

Why She Chose Him
 She chose him out of all the crowd
 Of men that came and went;
 His voice was low, his tie was loud,
 But she was well content.
 The first man's education was
 Perhaps more finished—and
 Another's manners gave her cause
 As being much more grand.
 Another's garments fitted him;
 Another's hair was curly;
 Another's name was "Arthur"—Jim
 Was chosen by this girlie.
 And not for wealth and not for love
 Was Jim by Mabel chosen—
 But that he was the one man of
 The whole lot that proposed!
 —Boston Traveler.

The State Fair.
 We have just received from the North Carolina Agricultural Society a striking little booklet that is a bright gem in its class. It is tiny, but full of facts and figures about North Carolina and her Great State Fair that will be held for the fifty-first time at Raleigh on October 17, 18, 19, 20, 1911. There are only eight small pages and a neat, very tasty cover, all of a size to fit in the ordinary envelope. Cuts show a birdseye view of the Fair Grounds while the Fair is going on and Lincoln Beachey flying in his Curtiss aeroplane over Niagara Falls.

There is an appreciation of North Carolina that carries a point in every paragraph, a fact in every sentence, clothed in a style as attractive as the story it tells, and all in one small page.

The marvelous progress of the State is told in a comparative table of crop figures for 1905 and 1910, and a similar alignment of statistics of the manufacturing industries. In addition there are comparative values of farm land and buildings, implements and machinery, labor and fertilizers.

In a brief review of the work of the State Fair the booklet calls attention to the fact that it is chartered without capital stock, its real property being held in trust to secure a bonded debt, any profits made going into a surplus which is spent in improvements and increasing premiums. The construction of the reinforced concrete agricultural building at a cost of \$7,000, the new building for women and other betterments last year are touched upon, as well as the modern poultry building to be ready for the coming Fair. Figures show 83 solid carloads of exhibits last year against 42 in 1909; 3,501 separate entries against 1,201, and \$8,191.54 net premiums paid against \$6,598.97. As evidence that the Fair is recognized as one of the greatest gathering points for pure-bred stock in the South, mention is made that the Percheron Society of America is this year offering its special prizes at the Raleigh Fair, which is one of only four Southern Fairs to be so honored. It is stated that by resolution of the Executive Committee all questionable shows and doubtful games have been forbidden the grounds.

On the amusement side there is borne the news that the Fair has contracted with the Glenn H. Curtiss Co. for aeroplane flights each day of the Fair on a guarantee-to-fly basis, the aviator to be Lincoln Beachey or Hugh Robinson. Beachey is the birdman who flew under the bridge at Niagara, while Robinson did likewise at Cairo, Ill., under a railroad bridge over the Ohio. These two were the only flyers to finish in the cross-country race from New York to Philadelphia, and both were stars at the Chicago Aviation Meet, where Beachey made a new record for altitude—11,578 feet.

Another attraction mentioned is California Frank's Wild West show with its fifteen carloads and 200 people. Then there is The Great Calvert, star high-wire specialist.

Special mention is made of the miraculous painting, "In the Shadow of the Cross," to be exhibited for the first time in the South. It has figured at the great world expositions and been a topic of discussion among clergymen and scientists.

But aside from all this the little book is valuable for the information it contains, and is well worth preserving. Write for a copy to the State Fair, Jos. E. Pogue, Secretary, Raleigh, N. C.

"I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success," writes Mrs. M. E. Basford, Poolsville, Md. For sale by all dealers.

ALL WRONG.
 The Mistake is Made by Mary
 Louisburg Citizens.

Don't mistake the cause of backache. To be cured you must know the cause. It is wrong to imagine relief is cure. Bankard's Kidney Pills. You must cure the kidneys. A resident in this vicinity shows you how. Eugene Thorne, Adams Ave., Henderson, N. C., says: "I used Doan's Kidney Pills and must say

that they benefited me more than any other remedy I ever tried. For years I had kidney trouble and I suffered almost constantly from backache and distressing pains in my loins. Some days I was hardly able to stand for more than twenty minutes at a time and I rarely got a full night's rest. I took several kinds of medicine and also wore plasters, but I found no relief. Doan's Kidney Pills were finally recommended to me and getting a box, I began their use. They removed my aches and pains and restored me to better health than I had enjoyed for years. Some years ago I publicly endorsed Doan's Kidney Pills and at this time I am glad to speak in their praise again. The benefit I received has been lasting."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A DREADFUL SIGHT
 to H. J. Barnum, of Freeville, N. Y., was the fever-sore that plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic. Only 25c at Aycock Drug Co.

Reflections of a Bachelor.
 Mighty few people would lie if it was a good habit.
 A man's political views are governed by his bank balance.
 It's queer what a good head a man can have for business until he goes into one for himself.
 A blind man ought to be able to see a girl's eyes aren't green when she says they are blue.
 You just can't make a woman see how when you live in a house: you own it's rent just the same.

NO NEED TO STOP WORK.
 When your doctor orders you to stop work, it staggers you. "I can't," you say. You know you are weak, run-down and failing in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength, and vigor to your system, to prevent breakdown and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at Aycock Drug Co.

Winter Cover Crops.
 Every farmer owes it to himself, to his family and to posterity, to take the best care of his land that he possibly can; to maintain its fertility and to keep it from washing away.
 Investigators, whether scientists or practical farmers, have found that winter cover crops of any kind prevent land, in a large measure, from washing and when turned the following spring make it more productive than if no crop had grown on it.
 An experiment covering a number of years, in one of the North West states, showed that more plant food was lost from the land during the months when no crops were grown on it than was taken off in the regular summer crops. If this was true in that state where they have long and cold winters when leaching is impossible for weeks at a time, how much more would it be true in North Carolina with her open winters when plant food can be leached from our soils almost any week during our winter months.
 A ton of green rye contains, according to good authorities, about 66 pounds nitrogen, 3 pounds phosphoric acid and 14.6 pounds potash. A ton of green wheat contains 10.8 pounds nitrogen, 3 pounds phosphoric acid, and 14 pounds potash. Green oats contain just a little less plant food than does green wheat. A ton of green crimson clover contains 8.6 pounds nitrogen, 2.6 phosphoric acid, and 9.8 pounds potash. Red clover, Bur Clover and the vetches contain more plant food in their green state than crimson clover does. The wheat and rye mentioned above was probably grown on fertile land which explains their high percentage of nitrogen, for it is an established fact that crops grown on rich land contain more nitrogen than when grown on poor land. For that reason grain grown on rich land has a higher feeding value than that grown on poor land. It may be well for us to remember this when growing grain for our own feeding purposes.
 Rye, wheat and oats take nitrogen from the soil and store it in the plant, thus saving much of this costly element of plant food that would otherwise be leached from the land by our winter rains. The stools or bunches and their roots and leaves retard the flow of water and act as brakes which will prevent to a large degree the washing of our rolling lands. The clovers save the land from washing in the same way and in addition to this are beneficial by

being able to take nitrogen from the air through the agency of bacteria which adds to the fertility of the soil. But to grow these latter crops successfully the soil must contain the bacteria peculiar to the particular crop grown.
 It has been the experience of many of our farmers that any crop grown after a winter-cover crop, when turned under at the proper time in the spring, and disked well before and after turning, will produce a great deal more, often as much as 50 per cent more, than if no winter-cover crop had been grown. The seed for a cover crop will cost from one to five dollars an acre according to kind and quantity of seed used. This should save to the soil and add to the next year's crop more than twice the cost of the cover crop.
 Sow at the rate of 15 to 20 pounds crimson clover seed per acre and cover lightly with harrow or cultivator. These can be sowed in growing crops on stubble land, or after peas. Sow from 20 to 30 pounds of vetch per acre if sown with small grain, and if sown alone put 40 to 50 pounds per acre. Rye should be sown at the rate of one to one and a half bushels per acre.
 An application of manure, or from 200 to 500 pounds acid phosphate, per acre and 25 to 50 pounds muriate of potash on sandy or gray land, will be helpful to the clovers and vetches. For rye or other small grain it may be better to add 2 per cent nitrogen to the above.
 It is now time to commence putting these crops in. When put in cotton fields it is better to sow immediately after the pickers, as in that way no cotton will be knocked out in covering the seed.
 Put in the crop that will succeed best in your locality and experiment with other crops in a small way until you are assured they will make satisfactory growth on your land and land under your conditions.

"AFTER 15 YEARS I AM WELL"

Mrs. Mary Amanda Nash, of Lumberton, N. C., writes: "For years I was a severe sufferer from chronic dysentery, brought on by acute indigestion. It also brought on catarrhal headache which debilitated me so I had to lie down three or four hours each day. My general health was greatly impaired, and I was weak and nervous. One day I had one of those terrific headaches, and my daughter-in-law suggested that I try Mrs. Joe Person's Remedy. I did so, and the very first dose relieved that headache. I continued to use it, and for the first time in fifteen years I am well. It is the best medicine compounded in this world."

MRS. JOE PERSON'S REMEDY.
 It restores energy to laded digestive organs, stimulates a healthy flow of gastric juice, and brings every portion of the stomach back to normal health. It is a strictly vegetable compound and contains no harmful mineral ingredients whatever. As a Tonic, Alternative, Blood Purifier and Nervine it has no equal.
 Don't permit any disease of the stomach to go untreated. As soon as you feel the slightest effects of indigestion or any of the other ailments directly attributable to a derangement of the digestive organs, begin at once the use of Mrs. Joe Person's Remedy and a complete cure will be an easy matter. If your trouble is of long standing, this Remedy will still cure you—but it will, of course, take longer.
 We want you to write us for testimonials from those who once suffered the tortures of indigestion, Dyspepsia and other stomach ailments, but who are now sound and well, and eat what they want without a sign of distress.
 In cases of external trouble, inflammation, ulceration or itching humor, our Wash should be used with the Remedy.
 For sale by druggists, or supplied direct on receipt of price, \$1.00 per bottle; 6 bottles for \$5.00; 1 dozen by express prepaid for \$10.00, by

Riverside
INDEPENDENT
Warehouse
 Louisburg, N. C.
 September 8th, 1911

Tobacco is HIGH and on every sale it goes HIGHER. You will just have to hitch up and come to the Riverside Independent Warehouse to find out how high it really is. We boys are going to see that tobacco put on the Riverside floor brings the top dollar and there are three of us around each pile for this purpose and we know our business and furthermore it keeps us awful Dog-Gone Busy to attend to it. In fact we are running the Riverside Independent Warehouse for the benefit of tobacco planters of this section (and ourselves) regardless of whether it pleases our competitors or not. Come to the Riverside and make yourself at home.
