The officers should keep strict watch over places like pool rooms and see that the law concerning minors entering is strictly complied with.

THOMAS STONE, who was sentenced to the roads for eight months for larceny at the January term of court had his sentence commuted by Gov. Kitchin, the past week, to four months.

A POORLY managed pool room is one of the worst enterprises a town can have. It is not only a source of trouble to the officials, but is continually leading the younger boys astray.

On Saturday morning fire destroyed two dwelling houses, a Methodist church and two stores near the Cotton Mill section in Henderson. A young lady 17 years of age lost her life in the fire. The damage was great, but partly insured.

If there is no law to prevent minors from frequenting pool rooms and other places of such nature, there should be and the town fathers would do the younger generation of Louisburg a great service by making such a law, and having it enforced, at once.
