Report of Department of Labor and Printing.

The Tenty-fourth Annual Report of the Department of Labor and Pinting has just been issued. The experience of former years, as to what constitutes real and succinct information and the means of presenting it in its most compact form have been brought to bear on this latest edition, and the effect is seen in the increased amount of matter without noticeable increase in the size of the book.

In his letter of transmittal to the Commissioner Shipman says that while he believes the greater number of mills and factories, required to be regulated by law, are honestly endeavoring to comply with the con ditions prescribed, some may be merely obeying so much of the law as caution demands, thus placing the former class at a disadvantage. For the protection of children mainly, and the lawabiding manufactures as well, he recommends the passage of a factory inspection law, for the purpose of seeing that the labor laws are being complied with by those who may not already be doing so. Also that sanitary conditions and fire escapes are provided, and that ordinarily safe appliances are furnished. Furthermore, Mr. Shipman goes on record as endorsing a sixty-hour week for factory employees. The contents covers: Official State Register for 1910; a chapter each on farms and farm labor; trades, labor organizations, misce leanous factories, cotton, woolen and silk mils, knitting mills, furniture factories and newspapers, with an outline of the results of the investigations of the Department for the past ten years; with an appendix giving the present labor laws of the State, and a classified and alphabetized list of all the manufacturing concerns on the list, whether these have made a report to the Departmeut or not.

The chapter on farms and farm labor shows an increase in average high wages over last year of \$1.00 per month. Cost of raising different products is given as follows: Cotton, per 500-lb. bale, \$33.37; wheat, per bushel, 72 cents: corn, 52 cents; oats, 35 cents; tobacco, per 100 lbs., \$7.40.

The chapter on trades shows wages in the different lines of work, hours Miss Annie Pool, of Raleigh, spent and general conditions of employment. There has been added this year a list of labor organizations in the State The number of local organizations in the State is given as 110. Only 47 of these, however, report, Membership, of 47 heals, 1.730, average daily wages of members, \$2.883.

Chapter V. Miscelianeous Factories, shows the employment, by 561 establishments, of \$50,835,399.00 actual captal, with an estimated plant value of \$20,458,731; there are employed in these There are several in this community factories 34.107 persons This chapter includes the factories not classified under specific heads.

Chapter VI. Cotton, Woo en and Silk Mills, shows 325 mills, with a capital of \$53,097.454; 3,348,022 spindles, 56,516 just pining for a kind word. Plenty looms, 550 braiders, 7,762 cards employto find fault-plenty to discourage-plenty to speak harsely-plenty to sneer Ob so faw, take the time ting milis reported, 77; 57 of which report capital of \$3,619,100; spindles, 109,-680; mnitting machines, 8,200; sewing machines, 699; employing 7,199 persons and using 6,210 horsepower.

Chapter VII, Furniture Factories, shows 106 factories, 103 of which re-port capital stock of \$3,451,140; 6,842 employees, and much other information in detail.

Chapter VIII, Newspapers, shows an increase of ten in the number of publications over last year, and an increase in circulation of 155,822 copies. Total number of publications, 324; total circulation, 1,247,278

Lesson VIII .- First Quarter, For Feb. 19, 1911.

THE INTERNATIONAL SERIES.

Text of the Lessen, I Kings xix, 1-16. Memory Verses, 11-13-Golden Text, iss. xi, 31-Commentary Prepared by Rev. D. M. Stearns.

In the last lesson we left Elijah in humble, patient, persevering, believing prayer on the top of Carmel, down upon the earth with his face between his knees, commanding his servant to go again and again, even seven times, until he should see some indication of the promised rain. At the seventh time the servant saw a little cloud like a man's hand, and soon the heaven was black with clouds and wind, and there was a great rain, "How suggestive the little cloud was of the man's hand that was taking hold of God in

How great the contrast between Ahab enting and drinking, enjoying bluself, thinking more of horses mules than of perishing people (xviii, 5), and the man of God caring only for the glory of the living and true God, whom he represented. Since the Lord said to Elijah when He sent him to meet Ahab. "I will send rain upon the earth" (xviii, 1), why should Elijah need to pray so earnestly for it? This is perplexing to many, but it is His way. Concerning His great promises to Israel in the future He says, will yet for this be inquired of by the house of Israel to do it for them" (Ezek. xxxvi. 37).

The question should search us, Have we anything of the zeal for God and persevering prayer that Elijah had? When Abab reached home and told Jezabel all that Elijah had done she Jezabel all that Edjan had sent a mes-was engry indeed and sent a mes-senger to him with a threat that she seager to him with a threat that she would have his life within twenty-four hours. Now comes the strange part of the story in the seemingly sad fact that the man of God who feared not that he was all the seemingly sad fact that the man of God who feared not Ahab nor all the prophets of Bnal should flee for his life at the threat of should nee for his life at the threat of this wicked woman when it seemed that he was needed so much just at that time to lead the people back to the God who had answered by fire. By a look in the wrong direction he seemed to lose his hold on God. Lifts people when he saw the wind holster. Peter, when he saw the wind boister ous, he began to sink (Matt. xiv. 30). If we would be established we must always see the Lord alone and remember if God be for us who can be

As he sat under a juniper tree far away in the wilderness he realized that he was no better than others and not worthy to live. The conflict was too severe, and he would fain be at rest. He was a man just as weak as any of the world fain be at rest. Wildle the called.

"Hello! 'answered the voice at the us and strong only in the Lord. The Lord, who is always full of compason, had not forsaken His weary and five-nine" discouraged servant, and as he lay and slept one of those blessed ministering spirits (Heb. i. 14) prepared something for him to cat and drink and awaked him that he might be refreshed wit! food as well as sleep. Again he slept, and again he week. and again he was awaked to partake of more food, in the strength of which be went forty days and forty nights unto Horeb, the mount of God (verse 8).

There he lodged in a cave, and the same Lord who cared for him at Cherith and Zarephath must have cared for him at Horeb, but what were his meditations? Did he think of him to whom the Lord here appeared in the bush that burned, but was not consumed, the thunders and lightnings and quaking of the mount at the giving of the law (Ex. iii and xix), and did he long for some manifestation a God? Could he forget the answers from heaven It is a sad thing to lose in any way or for any length of time the conscious fellowship with God which

is our privilege. Well, in due time the word of the Lord came to him with the question. "What doest thou here, Elijah?" (Verses 9, 13.) His answer each time was that he had been very jealous for the Lord God of hosts and that he was the only prophet left and they were seeking his life (verses 10, 14).

After his first reply he was told to go forth and stand upon the mount before the Lord. Then came a great wind which rent the mountains and broke in pieces the rocks before the Lord, then an earthquake and then a fire, but it was not until after the fire there came a still small voice that Elljab heard the* second question, "What doest thou here?" After all that he had just seen and experienced his answer is the same, and he is still occupied with himself and his zeal for

God and his importance to God. He was a man of mighty deeds and evidently thought that only in some mighty way could Israel be cleaned from her idolatry. God has a way so different from our way ofttimes (Isa. lv. 8, 9), and it becomes us to hear and heed His voice, "I will work, and who shall hinder it?" (Isa. ziiii, 12.) How stattgestive and search. ing his commission now as well as the twice repeated "What doest thou here?" "Go, return, anoint Elisha to us saids and appoint another.

HOW TO CURE RHEUMATISM It Is An Internal Disease And Re-

quires An Internal Remedy. The cause of rheumatism and kindred diseases is an excessor uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal ramedy. RUBBING with Oils and Liniments WILL NOT CURE, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fiber of yotten wood.

Science has at last discovered a perfect and complete cure, which is called Rheumacide. Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide
