Entered at the Postoffice at Graham, N. C., as second-class matter.

## Government Coal

In England the government now owns the coal mines. The mines were taken over by the government. There, it is known popularly as "nationalization," and the coal industry and its mines are not expected to be returned to the former owners at any foreseeable date. Former owners were given government bonds bearing a low rate of interest. Under this plan the smaller stockholders could cash out their interests if desired, but it is very difficult at this time for the larger holders to exchange their bonds.

English coal mining has faced many difficulties in the past. The industry got underway long before any mining machinery was developed, and some of the mines have never adopted modern methods. In many, the vein depth has such wide variations that an uneven floor has been created, making it difficult to put in modern conveyors. Some mines are deep, some are shallow. To modernize and keep them operating at the same time, would require sinking many new shafts.

**Hindrance Factors**  
Londoners say these factors kept private owners from modernizing to a greater degree in the past: (1) Labor opposed it, fearing not enough jobs would be left. (2) Numerous government regulations retarded progress and hindered modernization. (3) Limited profits and high taxes made it hard to get reserves needed to pay for modern equipment. (4) Uncertainty with regard to the issue of government ownership, about which there had been constant agitation since World War I. Owners rightly saw no expediency in making large expenditures when there was threat of losing control of the investment, not knowing what type of remuneration they might expect.

Although the conditions set forth to justify the nationalization of England's mines are non-existent in America's coal industry, where equipment is modern and production efficient, these four obstructions to progress have presented themselves in various shapes to plague and sometimes to stall our own industries. We must come to realize that these factors which limit our progress could in time bring the same sort of "nationalization" which now retards Britain's industrial progress.

**No Success Yet**  
Has the new system given England the coal she wants? The answer is: No. Output per man-hour has not held up—much less improved—under the labor government and nationalization. All methods of recruiting adequate labor have failed. The month of May was one of the best, with nine-tenths of one ton produced per man per day, but since May the average has decreased. This figure compares poorly with an average of more than five tons produced per man-day in America.

The Minister of Fuel, Mr. Shinwell, has just warned that "there may be some stoppages in industrial undertakings this winter." He estimates coal reserves in Britain at the start of winter will be 5,000,000 tons below the safety margin. Referring to nationalization, Mr. Shinwell said: "If under the new program, the industry proves to be a failure, and doesn't secure the coal we need, it will be a bad outlook for the whole country." So far the outlook is bad.

## South Tyrol Strategic

## Northern Italian Boundary

Known as the Upper Adige region to Italians, the South Tyrol is the southward sloping mountain region between the Brenner pass and the Italian town of Salorno. It is somewhat larger than Delaware, with rugged peaks rising to 11,000 feet in height. The mountains flank the valleys in a grandeur that made the region one of Europe's most popular playgrounds.

Centuries ago the Germanic people from the north side of the divide began filtering through the Brenner pass and its neighboring corridors into these south-slope valleys, which they claimed. The name Tyrol, gradually applied to the Austrian land on both sides of the Brenner pass, originated with the castle of the counts of Tyrol, now a ruin on the Adige near Merano.

The Austrian overflow in time reached southward to claim a middle Adige area around Trento (Austrian: Trient). After Italy became a unified modern kingdom in 1861, however, it looked on the Alpine divide at Brenner as its strategic, natural border. By winning the South Tyrol as well as the Trento region in the peace-table decisions after

World War I, Italy attained the desired boundary. It also acquired a problem population in the South Tyrol, consisting of a quarter-million Austrians and only 20,000 Italians.

## Pressure Saucepans Speed

## Preparation of Foods

A demand for pressure saucepans far greater than supply in most localities speaks well for them. The saucepan works on the same basic principle as a pressure cooker for use in everyday cooking. By confining steam under pressure, this utensil can be heated to temperatures above boiling and permits exceptionally rapid cooking.

Quick cooking not only saves time for the cook, but saves fuel as well. Loss of food nutrients is cut to a minimum, too, because they are not boiled away in large amounts of cooking water.

Pressure saucepans, manufactured by a number of different companies, are made of materials which can withstand sudden temperature changes. This quality will permit quick reduction in pressure by pouring cold water over the saucepan. (But don't try this with your pressure cooker—that's a different thing!)

## Filariasis No Threat

There is no danger of filariasis, a mosquito borne disease, being spread in a community by the returning service man, according to Capt. L. T. Coggeshall of the navy. A study of several thousand sailors and marines reveals that their infection was extremely light, they were removed immediately from the area where the disease was prevalent and examination showed their blood to be free of parasites. Captain Coggeshall, who was aided in his study by 12 navy associates, says that filariasis was acquired by 10,431 navy personnel in the South Pacific area, mostly in the Samoan group of islands. Of these 2,595 were observed over a 17 month period at Klamath Falls, Ore. Filariasis are threadlike worms which are transmitted to man by mosquito bites. Without the intermediary mosquito the disease cannot be spread. The adult worms live in the lymph glands while the larvae migrate into the blood stream where they are usually found only at night. During the waking hours of the patient, it has been assumed that they retire to the lungs, kidneys and deeplying tissues. The filariae may be present in the body without causing any symptoms. It is only when the worms block the lymph channels that definite symptoms occur, such as inflammation of the lymph

glands which causes fever and painful swelling of the affected parts.

## Good Grass

Grass should get a good three-inch top growth before it's cut in the spring. This allows the top to manufacture food for the roots and aid in root development. When you get around to mowing the lawn, don't cut the grass right down to the ground. If you adjust the lawn mower so the blade snips off the grass about an inch and a half to two inches from the ground, your grass will be sturdier and better able to withstand weeds, heat, drought, insect and animal pests and kids riding their bicycles across it.

## Uncle Sam Says

All of us are discoverers in some fashion. During the war millions of my nieces and nephews made one of the most important discoveries concerning their future happiness... that it is easy to save effectively. Merely by setting aside a portion of their current income each pay day for United States Savings Bonds, great numbers of you are building backlogs for emergencies such as a new home, education for your children, and travel.

This, the 14th day of November, 1946  
ANNIE I. THOMPSON,  
Administratrix  
Cooper, Sanders & Holt, Attys.

## Notice of Re-Sale

Under authority of a judgment of the Superior Court of Alamance County in a special proceeding entitled "C. P. Williamson, Decedent, vs. D. B. Brown, and others, vs. Hattie Lea, widow, Catherine Lea, and others," and under authority of an order of re-sale in said action, the undersigned Commissioners will, on

Friday, November 29th, 1946,  
at 11:00 o'clock, a. m.,

at the Courthouse door in Graham, North Carolina, sell at public auction to the highest bidder for cash, the property described as follows:

The following lots or parcels of land lying and being in Haw River Township, Alamance County, North Carolina, and being Lots Numbered Four (4), Five (5), Six (6), Seven (7), Ten (10), Eleven (11), Seventeen (17), Eighteen (18), and Lot No. Three (3), of the property known as the Brown Lea Estate, as subdivided by J. Mark McAdams, Surveyor, July, 1946, plat which is duly recorded in the office of the Register of Deeds for Alamance County, North Carolina, in Book of Plats No. 4, at page 126, and a reference to said plat is hereby made for a complete description of said real property by metes and bounds.

This is a re-sale and bidding will begin on Lot No. Three (3) at \$220.00; on Lot No. Four (4) at \$225.50; on Lot No. Five (5) at \$242.00; on Lot No. Six (6) at \$313.50; on Lot No. Seven (7) at \$148.50; on Lot No. Ten (10) at \$187.00; on Lot No. Seventeen (17) at \$121.00; and on Lot No. Eighteen (18) at \$813.75; on Lot No. Eleven (11) at \$203.50.

The purchaser will be required to deposit ten per cent of their bid when the same is knocked down to him, and the balance upon confirmation.

This 13th day of November, 1946.  
LOUIS C. ALLEN and  
CLARENCE ROSS,  
Commissioners

Commissioner.

## Re-Sale of Home and Valuable Tobacco Land

Under and by virtue of the authority vested in me by the last will of Thos. B. Byrd, and an order of the Superior Court of Alamance County, I will offer for Public Re-Sale to the highest bidder, on

Saturday, November 30th, 1946,  
at 12:00 o'clock, noon,

on the premises, the following real estate:

FIRST TRACT: Consisting of two lots as follows:

(a). Beginning at a rock, corner of C. L. Gilliam, T. B. Richmond and Leelle Garrison, thence in a northern direction 5 1/2 rods to a pine tree; thence 28 rods to pointers in a N. E. direction; thence 29 1/2 rods, thence S. W. direction to a rock, the beginning point and containing 9-100 acre more or less.

(b). Adjoining the above described lot and beginning at a rock, corner with Gilliam and Vincent in the middle of public road to Vincent Mill, thence N. 10 deg. E. 1.68 chs. to a rock, corner with R. W. Vincent; thence N. 0 deg. 30 min. E. 4.28 chs. to a rock in said Vincent's line, thence S. 51 deg. W. (B. S. 51 1/2 deg.) 12.65 chs. to a rock, corner with said Gilliam, Richmond and Garrison on the north side of said Road; thence N. 70 1/2 deg. E. into and with said Road 6.56 chs. to a bend N. of a B. Jack tree; thence S. 38 deg. E. 8.34 chs. to the beginning and containing 2.39 acres more or less. Upon this tract is the home place, two tobacco barns and other improvements.

SECOND TRACT: Lying across the Road from the above tract and beginning at a rock, corner with S. Y. Baynes lands (Now O. S. Sellers) and running thence N. 13 deg. W. 12.31 chs. to a rock, corner with lot of R. W. Vincent; thence S. 79 deg. E. (B. S. 80 1/2 deg.) 42.43 chs. to a rock on West bank of Stagg Creek, corner with said Vincent, lot measured to center of Creek; thence down said Creek S. 13 deg. W. 4.60 chs.; S. 56 deg. W. 1.90 chs.; S. 28 deg. W. 7.55 chs. to the center of said Creek (Rock on the west bank of Creek); thence N. 78 1/2 deg. W. (B. S. 78 deg.) 33.7 chs. to the beginning and containing 47 acres more or less.

This property is good tobacco land with usual buildings.

Time of Sale: 12:00 o'clock, noon, November 30th, 1946.

Place of Sale: On the Premises near Sellers' Filling Station.

Terms of sale: Reasonable terms may be made or purchaser may pay Cash.

This is a Re-Sale owing to misunderstanding.

This, the 30th day of October, 1946.  
D. M. VINCENT,  
Administrator, c. t. a.  
Mebane, R.F.D. No. 3.  
J. S. Gook, Atty.

Wednesday, November 20th, 1946,  
at 11 o'clock, a. m.,

at the Courthouse door in Graham, North Carolina, sell at public auction to the highest bidder for cash, the property described as follows:
