AND Raleigh is going to try for a commission form of government.

The quacking of the Republican "lame ducks" around the White House makes the place seem like a barnyard.

Will the women voters of Kansas, now that they have the franchise, take the hen for their emblem instead of the rooster?

WEST VIRGINIA will have to pay her share of the old \$30,000,000 debt of Virginia, which the United States Supreme Court decides is \$7,182,507.

ELINOR GLYN says that she fears the world does not understand her. Perhaps some of the librarians did not understand "Three Weeks", but they suppressed it.

It looks dark for Diaz in Mexico, but the United States should give the other faction a fair field and no favor, for they appear to be fighting for their freedom rule.

The Republicans having ruined our Merchant Marine through protection and other legislation, it will be the duty and the pleasure of the Democrats to try and revive it.

The United States Supreme Court in a unanimous opinion on Monday upheld the corporation tax. The opinion was written by Associate Justice Day and is in detail.

The Movement of troops by the United States to the Borders of Mexico seems to be assuming broad dimensions. At present there is no telling what will be the outcome.

The Weather Bureau has gone back to its old plan of 25 years ago and only predicts "probably" this or that, just as it used to do when "Old Probabilities" was the predictor.

BALLINGER and the President both seem to have feared impeachment proceedings against Ballinger by the new Democratic House, and that whitewash would not now be so available.

FRANCE has declared, through the new Ministry, that she is for peace—if she has to fight for it; while a policy of pacification is endorsed it is to be backed up by a "strong army".

The way the Democratic Congress will look at it will probably be that the Ballinger coat of whitewash will not stick, and they will daub him with a coat of tar—if they discover that he deserves it.

The young men will be flocking back to the farm if Mrs. O. H. P. Belmont's plan for a school of farming for young women proves a success and the girls are goodlooking enough to attract the boys.

TARIFF reciprocity is a two-edged sword, and as far as the agreement with Canada is concerned it may be a good deal of a boomerang. It might prick the inflated balloon of farm land prices in the West.

How will this country get along without Aldrich, Hale, Depew, Barrows, Carter and other Republican Senators who have been discarded? It is safe to bet that they all think that popular government is a failure.

The Potter's Union of Crooksville, Ohio, decided that Carnegie's money is tainted and protested against the acceptance of \$20,000 from him to build a Carnegie public library. These highly protected potters have not much advantage over Carnegie as far as tariff tainted money is concerned.

The Supreme Court says Norman Lewis must be executed in the fact that they refuse to grant him a new trial.

Governor Ross, of Massachusetts, thinks that the progressive faction of the Republican party will join hands with the progressive Democrats and that the Republican leaders by voting for Lorimer and opposing progressive legislation have sounded their own death knell.

In the recent modification of the Southern Cattle Quarantine we notice among the thirty counties in six states that have been released in whole and in part, the counties of Franklin and Wake. There was only six counties released in the State and all of these were entirely turned loose.

The February edition of the Wake Forest Student was a very creditable publication. It contained the photos of our public men who graduated at this institution among whom we noticed some of our most prominent men in today's governmental affairs. We take pleasure in mentioning the fact that the management of this publication is in charge of Mr. M. Eaton Winston, a Franklin county boy, and formerly from Louisburg.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Louisburg readers have seen the constant expression of praise for Doan's Kidney pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. B. F. Biggs, 412 Andrews Ave., Henderson, N. C., says: I suffered intensely from backache and pains in my loins and I could not get my proper rest at night. Whenever I attempted to stoop or lift, sharp pains seized me and I was in such bad shape that I could not remain on my feet any length of time. I wore plasters, but they did not help me to any extent and finally a kidney weakness made its appearance. When I read about Doan's Kidney Pills, I obtained a box and since using them I have had no more aches or pains and my kidneys have been normal." (statement given February 4, 1908.)

A SECOND STATEMENT

On December 12, 1910, Mrs. Biggs said: I gladly confirm my former statement, regarding Doan's Kidney Pills. I have not had any trouble from my kidneys or back for a long time and my health has been of the best."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States.
