**TAR DROPS.**

—Don't throw stones if you live in glass houses.  
 —Stop growling about hard times and do something.  
 —Business in Louisburg seemed to be on the increase.  
 —Jones Macon has taken a position with L. P. Hicks.  
 —Hear Gov. Kitchen at Franklin ton Tuesday of next week.  
 —Cotton sold on the Louisburg market yesterday for 13 1/2 cents per pound.

—Quite a number of our people went down to Dicken Wednesday to hear Hon. Claude Kitchen.  
 —The children of the colored Presbyterian school gave a concert in the court house Tuesday night.  
 —F. W. Whelless has just about completed his residence on church street and he now has one of the prettiest homes in Louisburg.  
 —J. A. Turner has leased the room recently vacated by D. E. Miller the jeweler, and has fitted up a very nice office, where he will conduct an extensive insurance business.

—J. P. Winston has begun the work on his automobile garage on Nash street. The replacing the old blacksmith shop with a brick building will improve the looks of that part of town.

—We thoroughly agree with a friend of ours who handed us the following this week: "Won't it be a pity to put the filthy chicken coops back on the handsome granolithic sidewalks?"

—Gov. W. W. Kitchen will speak at Franklinton Tuesday and everybody in Franklin and adjoining counties are invited to go out and hear him.

—Don't forget to go over to Franklinton to hear Gov. Kitchen next Tuesday. There will, no doubt, be a special train to leave Louisburg about 1:30 o'clock to accommodate those going from this section.

—We would suggest that the "city fathers" place the old oil street lamps back into commission that the citizens of Louisburg can see how to walk the streets these dark nights.

—With a fifteen thousand dollar electric light plant, and that claimed to be making from four to six hundred dollars profit monthly, and then not being able to have lights on the streets these dark nights, is a matter the people of Louisburg don't understand.

—J. O. Sledge, accompanied by W. R. Fulghum, left Monday for Enfield, where they go to assist in organizing Halifax and Edgecombe counties in the Farmers Union. Mr. Sledge has been at this work some time and has been quite successful. We feel sure these two hustling young men will succeed in their new undertaking.

—Possibly no town in our state with a population not greater than is claimed here, can boast of as many good horses as are owned by our local horsemen. Great as has been the future predicted for the automobile, man has manifested no great desire to forsake his old friend, the horse, and today fine roadsters are in greater demand than ever before. Not only are good roadsters eagerly sought, but those standard bred and of acknowledge speed are also coming in for their share of the honors.

—If there is one thing in which churches, as a rule, need to be more careful, it is the matter of preachers' salaries. With an indifference and an insensibility which we cannot understand many churches seem to think that a contract between themselves and the minister is no contract at all. They promise him a definite salary then pay him what ever is convenient. The gas man, the coal man and even the sexton must be paid, but the debt owing the minister is looked upon as altogether righteous and proper.

—Judge C. M. Cooke who spent Sunday at home, is holding Wake Superior Court this week.

—W. W. Holmes was exhibiting two ears of corn here yesterday that weighed three pounds and three ounces. He says these were raised on high land.

—We still have one or two men in this community who stand around on the street corners and from morning until night complain about the town, their neighbors, their taxes and the weather. Such men are mighty common clay and it is fortunate we have so few of them. Such men are of no use to the town, their families or their God. They seem to live but no one can tell how. Like mosquitoes and flies, they are not fatal but disagreeable to have about. It is not necessary to publish the names of the two or three who infect this community for all know them.

**HOW TO CURE RHEUMATISM**  
 It is an Internal Disease That Requires an Internal Remedy.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an eternal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside," sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50 cts. and \$1 a bottle. In tablet form at 25c. and 50c. a package. For sale by Beasley-Alston Drug Co. Louisburg, N. C.

**Important Notice.**

I take this method of informing my customers that on and after October 1st I will not sell any more beef on time. I regret to have to make this ruling but as I cannot make collections it becomes necessary. I will take pleasure in delivering all orders to any part of town, but remember that cash must accompany same. This is not meant for a selected few, but for everybody. It is impossible for me to continue the market without making all my collections, so remember to send the cash when you order beef.  
 Respectfully,  
 W. E. MURPHY

**Who Invests Your Money**

The money you earned last year but let get away from you in "little dribs." Rest assured someone has it invested and is getting the benefit of its earning power. Keeping your dollars working for you means that you and not someone else reaps the full profit of your labor. Why not start an account with us and save part of your earnings—make your own investments? This plan has been profitable to others. It is safe and has other advantages in addition to the amount you accumulate.
