A HELPING HAND.

Is Gladly Extended by a Louisburg Citizen.

There are many enthusiastic citizens in Louisburg prepared to tell their experience for the public good. Testimony from such a source is the best of evidence, and will prove a "helping hand" to scores of readers. Read the following statements.

Mrs. A. B. Allen, Main Street, Louisburg, N. C., says: "I can recommend Doan's Kidney Pills in return for the great benefit I derived from their use. I suffered from kidney and bladder trouble for a long time, the kidney secretions being unnatural and containing sediment. My back ached constantly and I had pains across my kidneys. Although I tried many remedies, I did not succeed in finding relief until I finally procured Doan's Kidney Pills. It required the use of but one box to relieve me and make me feel better in every way. I shall be glad to

confirm what I have said for publication to any person who may call upon me."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Why the Boys Beat Men—Raising Corn.

Why is it that the boys who join the corn clubs make such large yields while the average corn yields of the South remain so low? No doubt these boys have the advantage of good land, but they beat the men on the same sort of land.

The answer to the question is not hard to find. These boys employ modern ideas, up-to-date information, and approved methods of cultivation. They know nothing of corn growing to begin with, and know that they do not. Many of the men know nothing of corn growing, but don't know it. The boys have nothing to unlearn and all to learn. They go about their tasks ready to learn, and read and study the literature of the question with minds open to instruction. In short, they learn, and practice modern, scientific methods of corn growing, and consequently succeed. The men must follow the same course to produce large yields.

The fact that these boys are more open to instruction, that they learn more readily because of no prejudices to overcome and no long-formed habits to change, brings home to us the importance of agricultural instruction in the rural schools. To fit the teaching of our schools to the life of the pupils is necessary before the gospel of good farming can reach the hearts of all the people. When will our rural school authorities wake up to this fact and attain the courage to act?—Raleigh (N. C.) Progressive Farmer and Gazette.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.
