**IS THERE SUCH A THING AS PERFECT WOMANHOOD?**

"No"—claim medical authorities, who ought to know! Nature has so constructed and physically endowed woman that in many cases she's apt to suffer certain distressing symptoms during her life. For instance, when she enters womanhood—or during the menopause, the period when fertility goes away.

Now if on 'certain days' of the month—female functional monthly disturbances are causing you to suffer from pain, nervous distress and feel so tired, cranky, you snap at your children and husband—then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. It's famous for this purpose.

Made ESPECIALLY For Girls and Women Pinkham's Compound does more than relieve such monthly pain. It ALSO relieves accompanying nervous tension, irritability and weak, listless feelings—when due to this cause. Taken regularly throughout the month—this great medicine helps build up resistance against such distress. A thing any sensible woman should want to do!

Lydia Pinkham's Compound is also very effective to relieve hot flashes and those funny, embarrassing feelings during the years 38 to 53—when due to the functional 'middle-age' period peculiar to women.

Pinkham's Compound is worth trying!
