bride changed to a gray dressmaker suit with top-coat of American Beauty red and wore a corsage of gardenias from her wedding bouquet.

Mrs. Ward, a granddaughter of the late Mrs. Corina S. Hunter of Graham, is a graduate of Woman's College of the University of North Carolina and Merrill-Palmer School in Detroit, Mich. For the past two years she has been a member of the faculty of Berea College, Berea, Ky.

The groom graduated from the Darlington School in 1938 and from the University of North Carolina in the class of 1942, entering the Marine Corps soon after. He spent two years in the Pacific with the 6th Marine Corps Division being a first lieutenant at the time of his release. Mr. Ward is a member of Phi Delta social fraternity, Phi Delta Phi Legal fraternity and is at present continuing his studies in the Law School at the University, Chapel Hill.

Find New Vaccines Effective Against Flu

Three physicians report that vaccination with virus types A and B will exert a protective effect against epidemic influenza.

During an epidemic of influenza B in November and December, 1945, the physicians compared a group of approximately 600 army men, enrolled at the University of Michigan, who were injected with concentrated influenza A and B vaccine with another service unit which averaged about 1,100 men who were not vaccinated. Only 7, or 1.15 per cent, of the 600 men were admitted to the hospital for respiratory infection during the epidemic period in contrast to 109, or 9.91 per cent in the unvaccinated service unit.

Influenza is an acute upper-respiratory infection. The symptoms are usually marked by a moderate fever, headache, general pains, extreme exhaustion, sore throat and an irritating cough. It is not fatal except when it leads to secondary pulmonary infections. The virus of influenza A was first isolated in 1933. A second strain of virus called influenza B was first identified in the epidemics of 1936 and 1940.

Compost Pile

The compost pile is an excellent source of garden fertilizer. In starting one select a well-drained spot away from the house and shielded from a front view by shrubbery or an out building. Drive down four stakes in the form of a rectangle or square. Space the stakes six to eight feet apart and fasten chicken wire or nail slats to these posts, making a pen. The first layer of material to be placed in the pen may be a layer of straw, hay or inverted grass sod. The second may be a few hampers of barnyard manure. The third layer can be weeds and grass clippings that have not gone to seed. The fourth layer may be several shovels of soil. Sprinkle over this layer a few handfuls of lime or two or three buckets of wood ashes. These layers may be repeated until the pile is as high as you want it. Each time leave the pile concave so it will catch some rain water instead of shedding all of it. If you start your compost heap during a dry spell, add a few buckets of water to each layer. Turn this mixture every six to eight weeks.

Evidence of tuberculosis of the bone has been found on the mummified bodies of early Egyptians.

Wall-Williams Wedding

Miss Margaret Geraldine Wall, daughter of Mr. and Mrs. Duell Sexton Wall was married to Claude Bernard Williams, Jr. son of Mr. and Mrs. C. B. Williams also of Durham, Thursday afternoon, September 5 at 5:30 o'clock in the chapel of the First Baptist church, Durham. Rev. J. Winston Pearce officiated at the double ring ceremony.

The bride graduated from Bragtown high school and Woman's College of the University of North Carolina, Greensboro. For the past two years she held a teaching position in the Graham public schools.

The groom graduated from Duke University. He attended pre-midshipman school at Asbury Park, N. Y., and received his commission as ensign in the U. S. Navy at Annapolis, Md. Following active duty in the Pacific he is now connected with Rowe-Walsh-Jones, Inc., of Durham and Jacksonville.

Mr. and Mrs. C. D. Isley, Misses Coanne and Janice Moon Isley, Ruth Meares and Mrs. Samuel Beck from here were among the out-of-town guests present at the wedding.

Army Recruiting Office Revises Itinerary

The U. S. Army Recruiting Sub Station at Burlington has announced a new itinerary effective Monday 16th of September. The Recruiter will be in the following towns as indicated:

Mondays: Pittsboro, 10 a. m. to 12 noon at the Courthouse; Siler City, 1 p. m. to 4 p. m. at the Post Office.

Tuesdays: Yanceyville, 9 a. m. to 1 p. m. at the Courthouse; Haw River, 3 p. m. to 4:30 p. m. at the Post Office.

Wednesdays: Mebane, 9 a. m. to 12 noon at the Post Office; Graham, 1 p. m. to 4 p. m. at the Post Office.

In addition the office will be open all day from 8 a. m. to 5 p. m. at the Post Office Room No. 27 in Burlington from Monday through Friday and 8 a. m. to 12 noon on Saturdays.

The office has received much valuable information in respect to former officers and enlisted veterans and advise these men to drop in and get this at the earliest possible date as the army is nearing its goal of one million men in the regular army.

3 LITTLE CHILDREN DOOMED TO SLEEP

While their mothers stand by and pray, two little girls and a boy stricken with a baffling scourge are slumbering away their childhood. Read about this pitiable case in the September 15th issue of

Cleaning Improves Efficiency of Boilers

Every heating plant needs a good cleaning at the end of the heating season. Cleaning is the basis of heating plant efficiency. Only a clean heating plant can give its owner a full return on the fuel. Whether the owner cleans the heating plant himself, or has a heating contractor do it for him, that's the time to check the system for necessary repairs and replacements. If it is a hand-fired boiler, the grates should be inspected and replaced if they are warped or broken.

If the basement is damp, it is advisable to place some lime in the ash pit and in the combustion chamber of the boiler. Lime will absorb moisture and prolong the life of the boiler.

Boiler doors and dampers should be left open during the lay-up period to help prevent sweating on the inside of the boiler during the summer. It is a good idea to spray flue furnaces with a light lubricating oil. Hinges of doors and moving parts of damper regulators, too, should be oiled. If you have an oil-fired or gas-fired boiler, better not try to clean it yourself but have a heating contractor do it. This applies especially to the oil burner and the gas burner and also to stokers. Don't tinker.

TAKING THE HEADACHE OUT OF MIGRAINE

Medical science has developed a preparation that is said to stop even the most violent attacks and which may lead them eventually to a permanent cure. Read about this new discovery in an illustrated article in the September 32nd issue of

HADLEY'S
"The Jewelers"
Graham, North Carolina

DEATHS

Mrs. Ruby King Ausley, 40, of Sideview street, died Tuesday morning following a serious illness of two weeks. She succumbed at the Alamance County Sanatorium and had been in declining health for the past nine months.

Funeral services were conducted Wednesday afternoon from the Graham Friends church. Burial was in Linwood cemetery.

Surviving are her husband, S. E. Ausley; her father, Joseph M. King; three sisters, and two brothers.

John Percy Bishop, 57, of Dennis, near Winston-Salem and brother of Mrs. David B. Long, North Main street, died at his home Sunday. Final rites were held Monday afternoon at Salem Chapel Christian church, with burial in the church cemetery.

Survivors other than Mrs. Long include his wife, two daughters, one other sister and two brothers.

Mrs. Kate McPherson Braxton, 81, of Rt. 2, Snow Camp, died Sunday night at her home, following a critical illness of nearly nine months. She was a native of Alamance county and the wife of the late John Braxton.

Funeral services were conducted Tuesday morning from the South Fork Friends church by Rev. G. C. Craven, assisted by Rev. Ed Harris and Rev. J. Norman Osborne. Burial was in the church cemetery.

Surviving are two daughters, two sons, eight grandchildren and six great grandchildren.

James Monroe Workman, 86, a rural mail carrier in Alamance county for years, died at his home in Burlington Sunday morning after a critical illness of one month.

Mr. Workman was a native of Alamance county, and during his career he became a prominent citizen of the county. He retired from the mail service 19 years ago, at the age of 67, ending his toil for the citizens at large at a time when automobiles and road improvements were beginning to make the work somewhat easier for mail carriers.

Funeral services were conducted Tuesday afternoon at Piedmont Presbyterian church by Rev. J. A. Boyd. Interment was in Pine Hill cemetery.

Surviving are one daughter, two sons, and one granddaughter.

Final rites for Rufus Carey Curl, 55, of Route 1, were conducted Friday afternoon from the Center Methodist church by Rev. Donald Durham, assisted by Rev. J. A. Burgess and Rev. Ed Harris. Mr. Curl succumbed to an illness last Thursday. Burial was in the church cemetery.

Mrs. Ossie Hanford Johnson, 37, of Burlington died in a local hospital Saturday evening following an illness of two weeks, one week of which was critical. She was a native of Alamance county and the wife of the late G. Guy

Johnson.
Funeral services were conducted from the Rich and Thompson Chapel Monday afternoon. Burial was in the Pine Hill cemetery.
Surviving are three daughters, three sons, one sister, four brothers and parents, Mr. and Mrs. Frank Hanford.

Final rites for Mrs. Blanche T. Jarman, 72, of Burlington, who died on Wednesday of last week, were conducted at the residence Friday afternoon with burial in Pine Hill cemetery.

Rationing News SUGAR

Spare Stamp No. 49, good for five pounds of sugar and scheduled to expire on August 31, continues good through September because of the shortage of sugar in some areas due to maldistribution.

OPA says that on the basis of latest surveys it expects the present sugar ration of five pounds every four months can be maintained. In that case, another sugar stamp will be validated January 1.

Spare stamp 49 is in ration book four, as well as in the special sugar ration books issued to veterans and as replacements.

Spare Stamp No. 9 good for 5 pounds of sugar for CANNING. Expires October 31, 1946.

Spare Stamp 51 in the family ration books, which became valid September 1, for five pounds of sugar, expires December 30.

Spare Stamp No. 10 good for 5 pounds of sugar for CANNING.

Make ration applications by mail—save time and effort.

Troublesome Beetles

Southern beetle or the spotted cucumber beetle attack beans only until their favorite weeds get ready and then leave. Usually there is no cause for alarm, but when beans grow slowly the relatively large size of the holes may point the need for doing something about them. But this is simple, merely dusting the top-sides of the leaves with rotenone. The control of the Mexican beetle is quite another matter. It feeds only on the lower surfaces of the leaves, never eats through. It lays its eggs on the bean foliage, and its young grow there; if the first generation has not consumed all the plants, a new generation is started. A sprayer or duster with an upturned nozzle must be used to put the insecticide where feeding is done. It should be deadly to insects, but harmless to man. Such is rotenone, obtainable as ready-mixed dust or as a concentrate for making liquid spray.

Famous Violin Makers

The Guarneri or Guarnerius family of Cremona, Italy, was famous for its fine violin makers and Joseph, who lived from 1687 until 1745, was the most renowned of all. He was called "Giuseppe del Gesu" from the inscription I. H. S. (meaning Jesus) which appears on his violins. Joseph, whose master was Gaspar di Salo, produced instruments of bold outline and massive construction, concentrating on tone rather than perfection of visible form. His experiments to obtain perfect tone resulted in a wide variety of violins. To discriminate between an authentic Guarnerius and imitations, of which there are many, a connoisseur should be consulted.

Cultivated Apples

The Romans cultivated many varieties of apples.

Uncle Sam Says

No farmer will question the link between this familiar September scene of filling up the silo and his United States Savings Bonds. Farmers must reckon with the future every moment of their lives. The crushed green corn stalks which they are storing away this month by tons will assure their livestock of winter feed. The Savings Bonds which they are also storing up will add to the security of their families.
