War Department Announces Plans For Integration Of RA Officers

The War Department announced today that approximately 70,000 applicants for Regular Army commissions under the first integration program earlier this year are being notified they are under consideration for the additional vacancies existing under Congressional action authorizing an increase in the Regular Army Officers Corps strength from 25,000 to 50,000.

It was also disclosed that on a date to be announced, additional applications for commissions will be accepted. Those who qualify under a program paralleling closely that employed to select a initial increment of 9,813 officers late in June will be added to the consideration list and given equal opportunity on the basis of qualification with those already listed.

While machinery for accepting additional applications is not yet functioning, full details are expected to be announced shortly and the program gotten under way probably by October 15.

It was pointed out that original applicants among the initial 9,813 given Regular Army commissions may assume they are on the consideration list unless they have been formally notified by the War Department to the contrary. Those who have been notified of rejection will not be eligible. Others will be permitted to restate their interest in being commissioned as a Regular Officer and to change their choice of branches, if they so desire, before the integration of the 25,000 new Regular Officers is begun, regardless of whether they are still on active duty or have reverted to civilian status.

Tentative plans for integration of those officers call for appointments to be made in four increments, in January, May, September and December of 1947. It is anticipated that greater emphasis will be given to commissioning officers in the ranks of Captain and Major than was given in the first integration.

From where I sit... by Joe Marsh Are Returning Veterans "Different"? During the war you heard a lot about how hard it was going to be for returning veterans to get adjusted to civilian life... how they'd be "different". Well, plenty of them have returned to our town, and a finer, sturdier bunch you couldn't ask for. Most of them are back at the same jobs... going with the same nice home-town girls (getting married, some of them, and setting up families)... renewing the same old friendships. Even their amusements are the same. Nothing more exciting than fishing Seward's creek or pitching horseshoes... enjoying an outdoor barbecue with friendly wholesome beer and pleasant talk. If they've changed at all it's in the direction of maturity and tolerance... tolerance for everything except dictators, and those who would destroy our democratic principles of live and let live. And from where I sit, that's another reason to be proud of them. Joe Marsh
