Jimmie Johnson's little infant died last Friday two weeks ago, and was buried at Popes Chapel. Its parents have our deepest sympathy.

Tom Harris while having his house painted had the misfortune to have the old painter fall from the top of the step ladder in the middle of his bed with a bucket of paint which entirely ruined the bed clothes.

Jerry Champion and wife were called to Henderson last week on account of the illness of their grandson.

Bean Thomas, colored, who has been employed by S. A. L. as brakeman for many years, died here Saturday evening.

We are very glad to learn that Mr. J. B. Woodlief who has been very sick at his sons, Mr. L. A. Woodlief, is improving very rapidly.

We are glad to know that Mr. Ed Hight, who has been sick, is improving very fast.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the stomach nor to temporarily stimulate the heart or kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell.

Garden Notes.

Keep the hoe going in dry weather and you will not need the watering pot often.

The wheel hoe will save many a backache and do the work of three hand hoes.

Plant the rows all one way—north and south—so the sun can strike both sides.

Do not plant short rows, but let them run the whole length of the garden if need be—why not?

Wild strawberries have the most delicious flavor. They are easily transplanted to the garden.

The only really successful garden is the clean garden.

Making a good garden is a man's job. Do not leave the hard work to the women folks.

Cauliflower can be grown more easily than cabbage. It is always in demand and at good prices.

A handful of grain dug into an ant hill will bring the chickens to it and then goodbye to the insects.

A plant of Swiss chard sown adjoining the poultry yard will supply greens all summer provided the fowls are not allowed to eat it more than an hour a day.

Tarnips as a second crop more than pay the time and work put in on them.

THIS LETTER NEEDS NO FURTHER COMMENT

Jefferson Standard Life Insurance Co., Raleigh, N. C. Roxboro, N. C., March 25, 1910
Gentlemen:—I acknowledge receipt of your check for \$100 made payable to me. This check is for the first installment under the Disability Benefit under your policy No. 2197. Instead of taking the paid up policy which I could have done, I elected the ten installments of \$100 each, as it gives me the cash while I am living. When I took out this policy I was in good health, but contracted Pulmonary Tuberculosis and am now abolutely unable to carry on my work. This feature of your policy is certainly a godsend to me. My one regret is that I did not take a large policy when I could get it. My application to you for the Disability Benefit was dated March 21, and your check was dated March 23, and I heartily thank you for your promptness in this matter.
Yours very truly
(Signed) WILLIE A. SHOTWELL.
