

BE A BOOSTER

(By Homer Clark Bennett)

Do you know there's lots of points
Settin' round in every town,
Grownin' like a broody chicken,
Knockin' every good thing down?
Don't you be that kind of cat,
Cause they ain't no use on earth,
You just be a booster rooster,
Crow an' boost for all you're worth.

If your town needs boostin', boost'er,
Don't hold back an' wait to see
If some other feller's willin'—
Sall right in, the country's tree;
No one's got a mortgage on it,
It's just yours as much as his.

If your town is short on boosters,
You get in the boostin' biz.

If things don't just a em to suit you,
An' the world seems kinder wrong,
What's the matter with a boostin',
Just to help the thing along?
Cause if things should stop a goin',
We'd be in a serry plight.

You just keep that horn a blowin',
Boost'er up with all your might.

If you see some feller tryin',
For to make some project go,
You can boost it up a trifle,
That's your cue to let him know.

That you're not a goin' to knock it,
Just because it ain't your "shout,"
But you're goin' to boost a little,
Cause he's got "the best thing out."

If you know some feller's fallin',
Just forget 'em, 'cause you know
That same feller's got some good points—
Them's the ones you want to show.

"Cast your loaves out on the waters,
They'll come back," 's a sayin' true,
Mebbe they will come back "battered,"
When some feller boosts for you.

State Fair.

We have just received from the North Carolina Agricultural Society a striking little booklet that is a bright gem in its class. It is tiny, but full of facts and figures about North Carolina and her Great State Fair that will be held for the fifty-first time at Raleigh on October 17, 18, 19, 20, 1911. There are only eight small pages and a neat, very tasty cover, all of a size to fit in the ordinary envelope. Cute shows a birdseye view of the Fair Grounds while the fair is going on and Lincoln Beachey flying in his Curtiss aeroplane over Niagara Falls.

There is an appreciation of North Carolina that carries a point in every paragraph, a fact in every sentence, clothed in a style as attractive as the story it tells, and all in one small page.

The marvelous progress of the state told in a comparative table of crop agents for 1905 and 1910, and a similar alignment of statistics of the manufacturing industries. In addition there are comparative values of farm land and buildings, implements and machinery, labor and fertilizers.

In a brief review of the work of the State Fair the booklet calls attention to the fact that it is chartered without capital stock, its real property being held in trust to secure a bonded debt, any profits made going into a surplus which is spent in improvements and increasing premiums. The construction of the reinforced concrete agricultural building at a cost of \$7,000, the new building for women and other buildings last year are touched upon, as well as the modern poultry building to be ready for the coming Fair. Figures show 88 solid carloads of exhibits last year against 42 in 1909; 3,501 separate entries against 1,201, and \$8,191.54 net premiums paid against \$5,598.07. As evidence that the Fair is recognized as one of the greatest gathering points for pure-bred stock in the South, mention is made that the Percheron Society of America is this year offering its special prizes at the Raleigh Fair, which is one of only four Southern Fairs to be so honored. It is stated that by resolution of the Executive Committee all questionable shows and doubtful

games have been forbidden the grounds.

On the amusement side there is borne the news that the Fair has contracted with the Glenn-H. Curtiss Co. for aeroplane flights each day of the Fair on a guarantee-to-fly basis, the aviator to be Lincoln Beachey or Hugh Robinson. Beachey is the birdman who flew under the bridge at Niagara, while Robinson did likewise at Cairo, Ill., under a railroad bridge over the Ohio. These two were the only flyers to finish in the cross-country race from New York to Philadelphia, and both were stars at the Chicago Aviation Meet, where Beachey made a new record for altitude—11,578 feet.

Another attraction mentioned is California Frank's Wild West show with its fifteen carloads and 200 people. Then there is The Great Calvert, star high-wire specialist.

Special mention is made of the marvellous painting, "In the Shadow of the Cross," to be exhibited for the first time in the South. It has figured at the great world exhibitions and was a topic of discussion among clergymen and scientists.

But aside from all this the little book is valuable for the information it contains, and is well worth preserving. Write for a copy to the State Fair, Jos. E. Pogue, Secretary, Raleigh, N. C.
