FRIDAY, April 29 1910.

Not even the Republicans are satisfied with the present republican administration.

SAMUEL L. CLEMENS, better known as "Mark Twain" the great humorist, died on last Saturday.

If you do not attend the primaries and you are not satisfied with the nomination you have no one to blame but yourself.

If the Democrats will only hold their heads and get to work to win they will have a regular walkover in the next Presidential election.

When a set of men admit their crookedness by providing for investigations of their crooked actions what are the people to expect from such investigations.

Quite a heavy snow storm visited the western part of the United States the past week, reaching from the gulf to Canada, which caused considerable damage to fruit and crops.

The Attorney General says that if you pay your poll tax by Monday the 2nd day of May, you can vote, but also suggests that it would be better for all good Democrats to pay theirs by Saturday, April 30th.

GOVERNOR CHAS. E. HUGHES, of New York, was appointed Monday to Associate Justice of the United States Supreme Court by President Taft, to fill the vacancy caused by the death of Justice David L. Brewer.

HON. DAVID L. WARD, of Newberne, was appointed on Saturday morning by Governor Kitchin to fill the vacancy on the Superior Court bench caused by the resignation of Judge O. H. Gaion. From the many complimentary notices we feel safe in saying that he will do honor to himself and the position.

The insurgents in Congress have again lined up with the Democrats and succeeded in giving the Cannon machinery another heavy blow. While they are to be congratulated for being on the right side once in awhile, we can't help but believe this to be a plan, thoroughly understood by all, to fool the people in order that their next elections may be more secure. But the people are not much in a humor to be fooled again soon by such men as has brought about the present state of affairs.

PRICE OF COTTON TOO HIGH.

Says The Republican Administration and Turns its Guns on the Great White Crop.

The Attorney-General of the United States has hauled into the Federal Courts a few men who have been trying to see to it that cotton brings what it is worth in view of the short crop.

The same Republican party moved not a hand to rescue the farmers when cotton was five cents a pound. Last year it put down the price of his tobacco two cents a pound and now all the power of the government is to be exercised in hammering down the price of cotton.

Farmers have long memories and they will not forget two things.

(1) The Republican party put the extra tax of two cents a pound on the farmer's tobacco. (2) The Republican party is today trying to put in jail the men who are trying to give the farmer a fair price for his cotton.

Died

Mr. James Ellis, who lived about two miles southwest of Lousburg died on Tuesday. His remains were interred at Cook's Chapel on Wednesday afternoon amid a number of friends and relatives.

Mr. J. A. Turner For the Legislature.

If the people of Franklin county will elect the genial Jim Turner to represent them in the Legislature he will not go to sleep in his chair in the legislative hall, but will be ever awake, ever alive, ever fighting for the best interest of his people. With a head full of sound horse-sense, full of wit and humor and with a pleasant personality that would render him so popular that his every utterance would be received and listened to with the most profound attention. Reared with the masses having struggled with the masses, he knows their needs, he knows their sufferings and is fully competent to fight for and push laws that would result in their interest.
